Books can be obtained at the depot on application. Get some copies and send them to your eastern friends.

The Creamery has made several new, and has turned out the butter that the town has had a long time. It has so far only had a trial run of ice cream, but soon manufacture it in large quantities. Routes are being established so that commencing next week, there will be at least three churrings a week, and probably more as quick as there is grass for the cows.

W. H. Lincoln and wife have moved to town. Mr. Lincoln has been in charge of the Sellwood Park and has been operated under the management of four posts of the G. A. R. at Portland. This property is owned by the Oregon Water Power Co., and has been improved with water pipes, electric lights, etc. It is a fine place and Mr. and Mrs. Lincoln have greatly enjoyed their stay there.

Eugene is planning for a great sewer system, and electric light plant for which a large bond issue is being advertised. The water system to be established will reduce its water supply from a large well fed by springs along the river bank. From the well the water will be pumped through a large distributing reservoir. Two sets of pumps will be installed in order to protect in case of accident one of the pumps.

Bartels Meat Market has moved to the building next Thorntons. Their new building is being built. It is also rumored that a brick may also be built between Hemenway and Bartels. The building done helps to add to the general prosperity. The new brick building of Stewart and Bartels is rapidly being finished. The firms that are to occupy the building are very anxious to get in.

Jesse McKibben met with a bad accident Tuesday in the saw mill. As a way he threw his hand against a saw, tearing the ends of the first and second fingers almost off. Drs. Kime and Hockett attended him, and had to take out portions of the bone from each finger. The first finger will be all right after a time, and possibly the second, but that is rather doubtful. It is much more badly torn than the other. It will be a marvel of surgery if the fingers are serviceable after such a bad injury.

A birthday party in honor of the anniversary of C. M. Jackson was held at his home Wednesday, which was attended by a number of his good friends. Uncle Burn and Aunt Jane Veatch, Mrs. G. C. Miller and children Steel and Hazel, Mrs. Grace, and daughter Edna, Mrs. L. M. Thompson, Mr. Metcalf and wife, Mr. Brund and wife, and little Miss Hooper. A fine dinner was served to which each one did justice, and hoped for many such gatherings in the years to come.

Mrs. J. H. Davidson is away and Mr. Davidson is batching in her absence. From what he says we imagine batching is not all it is cracked up to be and that he would rather like to see her get back.

J. M. Gikison of Albany was a Cottage Grove visitor Thursday. Mr. Gikison left here about two months ago for Albany where he has an interest in the Carriage factory at that place. He reports a good business, and is well pleased with his work.

F. D. Wheeler and family returned from the coast, Mr. Wheeler says it was hard a trip for him, 3 days going over, 3 days there, and 3 days on the way back. The only thing to pay for the trip was the sight of the many whales he saw. He says he counted 500 or more, some of whom he is sure were 100 feet long.

Geo. Kerr and wife were expected back yesterday from their honeymoon. They will occupy a neat little cottage fitted up by them three doors beyond Frank Phillips. The P. T. Co. are very anxious to see Mr. Kerr back, for he is an able manager and salesman. Mr. McQueen will be glad to get back at his own place of business, after supplying Mr. Kerr's place.

The reason J. M. Kay, the man elected to the superintendency of the city schools, has tendered his resignation to the board, is because State Superintendent of Public Instruction, J. H. Ackerman, has refused to honor Mr. Kay's life diploma from Montana, which of course makes it impossible for him to teach in this state until he has passed a teacher's examination here, and as the examinations are now over he is debarred for this year. It seems a rather strange action for the State Superintendent to take, for life diplomas of one state are practically always recognized by other states, and especially so when another state has a higher educational standing than the state asked to accept such diploma. What action the school board will take has not been fully decided upon, awaiting advice from Supt. Ackerman.

Wedding Bells.

Ever since Adam wooed and wedded Eve, men have believed that "It is not good for man to live alone," and the fairer sex, rather coyly it is true, have agreed with the men. If there is anything that a woman thoroughly dislikes it is a "messed up" house and if there is anything a man can't do it is to "keep house." So men have sought and found pity among the daughters of Eve and "They twain" have become "one flesh" and acting on this Frank J. Taylor and Miss Minnie F. Lee, in the presence of a number of friends at the home of the bride exchanged vows that made them one. The bride was handsomely dressed and the groom neatly attired and so they stood under an arch of evergreen. They made a lovely picture, Rev. Grace pronouncing the words that united them. After the greeting of their friends the newly wedded pair led the way to the dining room where the table groined under the weight of a dinner of good things. Thanks to the providence forethought of Mr. and Mrs. Lee.

May a long life and Heaven's blessings attend them is the wish of their many friends.

KIDNEY DISEASES CAUSE ONE-THIRD OF THE TOTAL DEATHS.

When the Kidneys fail to perform their functions properly by not straining out the poisonous waste matter from the blood as it passes through them, the poisons are carried by the circulation to every part of the body, deranging the different organs. This causes heart trouble, stomach trouble, sluggish liver and a host of other ills, all due to deranged Kidneys.

FOLEY'S KIDNEY CURE

CURED OF BRIGHT'S DISEASE.

Mr. Robert O. Burke, Elmore, Saratoga Co., N. Y., writes:—I am glad to have an opportunity of telling what magnificent results I have had from using FOLEY'S KIDNEY CURE after having tried other advertised medicines and several physicians. Before I began it I had to get up from 12 to 30 times each night to relieve my bladder. I was all bloated up with dropsy and my eyesight was so impaired that I could scarcely see one of my family across the room. In fact, I was so badly used up that I had given up hope of living when I across the room. In fact, I was so badly used up that I had given up hope of living when I across the room.
