

MILK GOATS.

The American Breed—One of Mrs. Edward Roby's Flock.

Since it has become evident that the Angora goat industry is quite securely established throughout the country generally many people have very naturally begun to consider the possibilities of another industry, which in some respects is closely allied to it—namely, the milk goat industry. In order to answer the numerous questions that it

WATITA, AN AMERICAN MILK GOAT.

has received concerning every phase of milk goat management the department of agriculture has issued a bulletin of information on this subject.

The inquiries have come mainly from two classes of our citizens—those who were reared in foreign countries where goat's milk was very largely or solely used and those who have read of the economy of goat keeping and the reported value of the milk for children and sick people. The second class includes many physicians who, believing in the hygienic virtues of goat's milk, would like to see goat dairies established in the neighborhood of all large cities. Among interesting statements of the bulletin are the following on "The American Milk Goat."

Watita, an American Milk Goat.
Watita is a name which has been suggested for the breed which it is desirable to develop by selection from the so called common goats now in this country. It is known that among these goats there are often found some excellent milkers, although their origin is obscure. We are told that some of the Italian immigrants have frequently brought with them from the old country very young kids in baskets. These were cared for as one of the children and among the children, and they have no doubt grown up and exerted a considerable influence upon the general average of the milk supply in the neighborhoods to which they were taken. Other good milkers are said to have been brought from Bermuda, and this blood has probably had its effect also. We should not be surprised, then, when we occasionally hear of a goat that will give from one to two quarts of milk a day.

Very recently this bureau has been informed by a business man of New Jersey that there is a large number of goats kept in the Italian quarter at Palisades Park, and upon special inquiry he learns that the average amount of milk produced, so far as an estimate can show, is three pints per day. This milk retails among the Italians at 12 cents per quart, and butter is also made there from goat's milk to a limited extent which sells at retail in New York city at 30 cents per pound.

Saanen Goat in Switzerland.

These are the kind of goats that should be selected as a foundation for the American breed, and if their milk

SWISS GOAT.

characteristics were further increased by crossing with either the pure bred Toggenburg or Saanen bucks which are now in this country we should soon see a breed that would produce a satisfactory amount of milk and at the same time have all of the hardiness possessed by our common goats.

Some work along the lines suggested has already been done in various places, and occasionally a very good milk is produced. One of these animals showing excellence is Watita. When this doe was fresh and on green food she "gave almost a gallon of milk per day," to quote her owner's words. The illustration, which is furnished by Mrs. Edward Roby, the owner, of Chicago, shows the doe at three and a half years old and three months after her second kidding. At the first kidding of the doe she dropped four kids and three the second time. Her conformation and record show her to be a very desirable animal as one of the mothers of the American milk goat.

The Gapeworm.

The gapeworm stays in old yards all winter and comes to the surface when the days get warm. He is discouraged by cleaning up and the liberal use of lime. A good way to fool him is to locate the poultry yard in a new place that is high and dry.—Farm Journal.

THE CODLING MOTH.

Facts About the Different Broods. How Spraying Works.

By R. H. PETTIT, Michigan.
Spraying is an old remedy, but one that is very effective and by far the best means at hand. A spray of paris green put on while the apple stands upright and before it turns down after the blossoms fall and the stamens wither will deposit a small amount of poison inside the calyx cup, which poisons after a short time, dries and remains indefinitely. Now, as the majority of the first brood and sometimes the second brood as well enter at the calyx the poison could not be better placed. Early in the season fruit tunneled by the codling moth falls to the ground, thus thinning the fruit and saving the tree from the drain of supporting damaged fruit.

The Second Brood.

Later, in the case of the second brood, the situation is different. The larvae get into the fruit, much of which rots, while some appears to be healthy until after it is packed and stored away, where the larvae finish their development slowly and spin cocoons in the barrels or bins. The first brood does less damage than the second, but the size of the second brood depends largely on the proportion of the first brood that lives through. A spray applied just about the time that the young hatch out, during the first week of August, should and does reduce the second brood very materially. The reason for this is found in the fact that the majority of the eggs are laid on the leaves, which readily take and retain the poison.

