The program rendered by the Schubert Co. is entirely devoid of waits. Pleading the people is a trade with this famous organization, and they know tiresome waits are not a part of an enjoyable program. Although their program is bright and entertaining and contains a great deal of pure fun, it is so refined in character and the laughs so wholesome, that it is endorsed and patronized by the most select people everywhere. Hear them Nov. 1.

The play entitled "A Modern Magdalene" presented by Miss Margarita Fischer and her able company is surely worthy of honestly earned praise and favorable comment. Miss Fischer with her natural grace, her evident earnestness and deep sympathy with the part she plays assures for herself a bright future. It is worth much to draw an audience into the phase of life presented in a play—hearts may be made purer and lives better, by good actors, and success is sure to follow those who feel this, as well as the fact that they are only entertaining an audience for a few hours.

The settlers in the ditch lands where the Deschutes Irrigation and Power Company ditch is to be built have most of them made contracts with the company so that there will be no conflict nor interference with the work of the company. Great successes are looked for from clover fields, as well as from Alfalfa.
