This paper is kept on file by THE AMERICAN MINING CONGRESS, Chamber of Commerce Building, Denver, Colo., where our readers will be welcome to the use of the leading papers from the various mining sections of the West, a scientific library and mineral exhibit.

THIS PAPER is kept on file at E. C. Drake's Advertising Agency, 61 and 65 Merchants Exchange, San Francisco, California, where contracts for advertising can be made for it.

WEDNESDAY, Dec. 11, 1907.

A divided city council is in the way of much that could be accomplished in the best interests of our city.

Linn County Council patrons of Husbandry and Governor Chamberlain are very chumming, but the vote of the people on the University of Oregon appropriation will remove the stain put on the state, by so great a majority that the opponents to education will forget that they are on earth.

Citizens are waking up and not only soon will they be heard from but at future elections candidates will have to show their hand pretty thoroughly before people interested in the welfare of Cottage Grove will stand for the "stand still" movement now going on.

The city council evenly divided with the mayor on the wrong side is the way one member of the city gaddies may say the mayor is on the right side. We say get unanimous and give Cottage Grove a chance to grow.

F. B. Phillips is a good presiding officer, a man in whom the people have confidence and the Commercial Club made a wise selection in electing him president. It is certainly the right thing to pass the honors along, third terms are not popular and one term is the best policy. The retiring president, Fingal Hinds held down the chair for one year with honor to the club and credit to himself. Mr. Hinds was rigid in calling meetings at the tick of the clock and his method of dispatching business cannot be improved upon. He did not believe in clique rule or the appointment of committees that would not work. He retires with the good will of all and is sure to continue his efforts through the club to secure for Cottage Grove all that is coming, as has been his motto since the organization of the club.

In the summary of cash on hand in the Oregon banks outside of Portland, the reports of December 3rd to the Comptroller of Currency makes a splendid showing for the financial institutions of the state and gives the First National Bank of Cottage Grove fourth place in the State for reserve fund on hand and first place in Late county.

The law requires a reserve fund of 15 per cent. The First National of Cottage Grove has 51 per cent, or 36 per cent. more than is required.

Conservatism, accommodation and straight-forward business principles count when close times are imminent. We do not boast over less fortunate communities, but we congratulate ourselves on having solid banking institutions in our city, and feel some pride in reading that Cottage Grove has a bank that leads all banking institutions in the county for reserve money on hand to pay its patrons.

F. B. Phillips and other property holders on Main street encouraged the paving project brought to the attention of the Commercial Club Monday evening. Ben Lurch, probably the largest holder of frontage and on whom the greatest expense of any one man would fall made no objection but did not commit himself. We venture to say that when the issue is up Mr. Lurch will not be found in the back ground. He has always been in favor of city improvements and to the front with his share of expense. He knows a good thing when he sees it; every dollar expended in street or city improvements adds ten to the value of the property. Of course you can count on Mr. Lurch.

PORTLAND CORRESPONDENCE.

The statements of the National banks of Portland on Dec. 3rd proved that they had ample cash—more than the most enthusiastic had anticipated. The same is true of banks throughout the state.

"Eighty chances to win—you can't lose" is the slogan of the Portland Commercial club in its final work connected with the \$5000 prize contest closing Dec. 31st. People in general seem engrossed with the financial conditions, and their neglect makes the chances of those who do compete even more pronounced.

The Oregon apple has captured the Orient and Russia. Yadjgoul Brothers of Vladivostok, after making a display in one of the principal show windows of the city, removed the display and after it was crowned and surrounded with American and Russian flags it was photographed and is to be reproduced in colors for international advertising. Thus the glory of the Oregon apple goes around the world. The display was unusual because most of the boxes were shown ready for ocean shipment, each encased in burlap. Varieties of apples included the winter banana, Orley, Hyde's King, and Arkansas Black.

"Profitable Advertising," published in leading journals of its character in the United States, reproduces the letterhead of the Oregon Development League in its December number, and prints an exhaustive letter from the secretary telling of the League's methods and accomplishments. Oregon is nationally known for her development work.

October and November statistics for wheat and flour shipments from Portland and Puget Sound ports are particularly interesting as showing the immense resources being converted into actual cash in Oregon and Washington. 7,434,691 bushels of wheat and 640,012 barrels of flour are the exact figures yet it must be remembered that the crop is only just getting under way in earnest.

During the two months of Fall colonist rates, Sept. 1st to Oct. 31st the Denver & Rio Grande railroad sold 8,081 homeseekers' tickets to the northwest, which was an increase of 2,817 over last year's business, or more than 50 per cent.

President E. T. Judd, of the Oregon State Dairy Association, becomes more enthusiastic as the convention approaches and says that the 12th of December will see a splendid lot of dairy products entered for award. The committee in charge of arrangements is already in receipt of several cheeses from Tillamook and the next boat will bring a very complete line for display. Delegates are being named by the various commercial bodies in every mail.

