The Petaluma Incubator

A pretty shrewd business man of Cottage Grove noticing a Petaluma incubator on our floor yesterday, remarked: "Why don't you stick that out in front and label it the 'mortgage raiser.'"

That's a good suggestion. It is a name the incubator has earned, and the good hens who lay the eggs for it, also.

Our incubator sales are highly satisfactory this year and you make more honest money for the time expended with an incubator than most any other way.

Send for some literature and see how it strikes you, or come and see them on our floor.

High School.

The Seniors have just finished the first book in Caesar, and have taken up the second. The class is doing much better work now than at the beginning.

There were several absences Friday. As they go against the record of the class, we should try to avoid all that we possibly can.

Notice to the citizens and parents—Are you aware of the fact that there are only fifteen more weeks of school this term? Only a few short weeks in which you will have a chance to visit the High School and see the work that is being done and how it is carried on. So therefore take a half-day off and pay us a visit. We shall appreciate it and you will be interested. So come.

Katie Knowlton has been absent from school the past week on account of the sickness and death of her father. The class extends their most heartfelt sympathies to her in her bereavement.

The mill commenced sawing lumber Thursday morning, with a force of 17 men at work around the mill. A great many changes have been made around the mill and more are in line. A long dock is being built right through the center of the mill, and two other large docks, which will greatly increase the storage space, and also ease of handling the material. A number of improvements have been made in the main sawing room, for rapidity of handling, and it is understood that before long the lathe machine may be put into operation, should the market for lathes continue to be good.

Never before was such an offer given to the public, and it safe to say never will be made again. The only reason we are making it to the people of this country is because we find we have not as many subscribers as we desire in this particular locality. But only a limited number will be sold at this price, therefore we advise everyone to accept this offer without delay. When we have received a certain number, we shall withdraw the offer.
