A torpid, inactive liver can produce more bodily ills than almost anything else. It is good to clean the system out occasionally. Stir the liver up, and get into shape generally. The best results are derived from the use of DeWitt's Little Early Risers. Reliable, effective, pleasant pills with a reputation. Never gripe. Sold by Benson's Pharmacy.

A good complexion is possible with the stomach out of order. If pasty, sallow people would pay more attention to their stomachs and less to the skin on their faces they would have better complexions. Kodol for Dyspepsia will digest what you eat and put your stomach back in right shape to do its own work. Kodol relieves palpitation of the heart, flatulence, sour stomach, heart burn, etc. Sold by Benson's Pharmacy.

Mrs. Cottle is vowing vengeance on the people who stripped her carnation beds Wednesday night. Not only did they break off the flowers, but in some instances tore the plants out by the roots. Mrs. Cottle was saving them for decoration day, and feels justly indignant over such an outrage. With all the flowers that can be had for the asking in a place where they grow as abundantly as here, for a person to ruthlessly tear up flowers is with out excuse.

The Eugene Guard states that miners of the Blue River District are very indignant over the action of the Lucky Boy mine in felling trees across the road between that mine and the other mines, thereby cutting off access to the mines. It seems that the company built the road for its own use at great expense and have since asked the county to buy it, as it is used as a public highway, but the County Commissioners do not see it that way, hence the difficulty.

The Brown mill has been shut down a number of hours recently on account of the shortage of logs, but this will soon be remedied and all the logs shipped in that the mill can possibly handle. The live rollers greatly expedite the work of the mill.

The Eugene Guard states that A. Welch of the Willamette Valley Co. says that the Oregon Electric Co. engineers and surveyors will travel through from Salem laying out the line, and will probably reach Eugene within eight weeks, and that this would be the first time for any of their surveys to have come through the country.

In a report in the Pacific Timberman of the meeting of the lumbermen of Cottage Grove held May 5th it says: "Thirteen firms were represented, and four new members were added to the association, and the question of forming a local association was taken up and will doubtless be pushed to its organization."

We have on hand at this office for distribution a number of packages of fine seeds, furnished by the United States Government through the courtesy of Hon. Senator Gearin. Any one who desires such seeds may call at this office and they will be given a package. The Government has for years given out packages of seed grown under the most careful condition and has through its Agricultural department done much to establish new growths of seeds, plants, fruits and grains. This practice will probably be discontinued with this year as strong opposition has been worked up against this work of the government.

Mrs. Frank Crabtree died at 10 o'clock Saturday night, May 19th at her home six miles east of Cottage Grove. She had been an invalid for some four or five months and had borne her trials nobly, in patience and in resignation. She leaves of her own kindred two brothers and sisters, and of her own family, her husband, three sons and a daughter, who grieve in the loss of so kind a mother, whose thoughtful, christian care made the world so much better for them. Her sister, Mrs. Dougherty of California, has been attending her for two or three months. The funeral services were conducted by Rev. Barnhardt, who made a splendid eulogy of her life, and pointed out the comfort that the family and friends have in the thought of her womanly Christian life. Her death has left a great void in the family, and aching hearts to mourn, but she has gone to sleep to waken in that better land.

### Memorial Services Sunday.

The annual memorial sermon for the G. A. R. will be given by Rev. R. C. Grace at the Presbyterian Church Sunday morning the 27th, tomorrow. Everybody is invited to join with the G. A. R. in their commemoration.

### School Library.

The school board is working out its library books, so that it can send in its list before long. It is a difficult matter for any board to select a library for school use, no matter how much experience they have had. Even on any range of subjects there is such a vast number of books to select from. The board hopes to select a good number of books and have it ready for the schools next year. The board is also considering installing more apparatus for physical and chemical laboratory work. This is something that is badly needed and which all the students will appreciate.

### County Commissioner.

S. M. Douglas, democratic candidate for County Commissioner was a visitor in the Grove this week looking after his political friends, and interesting others in his behalf. Mr. Douglass is a citizen of Eugene, and is a farmer, owning and operating a large farm near there. For fourteen years he operated a large dairy, but is now giving his entire time to farming. Mr. Douglass is an able man, and promises to do his best for the entire county if elected. He is firm in his beliefs of what is best for the county and state, and wants to add his help in prospering Lane County.

The city has to make all repairs on streets and bridges now, within the city limits, and to aid in such work has the special road tax fee of \$3.00 collectable on all men over 21 years within the city road district. This fund will be used in the repair of streets.

### Two Camps.

The Brown Lumber Co. established a new camp last week in the timber on Bake Stewart's place, and from now on the logs for the mill will be supplied from that camp, as well as the old one. The logging engine which has been expected for some time still has not arrived and is delaying the work.

### State Senator.

R. M. Veatch is making a quiet, but never-the-less determined canvass for the voters in the election. He proposes to win when he runs, and he would have everybody know that he is running and their votes would be acceptable. Mr. Veatch has a good record behind him and has a strong following.

### Commercial Club.

Thirty-nine members of the Commercial Club were on hand Monday night to vote on the resolution to reduce the membership fee from \$20 to \$10 and the dues from \$2 to \$1 per month. The preliminary discussion was a very warm one, and became diverted from the main subject over the eligibility of voters and when the resolution came to a vote it was defeated by a vote of 24 to 13. The sentiment of the club being that it was not wise to make the monthly fee \$1, but most of them agreeing that at times it might be well to admit clubs of members under a \$10 membership fee.

G. Ross King was admitted to membership in the Club. Several bills for the Made in Oregon exhibit were presented and allowed.

### MADE IN OREGON EXHIBIT

The secretary read a letter from D. T. Awbrey stating that he had secured a better location for the Cottage Grove exhibit than was first given it, and that he had gotten the cases, opened them and installed the exhibit in the window of the Sperry Hutchinson Co. store on Fifth Street, directly across from the Post office and that it made a very good showing.

T. K. Campbell being unable to go to the Coos Bay meeting, H. O. Thompson was appointed in his place and he and F. B. Phillips were given instructions to do all they could to secure the September meeting of the Willamette Valley Development League for Cottage Grove.

### Interstate Commerce Commerce Has Its Innings.

The Commission is getting in good work in its investigations these days. A number of railroad officials have had work before them in explaining how they got quantities of coal companies for nothing. Each day is adding to the power of the commission, and it is possible that great reforms yet will be worked through it.

### A Big Road Scraper.

Curtis Veatch is having a big triangular road scraper with heavy iron guards made for grading the roads this summer in his road district. Blacksmith Baker is doing the job and is making a scraper that will do the work in the best manner. Mr. Veatch hopes to complete the graveled road from its present terminus out by the cemetery right down to the bridge across Silk Creek to connect with the west end of Wall street, where the city will commence its work of improvement. Mr. Veatch is anxious to get the work along so that it can be all done up right and expects to be able to do a better job with his new scraper than before.
