It is predicted that the Oregon hop crop will be light owing to the drouth and the intense heat of the last few weeks. Picking will commence about September 1st throughout the valley and it is thought there will be a scarcity of pickers this year everywhere.

There have been a number of serious conflicts between conductors and passengers on the Brooklyn Transit Co. cars recently owing to the passengers refusing to pay more than five cents, which the court decided was the correct charge, while the company tries to collect 10 cents. The company is fighting its own troubles, not having the support of law, and its troops, but it will be beaten to time.

There is nothing so pleasant as that bright, cheerful, at-ease-with-the-world feeling when you sit down to your breakfast. There is nothing so conducive to good work and good results. The healthy man with a healthy mind and body is a better fellow, a better workman, a better citizen than the man or woman who is handicapped by some disability, however slight. A slight disorder of the stomach will derange your body, your thoughts and your disposition. Get away from the morbidness and the blues. Keep your stomach in tune and both your brain and body will respond. Little indiscretions of overeating can be easily corrected and you will be surprised to see how much better man you are. Try a little Kodol For Dyspepsia after your meals. Sold by Benson's Pharmacy.

It digests what you eat. Sold by Benson's Pharmacy.

The Southern Pacific Co. has had three gravel trains working through here ballasting the track with gravel obtained from a gravel bed across the river from Eugene. So far the gravel has been dumped along the road clear from Divide to Saginaw in just a few days. There was talk some time since of buying some of the rock bluffs near the bridge north of town, and putting in a crusher to break up ballast, but the price of the land was prohibitive, and so the gravel was secured, which does not make as good ballast, as it gradually works out being smooth and rounding.

To the Public.

Representatives of the Pacific States Telephone and Telegraph Company have started a house to house canvass among the farmers of this county, offering them an extremely low rental rate for instruments to be used in connection with the Central offices of the Company throughout the country.

For eight and one-third cents a month the subscriber is given free switching with all other subscribers connecting with his Central exchange. Under this rate it would appear that no rural resident need be without a telephone and its attendant advantages especially as every assurance is given of prompt and efficient service.

Mr. L. P. Bennett is in charge of the canvass in this county and he states he may be seen at the Central offices of the company in Eugene, or will visit any community or organization of farmers interested in Telephone matters.

Woman's Pluck Saves Home.

While Mrs. E. M. Hughes of Saginaw was preparing breakfast Wednesday morning of this week, a large spark from the store flue, fell on the roof and burned a large hole before it was discovered and would have had the whole house afire in a few minutes had it not been for the cool headedness and pluck of Mrs. Hughes, and her two daughters, Mr. Hughes being away in the Grove. As soon as Mrs. Hughes noticed the fire she procured a ladder, a pail of water, a hammer and a number of cleats, which she had to nail upon the roof in order to get to a point where she could throw the water on the fire. The daughters carried water, and in a few minutes she soon had the fire subdued, in a manner that was very heroic and plucky, and fortunately suffered no more serious accident than the severely spraining her wrist.
