A PITIFUL CASE OF INSANITY

"Jack" Houston Has to be Taken to Salem.

Dr. H. C. Schief, of Cottage Grove, and an attendant brought A. J. Houston, of Lorane, to Eugene yesterday to be examined for insanity. He was taken before the regular board, with Drs. W. L. Chesbire and Dr. Schief and it was found that he is a fit subject for treatment at the hospital at Salem.

Some years ago, "Jack" Houston was one of the best known and most prosperous citizens of Scio, where he conducted a large mercantile business. One dark night as he was going home from the store, an enemy struck him on the back of the head with a heavy club or billy, crushing in the occipital bone and leaving a depression in the skull, from which there has been quite a pressure on the brain. Two years ago he commenced to show signs of mental aberration, and has grown worse ever since, so that it was necessary to resort to this procedure. He is 78 years of age, and before his affliction was a man of fine disposition and genial temperament, but he was greatly changed. Several times since the injury pieces of bone have worked out of the wound. He will be taken to Salem this morning by an attendant.—Register.

A Good Result

Under the operation of the new Pure Food Laws, baking powders now generally bear on the labels a statement of the ingredients. This is of utmost importance because of the harmful ingredients used in many cases.

Royal Baking Powder is known to be the only baking powder made of Royal Grape Cream of Tartar, and this no doubt explains its greatly increased sale here. Careful housekeepers are taking advantage of the protection which the Laws afford, and are examining all the reading matter on the back of the label before adopting any brand for use in the home.

When in place of the words Cream of Tartar the words "alum" "aluminum" or "phosphate of lime" appear among the ingredients, they heed the warning and avoid baking powders containing these substitutes.

Chicken Show Tomorrow

The members of the Calapoia Poultry Association, under whose auspices the poultry show will be held in this city on the 12th, 13th and 14th, are in great glee. Up to 8 o'clock Tuesday morning over three hundred and fifty birds had been entered, and the entries are still coming in.

Word has been received from the Commercial Club at Eugene that they will be down on Friday afternoon in a body to attend the show and cement the good feelings that already exist between these neighboring cities.

The Association has placed on exhibition in the large show window of W. A. Hemenway the valuable prizes which are open for competition in the show. It certainly is a fine display and reflects the greatest credit on the merchants of this place who have so kindly come to the assistance of the Association in showing their appreciation of the good work the Association has undertaken.

Prof. Dryden who has charge of the Poultry Department at the Oregon Agricultural College, will be in the city Friday evening, the 13th, and will deliver before the Association in the show room, a lecture on poultry. This will be a rare treat for all who are interested in poultry and an event that no one should miss. Professor Dryden has lately taken this department, coming from Salt Lake and is a speaker of fine ability and well versed in his particular department.

The baby show is creating a great deal of enthusiasm among the mothers of the city and surrounding country and a good number of entries are expected. Some very handsome prizes are up, and while one will win, all will be at their best. There is no sickness of any kind in Cottage Grove so do not stay away on account of any talk you may hear.
