Sunset Magazine, San Francisco.....2.50
Out West, Los Angeles.....2.50

SATURDAY.....JULY 29, 1905

We wonder if the city fathers couldn't build a couple of tight fence enclosures over near the ford so that when the boys and girls go to get ready for a swim, they could have some place to use other than the brush heaps, or have to bother some neighbor.

The people that know say the lumber deal will go through without fail, and if it does the people ought to take a day off and celebrate, for it means more than the most of us can calculate for the town. Mr. Suitor is in much better health and hopes to be down soon, when things will be doing.

One more man has cropped up that has 50,000,000 feet of logs that he would like to make a contract to deliver and he is only about a mile from the O. & S. E. tracks. With 29,000,000,000 feet of logs in the county it isn't likely that we will have to wait for the trees to grow before we can fill such a contract.

The activity of the few women who so earnestly advocate Woman Suffrage is in no sense diminished by the successive failures, their zeal blinding them to the fact the determined and intelligent opposition to any extension of the Suffrage to women is not confined to one locality but extends through the length and breadth of our country.

The school meeting of last Sat. seems to attract considerable discussion from some of the professional know-it-alls, who gather to express their views of how it should be done and would be done if they were it. We don't doubt but that they would do it up their way if they could remember how, but whether their way would be any better than the next man's or not we have our serious doubts. There are however groups of seriously minded and earnest men who do gather to reason out and formulate some method to untangle the problem now before the people in regard to our school matters. The people who pay taxes, and the people who have children in school, above all others should be the ones interested to see that things are straightened out properly. As nearly as we can find, there is no method nor recourse that can be had for the recovery of any money from the contractors, nor can they be compelled to repair the damage to the furnaces, and as long as that is the case the only thing that can be done is to allow the board to have enough money to have them repaired as they should be done. The school board at present in power has only one member that was in office during the time the school building was built, so that if the repairing is done and it will have to be done before school is held in the building again, unless you want to stand ready to be classed as child murderers, the repairing can be done under practically a new board, and you can see how well they will handle your money. There are many people who pay heavy taxes that do not like the idea of having to pay extra taxes for the repair of the furnaces, but they say with the rest of the progressive citizens of the town, we want a good school, and we are willing to pay for it, and to pay up the back warrants and do up our school affairs like we do our business. We have a fine little town here, clean, well situated and healthful with many progressive and thoughtful citizens who are interested in seeing the town grow, not only in numbers but in power and influence and its influence comes largely from the children as they grow up, and unless those same children are educated up to higher and better standards than we ourselves have been educated, they will not raise the town with their ideas and votes, and it we expect them to do so finely we will have to put up a pretty fair example for them to pattern after. We are not all great financiers, and are not all wise in

our business lives and dealings, nor in our private affairs, we all make mistakes and miscalculations, and the man that says he does not do so, is the man above all others to be afraid of, for he will make them, and then instead of owning up like a man, try to palliate it, saying that it was not a mistake, that he had nothing to do with it, etc. The thing for the citizens of Cottage Grove to do, and what they will do will be to come in such large numbers to the school meeting on August 12th, and vote for a tax to give us a good school next year, fix up the building, and pay up the back warrants, that the people who would vote against it will have to take a back seat and stay there, and find out that they are not the people that run the town but the real live hopeful citizens.

J. H. Bartels is fixing up his Main St. market. He has a new beef chopper that cuts it down right.

The portable wood-cutting plants are kept going pretty lively these days, getting the winter firewood cut.

A large number of the young people of the Methodist church went over to Lorane last night to organize an Epworth League there. They had a good meeting.

The Catholic Church is being given two coats of paint. The building needed it very badly, and makes the church a much more attractive point in the neighborhood.

Sunday afternoon over back of the light works there will be a baseball game between the town boys and the Springfield nine. Admission 15 cents.

Thomas Conger is going to move his cigar factory into the store room in between McQueens and the Wilson restaurant. He thinks he will get considerably more business there.

Charles O. Scott, special agent of the Insurance Co of No. America, is in town on business. He says he is proud of the fact that his company is the oldest company of its kind in existence, having been founded in 1792.

Farmer send us something good for the Exposition, advertise your farm by seeing which one can send in the best products. The Fair needs it, you need it, and we all need it to help out the exhibit.

Messrs. Richmond-Meyley Co. had a fair attendance at their entertainment Thursday night. They gave a very delightful two hours show, but had quite a little trouble with their kinetoscope, which however caused them more annoyance than it did the audience.

The O. & S. E. are repairing some of their cars. They are probably thinking of getting ready for a big business. With one sawmill plant just starting out again after being shut down for a long time, and a probability of another big new one in a short time they will have to be getting ready to do some business.

