NO. 2

DEVELOPMENT LEAGUE CONVENTION

Large and Enthusiastic Meeting in Portland.

The Oregon Development League composed of fifty-three commercial men in the state held its convention in Portland this week.

Matters of importance to the whole state were discussed and many good resolutions adopted, among them were:

IMPROVEMENT OF TRANSPORTATION.

Henry Hahan followed with a motion, which he supplemented with remarks upon the manner in which Oregon has been retarded in development by lack of transportation facilities. It is up to the state to express their wants in a plain way, he said. The resolutions follow:

Whereas, Practically all of the road systems operating in this state are under one control and one management, and

Whereas, For a number of years but little additional mileage has been built in this state, and

Whereas, A large portion of this state is now without proper transportation facilities, and

Whereas, Said portions of said state have great natural resources and large bodies of unoccupied land, which only need transportation facilities in order to be settled and developed, and

Whereas, It is absolutely essential to the interests of this state that parts and portions thereof such transportation facilities be furnished at once, and

Whereas, On several different occasions direct statements have been made that new roads would be built and extended into the interior of the state, as well as to the coast lines thereof; now, therefore be it resolved, That the Oregon Development League, composed of members from all parts of the State of Oregon, does hereby express its belief that said roads have not been built, and does hereby earnestly request the said transportation companies to build railway and furnish transportation facilities to the portions of this state without them.

Resolved, That the Oregon Development League will co-operate in every possible way with the U. S. Congress, to be held August in the Auditorium at the Exposition.

M. Bailey, State Dairy and Commissioner, submitted a report in which was:

During the last six years the dairy industry has developed from practically nothing to its present proportions. There are now 110

creameries producing 5,500,000 pounds of butter, valued at \$1,575,000; 70 cheese factories producing 2,250,000 pounds of cheese, valued at \$247,500. The dairy butter produced amounts to 3,000,000 pounds, value \$540,000; the value of milk sold in cities is \$4,000,000; condensed milk, 166,600 cases, value \$583,310; cream sold in cities, \$307,000, making a grand total of \$7,952,810.

Particular attention is called to the condensed milk industry. Three years ago every can of condensed milk used in this state was imported from the Middle West states. Today Oregon is shipping large quantities of this product to the Mississippi Valley, the South, as well as the Orient.

A. L. Craig, general passenger agent of the O. R. & N., announced to the committee that a rate of one fare for the round trip would be granted for visitors to make trips to see the interior of Oregon.

Hunter's License.

The following is the form of hunter's license and can be procured of the county clerk at Eugene.

No. HUNTER'S LICENSE
State of Oregon, County of _____ ss.

County Clerk of _____ County, State of Oregon.
DESCRIPTION OF LICENSEE UNDER LICENSE NO. _____
Age _____ years
Height _____ feet _____ inches
Weight _____ pounds
Color of hair _____
Color of eyes _____
Other distinctive marks (if any) _____
Scars or other means of identification (if any) _____

Will Build Residence.

This week, Fingal Hinds as agent sold for Charles Bruneau to John H. Medley a lot in the block west of the Wall residence. Mr. Medley expects to begin the erection of a nice residence at once.

Officials of the Way Department and the Interior Department have arrived from Washington and are hard at work installing the exhibits of those executive branches of the government at the Lewis and Clark Exposition.

LARGE LUMBER CONTRACT SIGNED

Dorena Mill to Fill Contract for One Million Feet of Lumber

The first of the week Mr. J. H. Chambers who owns a sawmill at Dorena, entered into a contract to furnish Mr. Thurston, who resides at Dallas, Oregon, with one million feet of lumber.

This begins to look as if the lumber industry is on the gain. It is understood the lumber contracted for will be shipped to California points.

District Endeavor Convention.

The committee having in charge the program for the district Endeavor convention which is to be held at Cottage Grove May 13 and 14 is experiencing some difficulty in securing leaders for some of the conferences.

However the general outline may be given. The convention will open Saturday afternoon at 3:15 with a song service followed by an address of welcome by the pastor of the Cumberland Church, Cottage Grove. Temporary organization will be effected and convention committees appointed. The rest of the afternoon will be given up to consideration of methods of Endeavor work.

Saturday evening will occur a short business session for election of officers for the next two years, followed by the convention sermon by Rev. H. N. Mount of Eugene.

Sunday morning an early prayer service will be held, but the delegates will attend the regular Sunday school and church services. A Junior rally at 3 o'clock will be in charge of Miss Lister of Eugene. At the same time conferences on committee work will be conducted. Miss Lulu Cannon of Sprague meeting at 6:30. The convention closes with a consecration service at 8:30.

