BUILDING A MINI- ATURE CITY

Spokane Will Show Herself in Hand-
 Carved Reproduction at the Eewis
 and Clark Fair.

Portland.—One of the most novel
 exhibits at the Lewis and Clark Ex-
 position will be the city of Spokane,
 Wash. The city is to be removed
 to Portland aboard a car, and it
 will not require a very large car,
 either. Spokane in miniature is
 now being built. A civil engineer
 and an artist are the builders, and
 the Spokane Chamber of Commerce
 is the sponsor. The minute city, a
 beautiful reproduction, with a
 stream of real water to represent
 Spokane Falls, will occupy a room
 in the balcony above the mining ex-
 hibit in the Washington state
 building at the fair, and Spokane
 people will proudly point out the
 places of interest in their city with-
 out finding it necessary to take the
 tourist thither. It is the expecta-
 tion, however, that the tourist who
 sees the reduced fac-simile of
 Spokane will be so charmed that
 he will go up to see the actual city.

The plan is to reproduce the city
 in detail from Jefferson street to
 Davidson street between Mallon
 avenue and the Northern Pacific
 railroad. To the sightseer the city
 will appear as if seen from an eleva-
 tion over the river at Jefferson
 street, and he will be looking away
 to the north, the east and the south.
 The foundation of the city which
 will include the streets, curbs and
 sidewalks will be of cement from
 two inches to six inches thick. The
 district to be reproduced will be
 made on an absolute scale of 30 feet
 to the inch, which will make the
 exhibit 10x12 feet. The cement
 foundation will be divided into 10
 sections, weighing 120 pounds each,
 so that it can be safely moved.

The buildings will be hand-carved
 from pine. Each city block will be
 made separately, and will be fast-
 ened upon the cement foundations
 by dowels. That will permit the
 whole thing to be taken apart for
 shipment. After the details of all
 the business buildings are carved
 they will be painted in the actual
 colors of the structures. The bridges
 will be reproduced of wood and
 wire. The outlying portions of the
 city will be painted upon canvass
 and adroitly joined to the little
 city so as to appear in natural per-
 spective.

A camera journey to the Lewis
 and Clark Centennial Exposition, is
 the title of a booklet just issued by
 the passenger department of the
 Great Northern railway.

A copy of this handsome, as well
 as interesting booklet is just re-
 ceived at this office. There are
 about fifty pages of reading matter
 and pictures of the Exposition site
 and buildings besides numerous
 pictures of the splendid scenery to
 be seen and reached along the line
 of that railroad, and is printed on
 finely tinted book paper. It's worth
 sending for and keeping after its
 receipt. Address Passenger Depart-
 ment Great Northern Railway, St.
 Paul, Minn.