Underspraying.

The fact that the larvae feed for the most part on the under side of the leaves makes the advantage of underspraying apparent. If more than two sprays are to be applied they may be put on one soon after the first application and the other about ten days or two weeks after the first August spray, the period midway between the two being a time of comparative inactivity.

CULTIVATING CORN.

Prompt Use of the Weeder a Big Point in Corn Growing.

The chief purpose of cultivating corn, with most farmers, is to kill weeds. Yet a very important object may be to warm and dry the soil, or, on the contrary, to stop evaporation and save the moisture for the corn. The best time to kill weeds is as soon as they have sprouted and before they come up. At this time the ground will often seem filled with the fine threadlike rootlets, and if they are stirred and brought to the surface they will soon die. This can be most easily done by use of harrow or weeder.

The cornfield should be gone over with weeder three or four days after planting and at about the same interval thereafter. There is a temptation to let it go until the weeds begin to show and the field looks green. This is a mistake, for after the weeds begin to show the weeder will not do nearly so good work. If the use of the weeder is well followed up the weeds may be kept down with it alone at a great saving, for it will cover twice the space and in half the time, saving three-fourths of the time required by the cultivator.

A great mistake is often made at this point in neglecting the corn to plow and plant more ground, when often the actual yield would be greater if the time and work were given to the crop already planted. Neglect of the corn leads to loss in the crop that is not counterbalanced by the gain on the additional area planted.

Sometimes it is necessary to cultivate corn while it is wet for the purpose of drying the soil and, by exposing it to the air, warming it. This can be done in cloudy weather. The ground should not be worked deep and should be ridged as much as possible. Then, if stirred at the right time again, the work will be found a great benefit.—Ohio Farmer.

The Moon and the Weather.

Those who farm "by the moon" may be interested in a report of observations made for summers during several years at Greenwich on the moon and the barometer or the relation of barometric variations to phases of the moon. The observations show "few days of low barometer about (just after) full and new moon, many such days about (just after) the quarters." The results, therefore, for the summer half of the year seem to confirm the popular belief that the weather tends to be more settled about full moon.

Exclusive Corn Diet.

It has been concluded at the Wisconsin experiment station that it is impracticable to raise young pigs on an exclusive corn ration. "The feeding trial made dwarfed animals out of every pig in lot 1, fed exclusively on corn. While they gained some in flesh, they did not develop in bone, and as time went on their vitality decreased. The hair on their bodies became thin and their skin hard and scaly. Toward the end of the trial they were indifferent about eating and showed considerable uneasiness."

Slugs on Roses, Currants, Etc.

Dr. John B. Smith of New Jersey tells that the most lasting remedy for the slugs which every gardener is familiar with as feeding upon the foliage of currants, roses and even the leaves of pear and cherry trees, is arsenate of lead. This may be safely applied to the foliage of any garden plant that is likely to be infested, and once sprayed the foliage will remain safe for a long time. All the slugs succumb readily to arsenical poisons, and complete exemption from trouble may easily be secured.

AN ELEGANT SUMMER BOOK

Splendid Publication Just Issued by the Oregon Railroad and Navigation Company.

"Restful Recreation Resorts," the 1905 Summer Book issued by the department of the Oregon Railroad and Navigation Company, of forty-eight pages and cover. The book is printed on heavy white paper, fifty-eight cuts being used to illustrate the trips up and down the Columbia river, to the mountains' beaches, inland resorts and fountains of healing. The cover is done in three colors, adding materially to the beauty and effectiveness of the publication, which may be had by sending two cents in stamps to A. L. Craig, General Passenger Agent of the Oregon Railroad and Navigation Company, Portland, Ore. It is a good thing to send to your friends in the East who expect to visit the Lewis and Clark Exposition.

INDIGESTION CURED.