A MISSIONARY SPEAKER.

An effort is being made to secure Rev. Herbert Andrews, a missionary from Woodstock, India to preach Sunday evening. Mr. Andrews is very dear to Pacific Northwest Endeavorers, since he has been assigned to them as their representative on the foreign field.

ELLECT DELEGATES AT ONCE.

Cottage Grove is preparing to entertain a large number of delegates, but of course would like to have some idea before of how many to expect. The societies are therefore, asked to send the names of their delegates (one for each 20 members, or part of 20) together with the names of any other members expecting to be present, to Miss Winnie Knapp, Eugene, not later than Wednesday, May 3.

Forest Reserve Rules For Using Timber.

As the timber regulations adopted and enforced by the interior department for forest reserves while this bureau was under that control, are being considered by Gifford Pinchot for such alteration as he finds proper, the provisions restricting mining men having properties on reserves are published herein. These apply, of course, to cutting timber on government land. If a mining man takes up mineral claims, and patent is granted him for the same by the government, he has right to cut timber on all of the property the same as now. But should his requirements exceed that growing on his own ground, he will have to go through the following routine to cut timber for any purpose on a reserve:

Free use is equally granted to settlers, farmers, prospectors and others residing within the neighborhood of a forest reserve. It is supposed to be refused to corporations, companies, saw mill parties and owners of large establishments who require large quantities and are expected to purchase; and it is also refused to non-residents of the state in which the reserve is situated. Free use permits not exceeding \$20 stumpage value may be granted by the forest reserve supervisor. Permits for larger amounts, and under the stumpage value of \$100

are granted only by the secretary of the interior. One person can only apply for the free use privilege other than once a year. The permit for free use, as indicated above, is good for six months after issuance, or such time as the forest superintendent may desire to limit. In securing the timber under the free use privilege, a regulation application must be filed with the forest superintendent, and the timber desired must be located by the forest officer before any cutting is done. Only the timber indicated above, and no more than is applied for. All of the rules governing forest reserves during the cutting and removal must be observed, which requiring cleaning up of the brush and tops and clearing up the cutting area in good shape.

This covers the free use provision. If any one desires to purchase timber, the following provisions must be observed strictly:

1. The applicant who wishes to purchase timber will apply, in person or in writing, to the supervisor of the reserve, stating:

(a) How much timber he wishes to buy;

(b) The kind of material desired;

(c) Where the timber is located.

2. As soon as practicable, the supervisor or his assistant will go over the ground with the applicant, and determine whether the timber may be sold, under what conditions, and at what price.

3. After an agreement is reached the applicant should sign a definite application, prepared on the regular form, with the assistance of the forest officer.

4. After this the forest officer marks out the block or area where the timber may be cut, and estimates the amount of timber on the whole, and also the particular kind applied for. He also makes a general forest description of the tract, block, or quarter section.

5. Then the application, together with the forest officer's description.

6. If approved, the timber will be advertised in a local paper for thirty days (sixty days in California.) This advertisement will be waived only in cases where the amount involved in the sale is of \$100 stumpage value, or less.

7. Bids on this timber will then be in order. These bids, together with a deposit (insuring the good faith of the bidder), should be sent by the bidders to the receiver of the local land office, and the bid will be forwarded from that office to the department.

8. At the end of thirty days (sixty days in California,) the timber will be awarded to the highest bidder; and if the applicant is the successful bidder, the deposit is credited on the sale; if not, the money will be refunded.

9. When the timber is awarded the applicant will sign a contract containing the specifications contained in the original application, as to manner of cutting, scaling, cleaning up, etc., and if the case seems to justify it, he will be asked to give a bond, usually in an amount double the value of the timber, to secure the proper fulfillment of the contract.

10. Cutting may then begin.

11. The material will be skipped or piled in the customary manner, and the purchaser is required to mark the tops of the logs to facilitate scaling.

12. The scaling will be done in the customary way by the old Scribner rule.

This rule applies to saw timber and mining timber. Logs of 24 feet and over in length, are scaled at more than one point; so that a log 24 feet long, for instance, is scaled at 16 feet and at the top. In other words, long pieces are treated as 16-foot logs and fractions thereof.

Appointed Guards.

The following named of Co. A at Eugene have been appointed by Captain C. G. Hammond as guards at the Lewis and Clark fair.

Guards: Wm. Grabtree, Roscoe Riley, Matt. Hughes, Walter W. Baker, Clarence Henderson and Donald Preston. Doc Marshall was appointed cook for the two local companies.

