WOMAN'S SUFFRAGE.

It don't look as though Cottage Grove people took any very great nor serious interest in the movement, from the attendance at the meeting Wednesday, and if Oregon as a whole, pays no more attention than did Cottage Grove's people, the state will undoubtedly vote down the question at an election, and join the large army of the states that have voted that such a movement is not wise nor necessary to the welfare of the country.

Almost every man is glad and willing to have his wife and all ladies enjoy all privileges that they care to that will benefit them or the nation, or that they will honestly enjoy, but the majority of men, and their wives, as well, believe and have found that the welfare of the city, county, state and nation are not helped by the voting of women, for an exceedingly small number of them vote, and the majority of them simply vote the way their husbands, or friends do, and do not take an independent stand. The average woman suffragist wants all the privileges of a voter, but none of the responsibilities, and does not realize that in the majority of states a woman has property and personal privileges that would be lost if they became voters.

Timber Deals.

It is understood that some little hitch over the final purchase of some timber near here is held up for some sureties, but that the matter will be adjusted shortly.

It is unfortunate that the deals should be held back as they are, but the timber must be cut and the mills must be operated, for lumber is too high for any idle mills to remain so long. The days are lengthening, and better weather will be coming soon, so that work can be done on the mills. It will only require a little more patient waiting, and the cooperation of every person, when things are ready to see the good work start forward.

Why We Eat Up Our Sheep.

The most remarkable agricultural movement of our times is said to be that "the world is eating up its sheep." In Germany the flocks have decreased over 60 per cent since 1873, and this is only an extreme instance of what is going on elsewhere. The increasing price of beef is given as one reason of the eating up of the sheep, the dread of tuberculosis is the other.—Sunday Post.

petition.

STATEMENT NO. 1.

I further state to the people of Oregon, as well as to the people of my Legislative District that during my term of office, I will always vote for that candidate for United States Senator in Congress who has received the highest number of the people's votes for that position at the general election next preceding the election of a senator in Congress without regard to my individual preference.

(Signature of the candidate for nomination.)

STATEMENT NO. 2.

During my term of office I shall consider the vote of the people for United States Senator in Congress as nothing more than a recommendation, which I shall be at liberty to wholly disregard, if the reason for doing so seems to me to be sufficient.

The refusal or failure of the state legislative candidate to include statement No. 1 as above quoted, in his petition for nomination, must be for one of only two reasons: Either the candidate is an intense egotist, considering his judgment superior to the combined intelligence of the voters whose suffrage he is seeking, or else he is a "grafter" and wants to be free to sell his vote for either office or money to sell his vote for either office or money to the highest bidder for United States Senatorial honors. Either reason must certainly defeat the candidate.

Some persons may have the tenacity to break personal pledges to individuals but after inserting statement No. 1 in his petition for nomination, thus virtually making a pledge to and with every voter in the state, no sane man would dare break it no matter what inducement might be offered him to do so. Public indignation would force him to leave the state, and the shame would always follow him.

Let the people rebuke the dangerous class, striving secretly, but all the more effectively, for centralized power, specialized privileges, diversified graft; and elect representatives who will enact laws giving the people equality, publicity, simplicity and their resultant protection.

I shall mail a copy of this appeal, together with a postal card similar to the enclosed, to every voter in the state whose address I can obtain. It, therefore, you concur in the views I have endeavored to present herein, kindly sign the enclosed postal card and mail same to me. This request is made solely for the moral effect it will have in forcing legislative candidates to insert Statement No. 2 in their nominating petitions when it becomes known that many thousands of voters refuse to vote for all legislative candidates who decline to do so. This is not in the interests of any individual, but in the interests of every individual, but in the interests of all persons desiring honest government and clean politics.

Respectfully,

JONATHAN BOURNE, JR.

Corvallis Gives Electric Franchise Privileges for Thirty Years to A. Welch, of Salem.

Corvallis, Ore., Jan. 9.—The Corvallis council has granted to A. Welch, of Salem, a franchise for electric power and lighting franchise owned by the Corvallis Electric Light and Power Company runs for eight years yet. The reason assigned for extending the light franchise from eight to 30 years is that by the concession electrical power will be brought to Corvallis which could not be expected other wise. The new light franchise does not take effect until the expiration of the Porter franchise.

There were eight votes for the ordinance and one against, Senator Avery having made a vigorous fight against the concession, offering during the debate to pay \$200 a year for the franchise for light that is to go to Welch, or a total of \$4400 for it, saying that he was authorized by local citizens to make the offer.—Oregonian.
