SATURDAY.....OCTOBER 20, 1906

The defense of Lee Minard, for violation of the local option law, by the lawyers who have framed the famous amendment to the city charter, which is a "general" amendment with a liquor heading, certainly seem to be working for the prohibition as they are defending so noted an exponent of prohibition, (as long as it gives him the opportunity to sell whiskey without a license, while his erstwhile school friends cannot get a license, and will not risk it otherwise). They of course could frame nothing but a prohibition amendment, and no doubt are giving their services in his defense free as they framed the amendment free of cost to the city. Truly lawyers are generous when it comes to support of their city.

The old story that an evil word travels faster than a good one has recently been exemplified in Cottage Grove. Not long ago a slur on municipal ownership based on Cottage Grove's municipal water plant written evidently in anger, and by a person evidently unacquainted with the facts, was printed, since that time not only have Oregon papers copied the article, but even as far east as New York have such unjust reports travelled and been added to the classic literature promulgated against municipal ownership. Such an article not only does a great injustice to the town, but hinders the progress of the cause of general municipal ownership of public utilities.

Winter Courses in Agriculture.

The Oregon Agricultural College at Corvallis will offer this winter, as usual, two special courses along agricultural lines, which will be designated The Short Course in Agriculture, and the Special Dairy Course.

The Short Course in Agriculture will open on Tuesday, January 8, 1907, at 9.00 a. m. and continue two weeks, closing on Friday, January 18. The course consists of a series of popular lectures along lines suited to aid horticulturists, dairymen and others engaged in agricultural pursuits in developing the great natural resources of our state. The lectures are supplemented by laboratory work under the auspices of experts, who strive to make the course thoroughly practical by adapting the work as far as possible to the needs of each individual.

The Special Dairy Course will also open on January 8, 1907, and will continue six weeks, closing on February 15, 1907. The purpose of this course is to familiarize students with the modern forms of dairy apparatus and teach the underlying principles of the production, care and manufacture of milk into butter and cheese.

Students will meet for work six days per week. The forenoon of each day will be devoted to practical work in the dairy rooms. In the afternoon of each day, except those devoted to cheese making, lectures and recitations will occupy the time during two or three hours.

In addition to the regular teaching force, the services of an expert cheese maker, Mr. L. B. Ziemer, have been secured. Mr. Ziemer is a graduate of the Wisconsin Dairy school, and for a time was traveling dairy instructor in that state. For the past four years he has been actively engaged in the manufacture of cheese in Tillamook county, Ore.

There will be no charge for tuition, and no educational entrance requirements, for either of these courses. Board and room can be had in Corvallis at \$3 to \$4 per week.

A cordial invitation is extended to all persons interested to enroll in one of these courses. An outline of the course can be had for the

asking. For further information address, F. L. KENT, Corvallis, Oregon

Should be Free

Marriage should always be encouraged. It is the proper thing. The life is not complete when single. Hence there should be nothing which can in any way interfere with proper marriage. This suggests that a license for marriage is wrong. Instead of a license a bounty would be more in keeping with the eternal fitness of things. At least the couple who wish to get married should be permitted to do so without cost. It is possible that the record of the intended marriage and afterwards of the marriage itself is a good thing, but a good sized fee for it is untimely, though probably making no difference with the number of marriages contracted.—Albany Democrat.

School Notes.

Prof. C. L. Strange has just given in his report for the first month of school, which is as follows:

	Boys	Girls
Total enrollment	187	193
New	187	193
Days attendance	3289½	3340½
" absence	106½	105½
Times tardy	27	15
" truant	0	0
Days taught	20	
" holiday	0	

The total enrollment at the end of the first month this year was 380, at the same period last year the attendance was 356, this makes the increase this year 24 which is largely brought about by new residents of the town.

Several families in the outside districts have sent their children to town to attend the grammar grades of the public schools here, but owing to the crowded condition of some of these grades no more will be allowed to enter those particular grades.

A number of new students entered school Monday, it being the first day of the second month.