There is no case of Indigestion, Dyspepsia or Stomach Trouble that will not yield to the digestive and strengthening influence of Kodol Dyspepsia Cure. This remedy takes the strain off the stomach by digesting what you eat and allowing it to rest until it grows strong again. Kodol Dyspepsia Cure affords quick and permanent relief from indigestion and all stomach troubles, builds up the system and so purifies that disease can not attack and gain a foothold as when in a weakened condition. The constantly increasing use of Kodol Dyspepsia Cure by physicians of hospital and general practice of itself tells how this most wonderful modern discovery has proven to be the greatest digestant for the alleviation of a suffering humanity. Its many cures of both children and adults grows day by day. Sold by The Modern Pharmacy.

Round Trip for One Fare.

The Southern Pacific railroad has decided to make a rate of one fare for the round trip from Portland to all points in Oregon to as far south as Ashland, for visitors from the East to the Lewis and Clark Exposition, to enable them to look over western Oregon, that they may have an opportunity to locate or invest.

The tickets will be good for 15 days, with stop over privileges. Holders of Exposition round trip tickets from the east can purchase these tickets at this rate, it will depend upon the energy shown by the community as to the number of visitors secured.

The pills that act as tonic, and not as a drastic purge, are DeWitt's Little Early Risers. They cure Headache, Constipation, Biliousness, etc. Early Risers are small, easy to take and easy to act—a safe pill. Mack Hamilton, hotel clerk at Valley City, N.D., says: "Two bottles of these Famous Little Early Risers cured my chronic constipation. Good for other children or adults. W. H. Howell, Houston, Tex., says: "For years I have used Little Early Riser Pills in my family. No better pill can be used for constipation, sick headache, etc." than these famous pills. Scores of testimonials prove their worth. Sold by The Modern Pharmacy.

Southern Oregon Chautauqua.

"The Southern Oregon Chautauqua Assembly will be held at Ashland, July 12th to 21st inclusive. Reduced rates have been made by the Southern Pacific Co. on the certificate plan, from points on Oregon Lines.

This assembly promises to be of unusual interest. Among the prominent speakers will be Dr. F. W. Gunsauls, Dr. Wm. A. Quayle and Rabbi Stephen S. Wise. Special attention will be given the musical department. The Assembly building has been enlarged to double its former capacity, making ample accommodations for all."

W. E. COMAN,
General Passenger Agent.

A SMOOTH ARTICLE.

When you find it necessary to use salve use DeWitt's Witch Hazel Salve. It is the purest, and best for Sores, Burns, Boils, Eczema, Blind, Bleeding, Itching, or Pruritus Piles. Get the genuine DeWitt's Witch Hazel Salve. Sold by The Modern Pharmacy.

Bright's Disease and Diabetes.

We desire to place in the hands of those afflicted with Bright's Disease and Diabetes a 35 page pamphlet that is saving human lives. It is not an ordinary pamphlet, such as is commonly used to advertise medicines, but is practically made up of reports of scientifically conducted tests in a large variety of cases, showing 92 per cent of recoveries in these hitherto incurable diseases.

The specifics employed in these tests are known as the Fulton Compounds and the results obtained prove conclusively that these dreaded diseases so long fatal (the deaths from Bright's Disease alone are appalling, over 100,000 a year, starting as kidney troubles) have at last yielded to medical science. The pamphlet is free. Write to the John J. Fulton Co., 409 Washington Street, San Francisco, Cal.

When to suspect Bright's Disease:—Puffy ankles or hands, weakness without apparent cause, kidney trouble after third month, frequent urination, may show sediment or cloudy on standing; falling vision; day drowsiness—one or more of these.

FOLEY'S HONEY AND TAR
Cures Colds; Prevents Pneumonia

CROSS EYES CURED

Dr. Darrin Has Chosen July 15th and 16th for Treating Such Cases All Varicoels, Hydroceles, Strictures and Other Operations.

Eugene Journal.

Among Dr. Darrin's specialists he is an expert operator in straightening cross eyes, and can straighten the worst eyes in less than twenty minutes. The worthy poor treated free.

The operation is rendered painless by a local anesthetic, and no chloroform or ether used. Patients can return home the same day, with no detention from a business or occupation. Cases may call now and make appointments for treatment during the two days, July 15th and 16th, and avoid the rush the doctor has on his special days. The following references, taken from many, prove the doctor's success:

Mrs. B. Bickford's son, Roseburg, cross eyes; cured.

