Rev. Grant Stewart, pastor for a short time of our church at Cottage Grove, Oregon, during the last conference year, has been appointed to Cheney, Wash. Jones has a big logging engine enroute that will be here in ample time to haul in the logs to the mill. He is gathering his force together and getting supplies so as to be able to keep a steady supply of logs coming in to the mill, and expects to have a big supply ready before the mill starts up. Meters are Put In.

Two big two inch meters were put in this week by Griffin & Veatch Co. for the city for measuring the water consumed by the S. P. Co. railroad tank and the Brown Lumber Co. These big meters cost the city quite a sum but are the only correct way the city has of measuring the amount of water used, and will pay for themselves in time. It takes 3384 gallons of water to make a depth of one foot of water in the big railroad tank.

Reciprocal Demurrage.

The Portland Chamber of Commerce is going after the car shortage in the northwest, and will propose a bill to the legislature to compel the furnishing of more cars, and which will allow the shipper to charge the transportation a reciprocal demurrage when the company fails to deliver cars for business on its line, claiming that as the company charges for extra time taken in unloading cars thereby causing a loss in the use of the car, the shipper should have the same relief when he loses money through the non-delivery of cars by the railroad company. It may work, it is hard to say, but the fact is sure, that there is a great lack of cars in the northwest at most seasons of the year, and particularly in the summer.

Greatest Yield Ever Had.

R. O. Brady, manager of the Hayes hop yard states that the crop this year was a hummer, that not only did the hops do well, but every pound was gathered and dried with no loss, although for a time with the rain things looked pretty blue. Picking was all over Tuesday, and about half the baling over, with an estimate of 440 bales of an average of 190 pounds each net, which we understand was sold under a four years' contract for 16 cents.

Change in Ownership.

Ira Harding has sold out his interest in the Enterprise Lumber Co. to H. F. McCormick of the Chas. R. McCormack & Co., a young lumberman and capitalist of much experience of San Francisco, who with Mr. Hohl will continue to run the mill, and will strive to make it one of the best paying mills in this section.

Wonderful Yield on Young Tree.

W. A. Hartung has a young Northern Spy apple tree that began bearing fruit this year. Mr. Hartung allowed 65 immense apples to mature on the tree, but had to prop all the limbs up carefully to hold up even that number, and he thinks cut off fully 200 apples in order to protect the tree. The growth of the fruit here this year has been tremendous.

Another Change of Ownership.

Mr. Bowman himself will probably go north and get started in business soon, and take his family up in the spring.

No one would buy a sailboat with sails that could not be reefed. There is always that possibility of a little too much wind that makes a cautious man afraid to go unprovided. The thinking man, whose stomach sometimes goes back on him, provides for his stomach by keeping a bottle of Kodol for Dyspepsia within reach.

Kodol digests what you eat and restores the stomach to the condition to properly perform its functions. Sold by Benson's Pharmacy.

In these days of rush and hurry courtesy is often forgotten. In the mad, pell mell rush of our life little things are done to offend that we rather remain unknown. A hastily eaten meal and its resultant headache may cause us social or financial loss. The wise man or woman is the one who relieves little ills of this sort by a little dose of Kodol for Dyspepsia. It digests what you eat and puts your stomach back into shape. Sold by Benson's Pharmacy.
