Eugene is having trouble over the payment of the engineers who drew the plans for the city water and lighting plant. The bill was cut down to \$2450, and that is now held up by an injunction against the city, by a prominent citizen, charging conspiracy between the board and the engineers.

The senior class of the High School listened to an able Baccalaureate sermon Sunday night by Rev. S. E. Meminger at the Methodist church. The house was well filled with the parents and friends of the class and Rev. Meminger more than usually well in his sermon which was full of good for the young people about to enter on the path of life.

Lowell of Multnomah county made an address to the voters urging the support of the straight Republican ticket, that President Roosevelt might be assured of the firm support of the state in the opening gun of the year's elections. The Judge is an able man, thoroughly versed in oratory, and made an effective and brilliant speech, full of sound, forcible argument.

He was followed by Walter L. Tocco in his well known florid and gesticulatory style of address, who sought by a number of playful and fanciful stories to impress upon his hearers the importance of voting for Withycombe and Bourne.

## Social Cattlings

The reception given by Mr. and Mrs. C. J. Miller in honor of Blaine Jackson and wife was one of the pleasantest social events our town has ever known. The house was beautifully decorated with ferns and flowers, the reception hall being a perfect bower. Music enlivened the evening, the young people sang all the popular songs of the day, Clarence Morse playing their accompaniments. A number of out-of-town guests were present, among them Scott Jackson and family and Mr. Herbert Doty, of Lorane. W. W. ### Recovers Sight of One Eye.

Mr. L. Morse returned Tuesday night from Portland where he had an operation performed on his left eye for the removal of a cataract, which has covered both eyes so completely that he has not been able to see for many months. The doctor thought it best only to operate on one eye, so operated on the left eye, and was successful so that Mr. Morse is now able to see for the first time in months. It has been possible for him to get around in spite of his blindness, as he could distinguish light and dark objects, even when he could not distinguish form.

Mr. Morse has had great pleasure in seeing things that are now almost new to him, and in meeting people that he has met in the last few months by voice only.

### Makes New Investment.

J. H. Chambers has shown his interest in Cottage Grove by becoming a stockholder in the First National Bank, and desires to have it known that the report that he was a stockholder and director in the new bank of Cottage Grove was an error on the part of those making such statement. Mr. Chamber's business interests in this vicinity in the Alea mill, and in property holdings are large, and his becoming a stockholder in the First adds to its already sound financial foundation.
