Keep bright and you'll be kept busy. Light is the magnet that draws trade.

A show window brilliantly lighted with electric lights makes many a sale "the night before." It attracts attention, makes it easy for your display to be examined, and shows your goods to the best advantage.

Electric light is the best and only illuminant.

When may our man see you about it?

Veatch & Lawson are showing the resiliency of a bed spring they handle, and how well it retains its elasticity by laying a 451 pound barrel of paint on the spring, which when rolled to one side, the spring instantly resumes its original position.

Dr. Schiefel is thoroughly remodeling the downstairs of his building at the end of Main street. Morse, the groceryman now occupies one store room, and the part formerly the doctor's office, now refitted with a big glass front will be used by a confectionery store. Its location right at the entrance to the bridge should make it a good stand.

T. K. Campbell returned on Thursday from a several weeks trip down into California. Mr. Campbell thought that those of his customers that wanted lumber and piling delivered had better send air ships after it, as they would be as likely to get it that way as by any Southern Pacific cars. There is no difficulty in getting orders, only in getting cars.

From Blackbutte to Bohemia.

Wm. Harris, late superintendent of the Blackbutte mines for the past nine years, resigned, and is now on his way to Seattle for a much needed rest. During his superintendency of the mine, it has been worked along and now it is about ready to begin active production and Mr. Harris is now going to start in on practically a new field to him.

Eye-glass fitting is too important a matter to rush into "with your eyes shut." If your eyes wear out, they're gone forever. When you buy glasses, see to it that you get glasses that are just right. We have the knowledge, experience, expensive up-to-date apparatus and skilled employees to make them just right. Consultation costs you nothing. Write for our booklet. It contains valuable information about the care of the eyes. We will send it to you free—post paid.

Mr. J. E. Edwards and wife of Corvallis, who have been visiting at the home of J. S. Benson left for their home on Wednesday. Mrs. Edwards is an ex-resident of the Grove and sang most delightfully at the Methodist church last Sunday night.

O. P. Hoff, State Labor Commissioner, was a visitor at the Leader office on Thursday. His report is fast being worked out, and he has made it a point to have the report as accurate as possible, as its value is in its absolute verity. Mr. Hoff believes that when prospective Oregonians want facts and figures of Oregon, and get them from his report they will never have any occasion to criticize the report, for he has sought instead of padding figures to make them all conservative, believe that in that is the surest success.

Week End Rate for Cottage Grove.

The S. P. Co. announces a special week end rate to Portland and return. Tickets good from Saturday noon to Monday night are now issued for \$5.30. These tickets are good on No. 12 Saturday noon returning on the local Monday night.

Special rates have been extended to most of the valley towns for some time and the Commercial Club has been working on the extension of time to Cottage Grove and recently drafted a letter to the Supt. of the road asking that they be extended here and in reply received a letter stating that such rates went into effect Oct. 31st, '06.

Needs Day Current.

The impossibility of getting brick and other materials in delaying J. H. Bartels in building the addition to his meat market. Mr. Bartels had expected to put in an ice plant this winter, but states that he is afraid that it would be too expensive to operate such a plant with a gasoline engine such as he now uses, and he has no room to install a boiler and steam engine, nor does he care to go to that expense. At the present time he is waiting hoping that the Willamette Valley Co. will decide to furnish a day electric current. If they do that he will at once begin to put in an ice plant.

West Side School Notes

Those who were neither absent nor tardy during the second month of school were,—Marvin Jordan, Clay Mosby, Thos. Campbell, Jesse Lewis, Guy Whitlock, Kittle Brumbaugh, Jean Dorward, Elsie Brewer, Allie Phillips and Hazel Gray.

The eighth grade boys have organized a basket ball team and elected Chas. Comer captain. It is proving a popular game.

Ether Bradley entered the eighth grade last week.

Rev. Grace spoke to us recently on the value of ideals in life, and Editor Gault spoke on "history." These talks were appreciated by both pupils and teachers.

The heavy storms of the last few days which reached their height on Wednesday night, in a fearful burst of wind and rain wrought a great deal of damage over the entire coast, through the state of Washington caught the brunt of the storm. The No. Pacific lost a number of steel bridges and the line is closed to the south of Seattle. The storm is the worst that has ever been known in the history of this part of the country. Streams rose within a few hours to heights never seen before and swept before them everything in their path.

duction and Mr. Harris is now going to start in on practically a new field to him.

Before he went to Blackbutte he was interested with some Seattle capitalists, who were about to invest in the Bohemia camp under his advice. They had deposited considerable money in a bank to buy certain claims when it was found that the titles were not good, and for that reason they dropped out, and entered the Blackbutte field. Mr. Harris' mission to Seattle is to go after his old friends again, and to try to reinterest them largely in Bohemia, and if he succeeds as he expects he will return and give his entire attention to Bohemia, and will hope to be one of those who get in on the ground floor and will see the day when Bohemia becomes a great camp.

Mr. Harris in a call at the Leader office in taking over mining conditions found that the editor's father had been his pastor in a Colorado mining camp in the early days, and that later in Denver he was a frequent visitor at his home, and later a member of Mr. Fisher's church there, so it was quite a talk of old times that resulted.

Car Shortage Worse Right Along.

W. F. Hankins of the Star Lumber Co. was in the city on Monday and said that their plant was out of commission on account of the car shortage and that the worst of it was that the S. P. people could not give them any prospect of relief for some time to come. They like all the other mills, have lots of orders, but are unable to fill any of them on account of the lack of cars.

Must Have More Room.

F. G. Stiller of the Cottage Grove Creamery says that the location occupied by the creamery is too far from the main portion of the town, and also that he has not enough ground there. He is now figuring on a new location closer to the business portion of town where he can erect a much larger building, and install apparatus for making a great deal more butter and ice cream. He states that he will have to have more room before spring as he will then be getting so much cream that his present plant will not handle it.

If Mr. Bartels does not put in a plant, Mr. Stiller says he will have to do so, as he cannot afford to be at the mercy of the outside ice plants and not be able to get ice when he wants it, and also to have to pay such a terrific price for the ice then. If Mr. Bartels gives up the idea of an ice plant, he will immediately go ahead and put one in and will put one in large enough to supply not only his own needs, but those of the town.

Saginaw Items.

The sawmill is not doing much these days, they expect to get some new doukeys soon then they will do a rushing business right along.
