TRYING TO HELP OREGON.

Oregon Senator Gives His Views of Late Financial Stress.

Washington, Nov. 11.—The Treasury Department is receiving demands from all parts of the country for aid. Secretary Cortelyou has made large deposits in New York, believing he could thus best relieve the country generally by enabling New York to relieve the balance of the banks throughout the country.
 I am doing my utmost to secure assistance for Oregon. The President and Secretary Cortelyou are anxious to render the earliest possible relief. While I am unable to specify a definite time, personally I am hopeful of securing additional Governmental deposits within two weeks and believe the acute stage here in the East has passed and that the situation will daily improve.

In my opinion, the present situation is in a great measure due to the exposures of the last three years of the methods used by a few financiers in certain insurance, trust, railway and traction companies, by which public confidence has been shaken. The fact that Roosevelt is President and the implicit confidence the people have in his ability and determination to rectify these evils has saved the country from the worst panic ever known. The country generally is most prosperous and with Roosevelt at the head the evils will be corrected and legitimate business protected. President Roosevelt has been the financial savior, instead of the wrecker, as some of the reactionaries would try and make the people believe.