The board has placed new dictionaries and stands in the 6th and 7th grade rooms, and has bought a Telurian globe for general use in the school.

There are 27 in the freshman class of the high school. Thirteen of the students of the high school come from outside districts, where they have completed the grammar grades.

PROF. C. L. STRANGE,
WEST SIDE SCHOOL NOTES—EIGHTH GRADE.

Those in the eighth grade who were neither absent nor tardy during the first month are: Kittie Brumbaugh, Jean Dorwood, Elsie Brewer, Leah Perkins, Allie Phillips, Hazel Gray, Blanch Branton, Marvin Jordan, Clay Mosby, Thomas Campbell, Guy Whitlock and John Cooter.

Blanch Branton has entered school for the year's work. The class is taking the Sketch Book for supplementary reading and are now studying the Legend of Sleepy Hollow.

The gong sounded for the first fire-drill last week. There will be a fire drill at least once each month and we hope to make each one better than the last.

Melvin Jordan, who was threatened with pneumonia, has returned to school.

New pupils this week are, Verne Collins, fourth grade; Albert Huff, fifth grade; Edna Ribbles, second grade; Floyd Nolta and Goldie Collins, primary.

PROF. HARVEY.

GENERAL NEWS

The National WCTU is holding its convention in Boston.

The first rainbow of some days was seen Thursday. It is pretty apt to clear up now for a time.

Reports from San Francisco state that there will be another embargo against shipments for San Francisco and Oakland points on within a few days.

Harriman was beaten in his attempt to gain control of the Illinois Central railway by the president of the Road Stuyvesant Fish, and his friends, who controlled 3/4 of the proxies.

A wee boy being carried down town the other night said: Papa, the stars are all asleep, the moons asleep. No see, one star is awake. Papa, is the devil asleep too? Papa: No son, the devil never sleeps. Wee one: Poor devil.

Mrs. Jefferson Davis, wife of the late president of the confederacy died in New York Wednesday after an illness of some time. At her bedside was her one surviving child, Mrs. Hayes of Colorado Springs, Colorado. Mrs. Davis was 80 years old and has for years made her home in New York.

A big book covering the report of the Board of Commissioners of the state, relating to assessments and taxation has just been received from Secretary Dunbar. With its multitudinous tables of information people interested in those matters ought to be able to get what they want.

To the Public.

Representatives of the Pacific States Telephone and Telegraph Company have started a house to house canvass among the farmers of this county, offering them an extremely low rental rate for instruments to be used in connection with the Central offices of the Company throughout the country.

For eight and one-third cents a month the subscriber is given free switching with all other subscribers connecting with his Central exchange. Under this rate it would appear that no rural resident need be without a telephone and its attendant advantages especially as every assurance is given of prompt and efficient service.

Mr. L. P. Bennett is in charge of the canvass in this county and he states he may be seen at the Central offices of the company in Eugene, or will visit any community or organization of farmers interested in Telephone matters.

Something Different.

Is it not true that lecture and chautauque committees are looking for a different program each year? Lectures on "Grit" and "Gumption" are galore—and we must have them. The sunshine spreading lectures are numerous. There is a plethora of patriotic addresses. The race problem offers many points of departure of orators, and there are platform orators to present them all. The political debate is sometimes an attraction and the "follies of society" has numerous revealers. And you have heard these subjects, haven't you? The great names that serve them to you year after year are worth your while, and they deliver the goods. But mayhap you have completed the list. At least you have had samples of the leading thought problems which these men present.

But, something different is "The Simple Life and the Contagion of Hurry." In this age of high pressure "get there," it is good to have someone deliver anathemas against the complexities and hurly-burlys of our present day living in such a thoroughly good natured way that it cures you while you listen. There is only one American who lectures on this timeliest of all subjects and his preaching is worth while. Mr. Crouch is live, earnest, and a thinker. You will like him. Your people will like him. He is clean. He is wholesome.—Midland Lyceum.

He comes October 27 at Opera House.