Perfect guarantee go with glasses Madsen's.

TWO STORY BRICK BUILDING

Contract Let and a Brick Block Will be Erected as Soon as Possible.

Mr. C. E. Stewart and the Porter Brothers who, recently purchased the ground of J. I. Jones lying just east of Comer's harness shop, have let a contract to W. L. Hubbel of Cottage Grove to build for them a two story brick building which is to have 60 feet frontage and extend back 100 feet. The contract price is \$7552.

It is understood that Mr. Hubbel takes the entire contract. The foundation which will be of concrete will be started next week.

The brick for the building will be burned by the Wallace Company in their yards just north of the city where they have already begun operations. The building will be made of the best material and well finished throughout.

An Enjoyable Evening.

Wednesday evening a social gathering was anticipated by Mr. and Mrs. Arne, residing in the immediate vicinity of Cottage Grove, whereupon a large crowd of jolly people responded to the call and enjoyed themselves to their utmost ability.

The crowd at first was entertained by flinch, pit, domino, parlor croquet, and other games in which all engaged heartily, also by Mr. J. M. Isham and others, who favored those present by music and song.

After a duration of sometime, small strips of paper containing the name of a flower were passed to both the ladies and men, which were matched and thus obtaining partners for supper. Each person name, age, education, favorite poet, etc., which was done by many and were presented to the party. A few of the best were from the hand of Eber Browne, Mrs. A. Corpron, Mr. F. L. Gunn and Miss Jessie Berg. Of the above named the following was termed best:

"Oh, Home, he was a poet grand
With many words at his command;
Of all the works of his creation,
"The Builders" wins most appro-
tion.
When he first saw the sun to shine,
"Twas in the year of 1809;
At last there was a great hoo hoo,
When he died in '92.
But Eber Browne is in a fix,
For he was born in '86;
His whiskers need a razor keen,
Because he is just sweet nineteen."

A dainty supper consisting of coffee and cake, sandwiches and lemonade was then served to the approval of all, after which departure was taken.

Beside the Arne family the following were present: Messrs. and Mesdames J. I. Jones, J. M. Isham, H. C. Hart, Alex. Corpron, F. L. Gunn, W. A. Hogate, Mrs. F. B.

Phillips; Misses Sophia Osberg, Jessie and Georgetta Berg, Winon Gunn, Stella Cochlin, Etta Holterman, Alice Huff, Jennie and Nora Hull, Katie Finity, Muriel Schmutz, Edna Archibald, Gertrude Palmer, Messrs. Charley Hull, Charley Conner, Eber Browne, Fred Waehlte, Earnest Sears, Herman Palmer, Menzo Finity, Bert Burrows, Robert and Roy Gunn.

Fines Imposed.

During the months of March and April the following list show the work done by State Game Warden Baker and deputies and fines imposed:

William Slavin, killing elk \$25.00.
J. R. Tucker, killing deer \$25.00.
Pete Lanoti, killing deer \$25.00.
S. Mordan, selling trout, \$20.00.
J. C. Haight, killing deer, \$25.00.
W. Forst, outgaged hides, \$25.00.
Two cases yet unreported.

When Deputy G. W. Marvin at Glendale arrested W. Frost, he had a little trouble with that gentleman as he threatened to shoot any one who interfered. The deputy proceeded to take Frost's gun away from him, took possession of the team and man and drove to town where the trial was had and fine imposed. Costs of the trials were added to the above fines.

Killed Two Cougars.

Clarence Winter, the photographer, is down from his ranch on Fall Creek and tells of the killing of two big cougars which had devoured two of his goats.

Mr. Winter missed his goats and set about to ascertain the cause of their disappearance. He discovered where something had climbed his picket fence, dragging the goats over it. He informed Dot and Bud Kintzley of the matter and they took their "varmint" traps over, and the cougars were dragged over, and within a short time a big cougar was freed. The animal was killed and in two or three days its mate was also brought down. This occurred about two weeks ago.—Eugene Guard.

Concert Postponed.

The Band concert has been postponed to Tuesday evening May 9th on account of the convention to be held here May 5.

The Boston Herald will send a large party of New England teachers to the Lewis and Clark Exposition.

Two special trains magnificently equipped, will bring to the Lewis and Clark Exposition in July several hundred of the business men of Denver, under the auspices of the Denver Commercial Club. In the party will be a number of millionaires. This promises to be the most elaborate commercial "junket" ever undertaken in America.
