Sheriff, Fred Fisk.
County commissioner, S. M. Douglas.
County surveyor, Simon Kbovdahl.
Precinct committeeman, Jno. W. Baker, J. P. Currin.

DEAD ENDS.
The way the water connections to some of the residences around town are made is very bad. Within the last few days in the southwestern corner of the town the force of the water has been gradually getting weaker and weaker, until in many places it stopped altogether. After some complaints had been filed investigation was made, and the plumbers were put to work. On South street the city recently put in a five inch main, and along this line for some distance the water users connected to the old 2 inch are still connected to it and the water used must run through the big pipe, then into the small pipe running parallel to the big pipe, and from there by many twists and turns to the residences. The small pipe should be cut out where possible, and the connections made direct to the big pipe. A great deal of dirt is being constantly given out from the hydrants in that section.

Our New Departure.
Commencing with this week the Leader has a colored supplement, which it is the intention to continue permanently, if it is appreciated by the readers of the paper. Of course this adds considerable expense to the issuing of the paper, but it should add to the attractiveness of the paper to many and it is with the idea of making the paper more interesting and desirable that this is done. We would be glad to have our readers interest their friends and bring in articles that are of interest to them and our neighbors. A certain amount of personal news is always looked for in a small paper and farming news as well. Any crop items will be gladly published. Let us know what you think of the supplement.

The breaking of some of the new hose, when the heavy pressure from the mains was turned in at the fire Sunday night, was all that was needed to bring the firemen and council to see the necessity of heavier and better hose, and that it must be had at once. About 2000 feet of at least 4 ply hose will be gotten to take the place of the 2-ply now in use. The citizens won't kick on the price and want the best. Cut out the middle man and buy from the factory and get their direct guarantee.

At the council meeting next Monday night ordinances should be passed providing for the grading and surfacing of a number of the streets around town, and the bids should be let as promptly as possible so that the work may be done during the summer. The water contract should certainly be let and the connection to North Creek be made at once, so that every drop of water may be gathered for the summer months. It is essential that these improvements be commenced early, in order that there may be no delays such as we experienced last summer.

Within the great State of Oregon there is manufactured practically everything used by the human family; what little is lacking in the line of wearing apparel, or a few of the higher luxuries, is made elsewhere of material that comes from this country. "Oregon flies with her own wings," indeed, but her importance as a manufacturing state is not sufficiently understood even by her own people. The projected street display and the campaign of general exploitation of Oregon-made articles, to be held May 19 to 26 at Portland, is intended to be a lesson to the people to show what is actually being done in the way of utilizing our native capabilities and resources. Every dollar paid out for home-made goods remains in the state. There is a big difference between the financial condition of a city whose business blocks are owned by capital far away and one whose interests are controlled by home capitalists. The rents and interests are remitted monthly, making a steady drain upon the vitality of the community. Every dollar paid out for a manufacturing article brought into the state from the east goes to aid in the upbuilding of a vast manufacturing center many thousands of miles away where an Oregon community will have no possible chance of participating in resultant benefits. In many cases, however, the reason there should be any demand at all for eastern-made goods here is that the average buyer is more or less indifferent. He seldom stops to think that the difference between the home-made article and that from the east is absolutely in favor of the Pacific coast article, and that the quality of the imported article cannot be as good as that made here.

Important Anniversary
Today is the sixty-third anniversary of the famous "Wolf meeting" at Old Champoug, the northern part of Marion County, when 52 voted against 50 to make the Oregon country American territory. That was on May 2, 1843, and the place was a few years ago marked with a fine marble monument bearing the names of the 52 adventurous spirits who voted for American sovereignty. Of these 52 men only one is alive today—Hon. F. X. Matthieux of Champoug. The day will be fittingly celebrated at that place today in commemoration of one of the most interesting events in the history of the state and northwest. —Albany Herald.

Puts in a Hand Machine Drill.
The Hiawatha Mining Company received from the Hammond Mfg. Co. of Portland on Thursday a Redford hand drilling machine, which will be put in use at their mine within a few days. This drill is one of the many good drills made in Denver, and will add greatly to the amount of work possible for a force to do, without the aid of power drills. The Hiawatha is about to begin its summer work, and will try to make a record during that time.

The rate bill will soon be brought before Congress for a vote, and with it are some sixty-two amendments and the one intended to put the operations of the Standard Oil under government supervision will be voted on first.

It is possible to retain relief from chronic indigestion and dyspepsia by the use of Kodol for Dyspepsia. Some of the most hopeless cases of long standing have yielded to it. It enables you to digest the food you eat and exercises a corrective influence, building up the efficiency of the digestive organs. The stomach is the boiler wherein the steam is made that keeps up your vitality, health and strength. Kodol digests what you eat. Makes the stomach sweet—puts the boiler in condition to do the work nature demands of it—gives you relief from digestive disorders, and puts you in shape to do your best, and feel your best. Sold by Benson's Pharmacy.

If No Saloon in Cottage Grove, What Then?
This is the theme at the Christian Church next Sunday May 6th. Do you care? If so, come and bring some one. Welcome to all.

Eiler's Rip Van Winkle Show.
Has a tent built expressly for them. It is made of Kahki, which is used and recommended by our government as the best. It is absolutely water proof. This elegant tent is built egg shape and has no center poles in front of the stage, therefore giving everyone a good view of the performance. The stage is lighted with Acetylene gas, which can be lowered and raised to give the proper effect, as desired. Lightning and thunder is made by an electric storage battery. The scenery for each and every act, is new and painted especially for this elegant production. Mr. Eiler prides himself in having the swiftest outfit in the company and delights in having people come and see his pavilion theater before the performance. They will appear at Cottage Grove Wednesday, May 9.

Democrats Organize for Campaign.
Mayor Veatch and J. P. Currin went to Eugene on Monday to attend the Democratic County Committee meeting, returning Tuesday after affecting plans for the work, and electing as officers Leo M. Travis, chairman; Mark Bilyeu, State Committeeman; S. S. Spencer, Treasurer.

At the meeting a fund of \$8.83 was reported on hand from the last campaign, and the means of gathering together a fund for the prosecution of such work was decided upon.

Lucky Boy People Lose Their Suit.
From the Portland Journal's report of the supreme court cases:

In the case of Frank C Sharkey, Louis Zimmerman, Fred E Sharkey and N B Standish, appellants, against G F Cardiani, Caesar Marco and J J Tylor, respondents, an appeal from Lane county, J W Hamilton, judge, the judgment of the lower court is affirmed in an opinion by Judge Moore, of the supreme court. This is a suit to determine the right to possession of certain mineral lands.

The complaint alleges that the defendants secured a survey in the Blue River mineral district of Lane county, and applied for United States patent, whereupon the plaintiffs interposed an adverse claim to part of the premises. The supreme court holds that the decree heretofore rendered will be changed to conform with the views now expressed and the defendants may recover costs and disbursements in both courts.

For Sale or Trade.
A good work team of horses in exchange for cattle. Apply A. Bigelow five miles east of Cottage Grove.

Men Wanted!
Saw mill and lumber yard laborers \$2.00 per day. Woodsman \$2.25 to \$3.00. Steady work. Apply to Booth-Kelly Lumber Co., Eugene, Oregon. If

Mrs. David Griggs returned from Eugene on Thursday, where she has been visiting her parents.
