The years of life are short to some, to others long, yet whichever is our lot, we feel a sorrow to see our friends come to their latter days, even though they may have lived long. P. D. Knowlton, one of the old men of our town, now almost 80 years old is sick, nigh unto death, and is slowly passing from us.

David Griggs says the Portland house cannot ship new telephones fast enough to supply the demand that is constantly growing at this point. More and more phones are contracted for each day and farmer lines are being built in every direction. The latest addition is a line to Divide. The farmers are to meet and let the contract for the building of the line on Saturday night.

Prominent among the men who are before the people at this time for public office in Oregon, stands Chas. A. Johns of Baker City, a lawyer, who has been mayor of his home town for three terms, a member of the school board for some 15 years, and long identified with the business interest of that section. In presenting his candidacy for governor of the state, he states his ground clearly, and hopes to be elected by a large vote, and will stand only for a fearless performance of his public duty, directing the affairs of the state as he would his personal affairs, and upholding the honor of our great state leading the republican party again to victory.

The Petaluma Incubator

A pretty shrewd business man of Cottage Grove noticing a Petaluma incubator on our floor yesterday, remarked: "Why don't you stick that out in front and label it the 'mortgage raiser'?"

That's a good suggestion. It is a name the incubator has earned, and the good hens who lay the eggs for it, also.

Our incubator sales are highly satisfactory this year and you make more honest money for the time expended with an incubator than most any other way.

Send for some literature and see how it strikes you, or come and see them on our floor.

The New Cough Syrup—the one that acts as a mild cathartic on the bowels—is Kennedy's Laxative Honey and Tar. It expels all cold from the system, cuts the phlegm out of the throat, strengthens the mucous membranes of the bronchial tubes, and relieves croup, whooping cough, etc. Children love it. Sold by Benson Pharmacy.

The First National Bank of Eugene is getting ready to enlarge its building, and has bought a lot 10x160 feet from Mrs. John C. Church, at what is considered a pretty high figure. Business is improving there and conditions seem to warrant such an improvement.

All old-time Cough Syrups bind the bowels. This is wrong. A new idea was advanced two years ago in Kennedy's Laxative Honey and Tar. This remedy acts on the mucous membranes of the throat and lungs and loosens the bowels at the same time. It expels all cold from the system. It clears the throat, strengthens the mucous membranes, relieves coughs, colds, croup, whooping cough, etc. Sold by Benson Pharmacy.

Weather—well it could not be better. Springy, balmy, sunshiny. Dr. Woods has a letter from a G. A. R. brother in Spragues Mills, Maine, who says from what he hears of our climate he would like to come here. It is too cold for him there and with our weather he would be happy. We hope he will come and enjoy it with us.

Whatever his hand found to do he did with a will.—A tribute by the Guard.

The Oregon Observer at Grants Pass this week introduced Mr. J. F. Galbraith as the publisher, who although not personally known as such, has been the real head of the paper for some two years past. He proposes to work for the best interests of his section, and will serve the cause of good morals and good government. He feels that the title of his paper is too good for a weekly paper in a rural district, but will be proud to make it a real Oregon Observer, and hopes to be blessed with judgment to rightly interpret the facts observed.

GINSENG

Information Relating to the Richest Product of the Soil.

Prof. Howard of the Missouri State Agricultural College says: "I advise American farmers to cultivate Ginseng. Big profits are realized. It is easily grown." A bulletin by the Pennsylvania State College says: "The supply of native Ginseng Root is rapidly diminishing and the price per pound is correspondingly increasing, while the constant demand for the drug in China stands as a guarantee of a steady market for Ginseng in the future." American Consul General Wildman at Hong Kong writes: "There will be little difficulty in disposing on this coast of all the Ginseng that is grown in America."

Ginseng is a staple on the market the same as corn, wheat and cotton. The present market prices varies from \$6 to \$8 per pound, while the cost of production is less than \$1.50. There is room in one's garden to grow several hundred dollars worth each year. The plant can be grown throughout the United States and Canada in any soil or climate that will grow ordinary garden vegetables. There are two planting seasons, spring and fall.

We are buyers and exporters of the dried product, and grow roots and seeds for planting purposes. Let us show you how to make money growing Ginseng. You can get a practical start in the business for a small outlay and soon have a nice income. Send two-cent stamp today for our illustrated literature telling all about it. Write at once; you may not see this ad again. 17

The Editor acknowledges receipt of a copy of the new 1906 Kodol Almanac and 200 year calendar. Its most important feature is without doubt the very simply constructed 200 year calendar, whereby with absolute accuracy you can tell the day of the week on which any event occurred during one hundred years of the past, or on which any date will occur during the next hundred years, thus giving the day of the week on which any birth, death marriage or any important event may have happened.

Messrs. E. C. DeWitt & Co., of Chicago, Ill., are sole owners and publishers of the Kodol Almanac and 200 year calendar, and will be pleased to mail a company of this booklet to anyone enclosing a two-cent stamp with a request for same, provided this paper is mentioned.

Beaver Pelts Confiscated.

He is very anxious to see the legislature pass a law making a small license fee on professional anglers and men that do much fishing, but not on the small boy that cuts a willow and goes fishing. He would want the fund to be applicable to the furthering of the protection of the fish, and the establishment of many more hatcheries.

A Great Half-Price Offer

Read every word of this announcement, for it is the opportunity of years. The three greatest magazines in this country have combined to be offered together at a greatly reduced rate. Never before was such an offer given to the public, and it is safe to say never will be made again. This year several magazines have increased their subscription price, which shows how much greater this offer really is. The only reason we are making it to the people of this vicinity is because we find we have not as many subscribers as we desire in this particular locality. But only a limited number will be sold at this price, therefore we advise everyone to accept this offer without delay. When we have received a certain number, we shall withdraw the offer.
