The visit of the Taft party to the Philippines surely will result in legislation at the next session of congress that will remove all duties from Philippine products coming into the United States. Otherwise the Sugar Trust will use this reduction of tariff as an argument to deprive the planter of a reasonable price for his product, and have him absolutely at its mercy.

When a young man of 16 can buy a 6 room house and improve it as he has his place on Tennessee street, almost making a new house of it, and putting enough paint on so you will know it is a good job, he must be a hustler. The town needs more such boys to build the town up, they will own it in a few years.

A laborer on the Southern Pacific at this point had a foot badly crushed Thursday. A section crew were carrying rails when the men at one end of the rail dropped it before the other men were ready. The dropping of the end jarred the other end out of the men's hands and it fell on the feet of two men, but only injured one man.
