W. W. Cotton, for many years attorney for the O. R. & N. Co., is to be appointed U. S. District Judge for Oregon to succeed Judge Beltinger, deceased. The appointment meets with great approbation except perhaps with those who regard all corporation management as only another name for extortion and corruption. However, Cotton is a well equipped man for the place, and far too broad in views and training to allow himself to be influenced by things improper. He comes of a good family, his father having years ago served in the U. S. senate from Illinois, and the judge, for we may now apply that title, has been talked of for the senate from Oregon. He is not a politician, however, though a pronounced republican, and never attempted to organize a campaign for that office. Besides being a thoroughly trained lawyer, Cotton is a farmer, not of the theoretical book class but practical and successful. He is but 45 years of age, in perfect health and thus bids fair a term of thirty years on the bench.

Was Honest in Politics.

This is the way in which Mark Twain once introduced Gen. Joseph R. Hawley at a public meeting, according to the Hartford Times: "I see I am advertised to introduce the speaker of the session and on that head (political) I have only this to say: First, see that you vote. Second, see that your neighbor votes. Lastly see that yourself or neighbor don't scratch the ticket. Gen. Hawley was president of the Continental commission, was a gallant soldier in the war. He has been governor of Connecticut, member of the congress, and was president of the convention that nominated Abraham Lincoln. Gen. Hawley—That nominated Grant. Twain—He says it was Grant, but I know better. He is a member of my church at Hartford, and the author of 'Beautiful Snow'. Maybe he will deny that. But I am only here to give him a character from his last place. As a pure citizen I respect him, as a personal friend of years I have the warmest regard for him; as a neighbor whose vegetable garden joins mine, why, I watch him. That's nothing we all do that with any neighbor. Gen. Hawley keeps his promises, not only in private but in public. He is an editor who believes what he writes in his own paper. As the author of 'Beautiful Snow' he added a new pang to winter. He is broad-souled, generous, noble, liberal, alive to his moral and religious responsibilities. Whenever the contribution box was passed I never knew him to take out a cent. He is a square, true, honest man in politics and I must say he occupies a very lonesome position.

School Election

Monday's school election at which time a director was elected to fill the vacancy by reason of the expiration of Mr. Wooley's term and a clerk of the board, became quite interesting before its close. W. R. Johnson and F. B. Phillips were the candidates for director and for a time it was very close between them. At the last Mr. Phillips' friends outnumbered those of Mr. Johnson and the vote stood 42 to 33 in favor of Mr. Phillips.

While helping to move an iron rail at the Siuslaw jetty last Wednesday forenoon Fred Cassidy received a blow on the head from which he has since been confined to his bed. The rail was lying in a sloping position, one end being on the jetty and the other end in a scow. Fred took hold near the lower end and gave a pull outward to make the rail slide down on the scow. When it dropped it struck a log somewhere near the middle and this threw up the other end and it struck Fred a violent blow on the head, rendering him unconscious. He was put on board the Robarts and brought to Florence, where he was placed under the care of Dr. Luckey. He revived later and prospects are good that he will recover. Last fall, while helping move the old schoolhouse, Fred received a blow in nearly the same place on his head, from which he was up for several weeks—Florence West.

DEPARTMENT OF COMMERCE AND LABOR, BUREAU OF FISHERIES, Washington, June 12, '05.

D. T. AWBREY.
 Arrangements are being made to fill your application for rainbow trout which will be delivered at Cottage Grove by Bureau of Fisheries cars within 40 days. Please indicate by return mail on the accompanying card your readiness to receive the fish.

Have ready on the depot platform placed for an immediate transfer of the fish when the train stops, clean cans or other vessels, each holding not less than five gallons. Enough cans should be provided to hold 110 gallons.

GEO. M. BOWER.
 The above letter was recently received by Mr. Awbrey, who some time since put in an application for young trout which when received he will place in the small streams tributary to the Row river and the Coast Fork. Some months ago he built a small hatchery near the Flour mills, and after the eggs were hatched the little fish were placed in the mill race, being prevented from escaping by fine wire screens. By such efforts it will be but a few years before these streams will furnish splendid angling.

A Good Investment.

J. P. Rogers, a Salem business man, bought a large block of Japanese bonds before the fall of Port Arthur for 88 cents. The bonds are now worth \$1.00 and are expected to rise to \$1.25.

Bright's Disease and Diabetes.

We desire to place in the hands of those afflicted with Bright's Disease and Diabetes a 36-page pamphlet that is saving human lives. It is not an ordinary pamphlet, such as is commonly used to advertise medicines, but is principally made up of reports of scientifically conducted tests in a large variety of cases, showing 87 per cent of recoveries in these hitherto incurable diseases.
 The specimens employed in these tests are known as the Fulton Compounds and the results obtained prove conclusively that these dreaded diseases so long fatal the deaths from Bright's Disease alone are appalling, over 100,000 a year, starting as kidney troubles) have at last yielded to medical science. The pamphlet is free. Write to the John J. Fulton Co., 409 Washington street, San Francisco, Cal.
 When to suspect Bright's Disease—Puffy ankles or hands; weakness without apparent cause; kidney trouble after third month; frequent urination, (may show sediment or cloudy on standing); falling vision; day drowsiness—one or more of these.

LOOKS LIKE A MIRACLE

Mr. John C. Newton of Baker City Relates How He Was Cured—Dr. Darrin to Remain Until Oct. 1.

Eugene Register.
 It is with pleasure we print the following card, coming as it does from Mr. Newton. He is so well known in Baker City that his word cannot be controverted. It seems that the use to which electricity is being applied are not alone confined to the arts, but it is destined to do what medical and surgical skill has failed to accomplish.

One reason for Dr. Darrin's success is that he does not take all cases that apply for treatment. If he deems their case incurable after thorough examination, he so informs his patient, and his examinations are free of charge.
 Mr. Editor, Sir:—For eight years prior to calling on Dr. Darrin I had been totally deaf in my right ear. Dr. Darrin cured me so I can hear perfectly and as well as ever in my life. I can hear a clock tick across the room, or a low conversation. The cure was performed January 9th. I most urgently recommend his new cure by electricity to all. I reside below the public schoolhouse, Baker City, and will gladly talk with any one.
 JOHN C. NEWTON.
 Dr. Darrin can be consulted free at his office in the Smeede Hotel, Eugene until October 1.