E. E. Grout, LaGrande, Ore., cross eyes; restored.

Miss Maggie Synhorst, LaGrande, Ore., cross eyes; cured.

Miss Lucy Moran, Monmouth, Ore., cross eyes; cured.

Miss Mary Walter, Portland, both eyes crossed; cured.

A. Taylor, Pendleton, Ore., stricture; cured.

W. W. Thompson, Vancouver, Wash., hydrocele; cured.

A. J. Armstrong, 110 Third Street, Portland, varicocele; cured ten years ago.

Miss Bettie Snow, Edison, Wash., cross eyed since two years old; cured in one minute. The following names will go far to substantiate the doctor's skill in Miss Snow's case:

"We, the undersigned, living at Edison, Wash., have known Miss Bettie Snow all her life, and know of her eyes being crossed and that she was successfully cured by Dr. Darrin:—
"Rev. R. C. Fads, Rev. George Buzelle, W. J. McDonald, postmaster; W. B. Chamberlain, chief of police; A. D. Harris, druggist; D. C. Smith, I. W. Hard, jeweler."

J. Whittemore's daughter, Pendleton, Ore., cross eyes; cured.

William Muckle's boy and girl, Ranier, Ore., both cross eyed; cured.

J. Kinbley's boy, postmaster at Progress, Ore., cross eye; cured.

Lena Hamilton, Dayton, Wash., cross eyes; cured.

E. A. Huntie, 119 Dexter street, Seattle, had been operated on twice unsuccessfully for cross eyes by other physicians before going to Dr. Darrin; cured.

Miss Mary McConnell, Genesee, Idaho, cross-eyed; cured; also her brother was cured of consumption five years ago by Dr. Darrin.

Fanny Kennedy, Walla Walla, Wash., both eyes crossed since a child; cured.

Edward Stanfield, North Yakima, Wash., cross-eyed 28 years; cured.

Dr. Darrin can be consulted free from 10 to 12 daily, evenings, 7 to 8, at the Sunnyside Hotel, Eugene, until October 1. All curable chronic, acute, and diseases of a private nature treated with electricity and medicines before and after above dates. Letters of inquiry answered. Circulars and question blanks set free.

The Leader office is prepared to turn out the very highest class of commercial job printing. We guarantee satisfaction.

Lewis and Clark Exposition Ticket Rates.

INDIVIDUAL TICKETS

Cottage Grove to Portland & Ret \$5.90, good for 30 days, but not later than Oct. 31st, 1905.

PARTIES OF TEN OR MORE

One fare for the round trip good for ten days, (must travel together on one ticket both ways) \$4.40

ORGANIZED PARTIES OF ONE HUNDRED OR MORE

One fare for the round trip party moving on same day, but individual tickets will be sold under this rate and can return at any time within ten days from date of sale, \$4.40.

The above tickets on sale daily between May 29th and Oct. 15th, and no stop overs allowed in either direction.

QUALITY VS. QUANTITY

Hard muscles and strong body do not depend on the quantity of food you eat, but on its perfect digestion and proper assimilation. When you take Kodol Dyspepsia Cure your system gets all the nourishment out of all the food you eat. It digests what you eat regardless of the condition of the stomach and conveys the nutrient properties to the blood and tissues. This builds up and strengthens the entire system. Kodol cures Indigestion, Dyspepsia, Belching, Sour Stomach, Weak Heart, etc. Kodol Dyspepsia Cure for what is sometimes called America's national disease—Dyspepsia—is destined to eventually work a wonderful and lasting benefit to sufferers from this distressing and mind harassing condition. Sold by The Modern Pharmacy.

Old papers for sale at the Leader office 15 cents per hundred.

THREE GOOD AND JUST REASONS

There are three reasons why mothers prefer One Minute Cough Cure: First, it is absolutely harmless; Second, it tastes good—children love it; Third, it cures Coughs, Croup and Whooping Cough when other remedies fail. Sold by The Modern Pharmacy.