The meeting of Oregon businessmen at the Portland Commercial Club on the 1st, followed by the announcement of Governor Chamberlain that the present holidays would be discontinued after the 14th have been the most discussed events of the week. That the representatives from forty communities should unanimously unite in resolutions forcefully expressing confidence in the outlook and financial strength of the entire state is in itself indicative of constantly bettering conditions.

Mineral Locations on School Sections.

Editor Daily Mining Record—I have a group of four mining claims located. Three of them are in whole or in part on a school section. In amended locations I have the claims grouped and have each claim recorded and named as belonging to said group. I am running a tunnel for the purpose of crosscutting the ledge. The tunnel is in the hill to a depth of 125 feet, crosscutting the formation. The tunnel is not on the school section but near the section line. I have information from the clerk of the state land board that the school section, "at a later date is to be advertised and sold to the highest bidder." What is my status with my mining claims?—Oregon Subscriber.

Answer.—The so-called school sections upon the public domain are granted to the states by the national government. While the grant is a general one and reservation is made thereunder, it is manifest that the title cannot pass to the state until survey is made and approved. Only a general answer is possible in this case, because it is supremely important to know whether the survey of the school section has been made and approved and the title passed to the state. This is important, for the reason that it is the intention of the government to reserve mineral lands, the grant including only non-mineral lands. If, however, the title passes to the state under the assumption that it is non-mineral land, the title is not revoked by subsequent discoveries of mineral. When the usual school section, No. 16 or 36 of the township, falls upon land that is known to be mineral bearing, the mineral ground is subject to location and the state is indemnified by an allotment of non-mineral land in some other section. In the case of mineral lands that have passed to the state the discoverer must deal with the state. The state of Colorado holds two sections in the Cripple Creek district. On the other hand, some of the richest ground in the Goldfield district has been staked and the title to the property has passed to the state of Nevada had it been surveyed before the discovery of gold at this place.

University Notes.

The University of Oregon is experiencing the largest demand in its history for graduates, both men and women, to take principalships and positions as teachers in the high schools of the state. Of the fifty-three members of last year's class, twenty are teaching in the high schools and colleges of Oregon and the northwest, and the demand was much larger than the supply. At the present time there are a number of positions vacant because there is no one available who is adequately prepared to take them. The University would be able next year to place as teachers some forty or fifty men and women, if its graduating class furnished that number. The class of 1908 now numbers about sixty members.

University of Oregon football men during the season just past have made good records in the class room as well as on the football field. The records of the Registrar's office show that of the twenty men composing the regular squad, only half a dozen have received grades as low as 'D' in any of their subjects. There have been no failures and their work as a whole compares favorably with that of last year, when in the final examinations in February, the football team ranked slightly better than the average for the whole student body. The records show also that for the two months just past, football men have cut fewer classes than any other class of students. Reports of absences of all students are sent to the Registrar's office daily and a careful record is kept. The University works on the theory that students are there first to study, and this means regular attendance at classes.

Announcement.

Preaching at Saginaw next Saturday at 7 p. m. and Sunday 11 a. m. and 7 p. m. Everybody invited. D. E. BAKER, Missionary.

DOWNWARD COURSE

Fast Being Realized by Cottage Grove People.

A little backbone at first. Daily increasing till the back is lame and weak. Urinary disorders quickly follow. Diabetes and finally Bright's disease.

This is the downward course of kidney ills. Don't take this course. Follow the advice of a Cottage Grove citizen.

Mrs. Alice Coffman, living on the west side, Cottage Grove, Ore., says: "I was in a miserable condition caused by backache and I suffered for a long time, unable to shake off the disease. I was constantly weary and worn out. My general health became undermined and I could not get relief. I became discouraged and none of the remedies I used gave me any relief. I happened to learn of Doan's Kidney pills about this time and decided to try them although I did not hope for much relief. I procured a box at Benson's Pharmacy and took them carefully. Before I had finished all of the first box I could see that they were helping me. I continued with this remedy and by the time I had finished the third box the disease had completely left me. I am today without a sign of kidney disease and am very grateful to Doan's Kidney pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Prepare This Yourself.

For those who have any form of blood disorders, who want new, rich blood and plenty of it, try this:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime. Any good pharmacy can supply the ingredients at small cost.

This is the prescription which, when made up is called "The Vegetable Treatment" by others, "The Cyclone Blood Purifier." It acts gently and certainly does wonders for some people who are sickly, weak and out of sorts, and is known to relieve serious, long-standing cases of rheumatism and chronic backache quickly.

Singer, New Home, Wheeler & Wilson and Standard sewing machines at Veatch & Lawsons.

KILL THE COUGH AND CURE THE LUNGS
