Dr. Sherman of San Francisco is censuring Dr. Lorenz method of operating on cases of congenital dislocation of the hip, and advocating an incision in performing the operation, instead of Lorenz so-called bloodless operation. Until Dr. Sherman can cure by his method as many or more cases than Dr. Lorenz we will have to be content with the method used by Dr. Lorenz.

The Portland chamber of commerce has sent a copy of a resolution to the president favoring Chinese immigration. Among the many reasons set forth are, that the Pacific coast has no reason to fear Chinese immigration more than other sections. A new treaty with China is needed. They ask that the same rights be given them as other foreigners to enter and live in the United States, with suitable restrictions. They are needed to do menial work. For trade and commercial reciprocations.

General Trepoff is the next on the list of the Russian Terrorists, and he believes that he will be killed. The terrorists seem to have gotten nearly everyone on their list as they have gone along and it is a pretty sure case for any official so listed. How would you like to be a Russian official with such a danger impending? Is it any wonder the officials are harsh and cruel when they get such men in their power. Affairs all throughout the Russian Empire are becoming more and more alarming, the peasants, the laboring classes and middlemen even are in revolt, and sooner or later there will be one great revolution, and the question before the world will be, are there among such people men of worth and brains enough to rule and control a republican government, and have the people sufficient intelligence to well use such a power. It seems not, and we are confronted with the problem of a power in the hands of people not fit or able to wield it.

The ordinance presented to the council last Monday night, to take the place of Ordinance 70, and Section 13 of Ordinance 5, besides repealing the Sunday Closing law, which is its main object, gives us a new liquor license and restraining regulations, the license regulations and restrictions are in some ways preferable to the old law, in other ways not so strong, and while the main bulk of the ordinance is on the liquor question, the whole thing is for the effect of Section 5, to repeal the other ordinances and give an open saloon on Sunday, as well as other houses, for so long as the ordinance governing other stores is not put into effect, and all saloons are not kept absolutely closed, or serve wines or liquors through restaurants attached, the saloon men will claim they are not getting a square deal. And if we did close all of them up absolutely enforcing the rules of Section 13 of Ordinance 5, the saloon keepers would still have a good cause to object because the laws would not keep some drug stores, if they saw fit to do so, from being practically open saloons, for we all know that such things do exist in some places, if not here.

The large majority of the people of Cottage Grove, without a doubt would prefer to see every business place in town closed up on Sunday, with the exception of the doctors offices, the hotels, the drug stores, and then only for actual medical preparations, with a clause absolutely forbidding their selling liquor on Sunday, the telephone office, and possibly the livery stable. No dealer in any kind of goods loses a cent by being closed on Sunday, if you want or have to have anything and cannot get it on Sunday you will buy it the day before or after, just as well. Do you think every merchant loves to be shut up in his store so well that he would rather stay there all day Sunday, than get out for a time with his family? If your merchant or dealer

wishes to go to his office and shut the door and write his letters or work by himself, that is his business and no one has any objection as long as he does not keep his store open for business. Some objection has been raised to the Sunday Closing law, saying, there are those who do not observe as Sunday the day commonly accepted as the Sabbath day, therefore such a law compels them to observe an extra Sunday however you will notice that those same people, as a rule, keep their stores open on their own Sabbath, and should be ready to observe the day set by general consent as Sabbath; and in fact many of them are glad to do so.

Some claim that Section 13 of Ordinance 5 is invalid, and show that it was framed on exactly the pattern of a law declared invalid by the courts before our law was adopted, if so what was the use of adopting it, why not instead have made a law worth something.

If we should repeal Section 13 of Ordinance 5, and in its place frame a law that really has some power, that does close everything up, then we would be fair to all, and we would be not only gainers in peace, and quiet on the sabbath, we would gain in respect, and standing, nor would we lose any money or trade through it.

If anything should be closed the cigar shops with their gaming, card, and other amusement devices should be shut on the sabbath too, for that is where your boy spends a good part of his sabbath now.

Geo. W. Lauth was hung at 12:35 p. m. Thursday for the murder of Mrs. Lenora B. Jones at Oregon City last September.

The Southern Pacific railroad is doing a good deal of improving this year. Roseburg is also getting a new water system for the trains and shops.

The meat markets are having a hard time with the hot weather in trying to keep a good stock of meats of all kinds on hand. Try Bartels, they always keep the freshest and best on hand.

Chas. Moore, jointly indicted with Harry Wright for furnishing guns to Tracey and Merrill, on June 9th 1902, in which three guards were killed was tried and convicted at Salem this week, the jury returning a verdict of murder in the second degree. Wright is now on trial.

The Great Eastern Vitagraph Co. gave a very good show here last night. This is a company that is here for a couple of days. The singer and dancer is quite pleasing, in her part. Saturday night they will give Uncle Tom's cabin and prize fight pictures. The Vitascopes is the greatest thing out in the picture line.

Some people around town are finding fault with the council from shutting off their water for irrigating their lawns and gardens whenever they want to use it. It does seem a little hard if a man is poor and needs his garden for his livelihood, and another man is richer and wants his lawn for his pleasure that the water must be shut off of both, yet when lives and property would be endangered by a shortage of water the only thing to do is to take any precautions necessary, even such as the council has set forth, in order that not only our property may be safe but our people as well from fires.

Rev. Grant Stewart is visiting the fair and reports having a fine time. He says the Exposition is much more easily seen and appreciated through its better arrangement, and speaks of the tasty arrangement of the Lane County Exhibit. He further adds, "the Trail is a Sunday school in comparison to the Chicago Midway and the St. Louis Pike, if external exhibitions are a proof of their true character."

After viewing the Klondyke Placer Mine, Mrs. Stewart was ready to start for Klondyke at once, as the miner panned out only \$1400 for her view. They will have a good rest and have a pleasant time in attendance on the Church Congress, returning here about the 21st.

Ten to Fifteen Millions for Investment in Japanese Bonds

Subscriptions in Chicago to the Japanese loan are variously estimate from \$10,000,000. The known amounts were those received by the Illinois Trust and the Merchant's Sons and Trust Companies. The former reported approximately \$2,200,000 and the latter \$2,000,000.

While the oversubscription was regarded as larger than that of the previous loan, the subscribers were different. This time banks and banking houses predominated, while for the previous loan individual subscriptions were more numerous. The banks this time were heavy subscribers. The bonds are selling at 91½. The subscription price for both loans was the same, 87½.

At last has America begun her actual tribute to the memory of that famous old admiral. And not alone France, but all the world with her, have done honor to the man so long forgotten by his country. To Gen. Horace Porter belongs the honor of having by years of patient and untiring energy, by sacrifice of money, personal interests and strength, sought out the burial place of the renowned dead. To him that first compelled the nations of the earth to respect Americas navy we now turn with deep appreciation.
