WEDNESDAY, Oct. 2, 1907.

All reports given by the leading newspapers of the metropolis of Oregon, tells of the great influx of Eastern people to this State, brought by the persistent and thorough advertising that has been given it by the press, the various commercial bodies, the wisely conducted Development League of Portland, and the Colonist rates made by the transcontinental railroads.

Thousands of these tourists are investing in lands or industries and will remain here, and other thousands may return to their Eastern homes, but only to dispose of their property there, to return here and make this state their home in the near future.

But where have all these thousands gone to? and is there any particular part of the state that is more enticing than another, eliminating the fact of the adaptability to the purposes desired? We would answer this in the negative, and believe that the counties and cities that have done the most talking, will receive the greatest benefit from this rush to the Pacific coast.

Our own county of Lane, or it would be more correct to say the northern part of it, has been well advertised by the rustling citizens of Eugene who are building up a city that in a short time will be a formidable rival to any city in the valley outside of Portland, and could the Willamette river be made navigable, we do not doubt but that its energetic citizens would even crowd Portland in time.

Lane county is large enough to support two good cities, and Cottage Grove should give Eugene a hard tussle for supremacy, and at least one-half of the new-comers to the county should be headed for Cottage Grove. Although some advertising has been given southern Lane by our people, it has not had one-fourth of what it deserves. The advantages it can offer are so diversified as to meet the wants of all. We can furnish material for sawmills, shingle mills, box factories, fruit and vegetable canneries, we have work for a foundry or a factory of any kind; we have agricultural land for the farmer, truck land for the gardener, grazing land for stock raiser, fruit land for the horticulturist, timber for the logger and mineral galore, discovered and undiscovered. In fact there is no end to our resources, but we are too modest to talk out loud about it.

Let us from now on make a big noise; let's take hold of hands, and reach out and grasp every opportunity to increase our population, and all pull together to build up our town, and not let up until we are connected by electricity, and made Eugene a suburb. Let us begin at once, by following the example of some other towns, and gather together, and make a permanent exhibit of grain, grasses, fruit, vegetables, minerals and woods, so that strangers can see what southern Lane county can boast of. Although Cottage Grove is not so

situated at present as to be a railroad division or eating station, it is the gateway to the rich Bohemia mining section, and a large number transients frequently spend the night here, and leave with very little idea of the great resources and opportunities surrounding us.

Don't worry about your kidneys when you can obtain 30 days' treatment of Pinesules for \$1.00. These little globules bring relief in the first dose. Backache, Lumbago and Rheumatism yield quickly. Eugene has made a record for progress and has set a pattern for the cities under ten thousand population for the entire Pacific coast. She has built a first class, hard surfaced pavement from the depot entirely through the business district and has let contracts for double that amount. Her new electric cars equal those to be seen in larger cities. She has raised a twelve thousand dollar advertising fund and will employ an expert at \$5,000 a year to handle her publicity.

The Commissioner of the General Land Office has issued an order which requires the registers and receivers of all United States land offices to prepare all applications to make entries and filings on public lands when they are requested to do so by the applicants. This order will insure greater accuracy in papers of this kind, and be a saving to the applicants who have heretofore been required to have their applications prepared at their own expense.

To cure a cold first move the bowels. Bees Laxative Cough Syrup acts gently on the bowels, drives out the cold, clears the head. It's pleasant to take and mothers highly recommend it for colic, croup, and whooping cough. Guaranteed to give satisfaction or money refunded. Equally good for young and old. REBEKAH'S DISTRICT CONVENTION

The district convention of the Rebekahs was held in Odd Fellows hall at Springfield Tuesday, September 24th, and a delightful time was had. Emma Galloway, president of the assembly, and past President, Ella Frazer were both in attendance, besides Mesdames Whitson, Rankin, Willoughby, Wilson, Peter, Dillard, Williams and Day, and Brothers Willoughby and Williams, all from Eugene; also some eight or ten from Coburg were in attendance.

A nice luncheon was served at the noon hour and, after the business was all transacted ice cream, cake and fruit was served.

The following officers were elected to serve the coming year: Mary M. Martin of Springfield, chairman of convention; Bessie Day, Eugene, vice chairman; Sophia Foster, Coburg, secretary.

The convention will meet in Coburg next year.

Everyone departed for home in jolly good spirits, fully convinced that the convention was one of the best ever held in the district.

The following lodges are in the district: Eugene, Creswell, Goshen, Mapleton, Florence and Springfield. Goodly representations from all lodges were present.—Springfield News.

RESOLUTIONS ADOPTED.

The following resolutions were adopted:

Resolved, That thanks be tendered the Eugene unions for courtesies, and also for the use of the Baptist church, and the words of encouragement by the pastor, O. C. Wright.

Resolved, That the unions of Lane county desire to express appreciation for the faithful and untiring fidelity which the county officials show in their effort to enforce the local option law, realizing they are fighting the subtle and unprincipled class. We rejoice with them over every victory gained.

Resolved, That we tender our thanks to the county press for their liberality and courtesy in giving us space in their valuable papers.

Resolved, That it is the sense of this convention that the blank reports be sent us earlier, giving us more time to prepare reports.

This is Worth Saving

The following simple home-made mixture is said to relieve any form of Rheumatism or backache, also cleanse and strengthen the kidneys and bladder, overcoming all urinary disorders, if taken before the stage of Bright's disease: Fluid Extract Sarsaparilla, one-half ounce; Compound Karger, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after meals and at bedtime.

A well-known authority states that these ingredients are mainly of vegetable extraction, and harmless to use, and can be obtained at small cost from any good prescription pharmacy. Those who think they have kidney trouble or suffer with lame back or weak bladder or rheumatism should give this prescription a trial, as no harm can possibly follow its use, and it is said to do wonders for some people.

For legal blanks—Nugget office.
