A car of lumber for flooring was piled up and run into the drier at the mill Thursday. This was the first car that has been handled this year. All then departed for their homes voting Mrs. Benson a charming hostess.

The Petaluma Incubator

A pretty shrewd business man of Cottage Grove noticing a Petaluma incubator on our floor yesterday, remarked: "Why don't you stick that out in front and label it the 'mortgage raiser.'"

That's a good suggestion. It is a name the incubator has earned, and the good hens who lay the eggs for it, also.

Our incubator sales are highly satisfactory this year and you make more honest money for the time expended with an incubator than most any other way.

Send for some literature and see how it strikes you, or come and see them on our floor.

Eugene has a committee appointed which left for Portland to try and help influence the Portland council to grant the Willamette Valley Traction Co. a franchise through the city. All the principal towns along the valley sent delegations to help the good cause along, and such an exhibition of interest ought to help the council to grant the franchise.

Don't deceive yourself. If you have indigestion take Kodol Dyspepsia Cure. It will relieve you. Rev. W. E. Hocutt, South Mills, N. C., says: "I was troubled with chronic indigestion for several years; whatever I ate seemed to cause heartburn, sour stomach, fluttering of my heart, and general depression of mind and body. My druggist recommended Kodol, and it has relieved me. I can now eat anything and sleep soundly at night. Kodol digests what you eat. Benson Pharmacy."

A LaCrosse Wisconsin paper of Feb. 12th announces the death of Capt. D. A. McDonald, aged 73 years. The Eugene water system has been flushed throughout, and the reservoir drained and washed out. The new reservoir is being pushed rapidly, and new wells are being drilled for testing purposes, and if they seem good and clear, permanent ones will be constructed. Colonists are beginning to pour into Oregon under the cheap rates which were put into effect Feb. 15th. Hundreds of prospective settlers are coming each day to the west under these rates, and most cities are appointing men to be stationed at the principal railroad points to meet such tourists and direct them to their communities for their various industries. Los Angeles, and many other coast points have committees who direct settlers to suitable localities for their homes where lands and business opportunities can be gained, at such prices as they can pay. Advertising is being gotten up to give to such people at these centers. Cottage Grove would do well to get up some such literature to be given to the travelers who come through Portland. This summer we will begin to see the effects of the advertisement to the West by the Lewis and Clark Fair, and it behooves us to take every advantage of it.