The Lane county exhibit needs farm exhibits and wants the farm of the county to send in products. The people in charge request that any farmer who has any fine fruit, or products for exhibit bring it into town and leave with Mr. F. B. Phillips or at the Leader, office and they will see that it gets to the fair and is well shown off.

The Woodmen of the World are beginning to advertise their four days celebration at Portland on August 3rd, 4th, 5th and 6th. Every woodman is expected to attend and take his family with him. Very fine exercises will be held, and a fine time will be had. Special rates can be obtained. Be sure to go. Everybody is invited, not woodmen alone.

Some questions have been raised about the place where the new saw mill will be located, what trackage it would have, etc. We wish we knew all these things too and that the mill was absolute surety, which we think it is. Without a doubt the timber is assured, the site can be arranged and the trackage also for both O. & S. E. and the S. P. Co. and we hope anything else that stands in the way can be disposed of as easily as these.

The creamery is getting along very nicely, the building is all up, sheathed, the roof on and part of the floor laid. Mr. Stiller expects part of the machinery to be on hand today, and in a few days to have a good part of the machinery in place. He wants to get the work commenced, as there has been considerable delay already beyond the time he hoped to get started. He is also figuring on a cheese plant, and possibly an ice factory and laundry. He has the water and every chance for all three. There is certainly an opening for the right man along these lines and we hope he will start them. That is the kind of men we need that do not only what they agreed but do more besides.

New Orleans.—Several new cases of yellow fever are unofficially reported today, but no deaths. The quarantine is becoming more stringent and detention camps about the city are in operation. Oil is being put on top of all cisterns.

Yellow fever is unofficially reported and officially denied in Shreveport, La. Six deaths were reported in New Orleans from yellow fever last night, making a total of 45 dead to date. All told, over 170 cases have been so far reported.

Over 500 men are busy today carrying out plans for mosquito extermination, cleaning up the city and carrying out the sanitary regulations recently put in force.

A six-day quarantine has been established for all vessels, from South and Central American ports, as the infection is laid at the door of fruit steamers.

The infection in the original area seems to be dying out, as fewer new cases are reported there, indicating that the health measures have been effective. Wherever the slightest indication of fever exists, rigid sanitary laws are applied with the result that there has been no spread from new foci.

The emergency hospital has been opened and today's new cases were brought in to screened ambulances.

Cases are reported at Buckeye in northern Louisiana, three above Canal street and one across the river in Algiers. All are directly traceable to the French market vicinity, where the congested population is responsible for the rapid development of the fever.

Strict quarantine has been enforced by Texas and by Mississippi. Other states have taken no action.

A Sensible Move.

Have Tom Awbrey write you up a policy on your home and furniture in the Oregon Fire Relief Association, or your stock of goods in the Etna Insurance Company.

An Outing for Juvenile Court Chagrins.

This is one of the ways Portland's Juvenile Tribunal gets a hold of the right side of the boys that come under their care. No greater work of late years has done so much for the wayward boys as the Juvenile courts.

With their blankets strapped around their shoulders just as soldiers go when they march to war, 27 charges of the juvenile court left the steps of the court house this morning on their trip to Seaview. The boys were accompanied to the steps by Circuit Judge Frazer, who shook hands with every youngster who wished to bid him farewell and who wished each a happy trip. Probation Clerk Johnson accompanied the boys to the east as an officer of the Juvenile court, and Probation officer Hawley took charge of the boys after they left the courthouse and until they boarded the O. R. & N. company's steamer.

Before the boys left the courtroom Judge Frazer gave them a gentle lecture. He told them that the excursion was an experiment and he wished all to behave properly because if they did not the people who donated so liberally towards the payment of the expenses might not deem it advisable to provide such recreation for the boys in the future.

"But, boys," said the court, "if you misbehave while you are at the court the merchants and other benevolent people will not blame you. They will blame me, I am your friend. Would you like to see me blamed for any of your acts?"

"No, sir," came from 27 throats. "All right, then," said the judge. "Go ahead and enjoy yourselves and when you return at the end of eight days more boys will be sent down. Goodbye, boys."—Oregonian.

Some of the citizens held a meeting Thursday night to discuss the water proposition. There is considerable question whether there is sufficient water in the east and west creeks to supply the amount necessary at present. It is thought that there is not, and that some other plan must be made for dry seasons. Some little discussion was entered into over other plans that were proposed but one seemed to be much better than any other which was that of digging a large well considerably outside of the town, and getting down below bed rock with it, where a large and pure amount of water should be found, which could be pumped out when the other supply was short. A pumping plant would have to be installed. Some suggest a steam plant, others a gasoline, and some one suggested an electric pump that might be run at night when the electric light plant is running, which would not involve the purchase of so much machinery nor so much care of operation.

Dr. Lowe is in town and as genial as ever.

ELECTRICITY.
The Highest Science Ever Applied to the Human System—Three Prominent Citizens of Lane County Testify.

To the Editor:—June 5th I commenced Dr. Darrin's electrical treatment for deafness and head noises. I was so deaf that I could not hear without people getting close to my ears and shouting. The ringing noises in my head were something terrible to endure. After three physicians had failed to cure me I consulted Dr. Darrin, with little faith that he could cure me, but after hearing of J. F. Amis' cure of deafness I plucked up courage and took the electric treatment. Now I can hear ordinary conversation, a clock tick across the room and strike in a distant apartment. The head noises have left entirely. I cannot say enough in praise of Dr. Darrin's treatment which is agreeable to take. My age is 71, and I have resided in Eugene 15 years, and now at 117 Washington street, and will gladly answer all enquiries.
Wm. Ruth.

DEAF 25 YEARS.

To the Editor:—For 25 years I have been gradually growing deaf from the effects of catarrh. Head noises and ringing sounds gave me so much trouble that I was nearly beside myself. I was cured by electricity administered by Dr. Darrin and am not ashamed to say so. I reside at Mareola, Lane county, Or., and advise all similarly afflicted to go to Dr. Darrin. I am German by birth.
Mrs. Louis Reininger.

Mrs. Lyons' Card.

To the Editor:—I wish to subscribe my name in praise of Dr. Darrin, who has successfully treated me for a rasping cough of 30 years' standing, also shortness of breath, loss of sleep, pain in the small of the back and general debility. Dr. Darrin has done more for me in a month than all the other treatments put together for the past 30 years. I am 65 years old, have lived in Walton, Lane county, Or., the past 23 years, and am now stopping with my son, Chas. Lyons, at 205 East 13th street, Eugene, and can be seen there any time. I am extremely well pleased with Dr. Darrin and his electrical treatment and I most heartily commend him.
MRS. JANE LYONS.

Dr. Darrin's Place of Business.
Dr. Darrin is located at the Hotel Smeede, Eugene, until October 1.

NOTICE OF SHERIFF'S SALE ON EXECUTION IN FORECLOSURE.

Notice is hereby given by virtue of an Execution and Order of Sale issued out of the Circuit Court of the State of Oregon for the County of Lane on the 5th day of July, 1905, in a suit wherein George C. Ewen Plaintiff on the 19th day of June 1905 recovered judgement against Loren A. Reed and Lottie Reed Defendants for the sum of Four Hundred and \$2-100 Dollars with interest thereon from said 19th day of June 1905 at the rate of eight per cent per annum and the further sum of Fourteen & 40-100 Dollars costs which judgement was entered and docketed in the Clerk's office of said Court on the 30th day of June 1905 and said writ and Order of Sale to me directed commanding me in the name of the state of Oregon in order to satisfy said judgement costs and accruing costs to sell the following described real property to-wit:

Lot number One in Section Six in Township number twenty one South of Range three west W. M. containing 38.51 acres of land in Lane County, Oregon.
Now Therefore, in the Name of the State of Oregon and in compliance with said Execution and Order of Sale I will on Monday the 25th day of August, 1905, between the hours of 9 o'clock A. M. and 4 o'clock P. M. to-wit at one o'clock P. M. said date at the South west door of the County Court House in Eugene Lane County, Oregon, offer for sale for cash, subject to redemption, all of the above named Defendants right title and interest in and to said above described real property.
Dated this 18th day of July, 1905.
FRED FISK,
Sheriff of Lane County, Oregon.

SUNDAY AT THE CHURCHES

Services will be held at the Methodist Church both morning and evening at regular time. Morning 10:30, subject "Heaven." Evening 8:00, subject "The Divinity of Christ; his life work a proof."
REV. GRANT STEWART, Pastor.
Farmers Take Notice.

The creamery will soon be in operation. You will need a separator. Remember Wynne Hardware Co. handles the Improved Iowa, which is the best Machine on earth.

DeWitt

DeWitt is the name to look for when you go to buy Witch Hazel Salve. DeWitt's Witch Hazel Salve is the original and only genuine. In fact DeWitt is the only Witch Hazel Salve that is made from the unadulterated

Witch-Hazel

All others are counterfeit—have no effect, cheap and worthless—even dangerous. DeWitt's Witch Hazel Salve is a specific for Piles, Blind Stomach, Itching and Pruritus, Burns, Acid Catarrh, Bruises, Sprains, Lacerations, Contusions, Blisters, Carbuncles, Erysipelas, Tetter, Salt Rheum, and all other Skin Diseases.
