

ACCIDENT AT CHAMBER'S MILL.

**A Wild Log Rushing Down a Chute
Crushes a Man's Leg.**

An accident occurring at the Chambers Lumber Company's mill above Dorena, on Tuesday, gave Wm. Pierce the victim, a narrow escape for his life, and will cause the young man to be laid up for some time to come. He was struck by a wild log that unexpectedly shot down the chute, catching his leg just above the ankle, crushing it so badly that the bones protruded. Dr. Job, who happened to be in the vicinity was called, and reduced the fracture, and made the young man as comfortable as possible, and thinks that, although the wound is a serious one there is a good chance for recovery without resorting to amputation.

The chute in which the accident occurred is a long one, and the employes go up in a boat or pig worked by a line and donkey engine. A log had come down and Pierce stepped into the pig to be drawn up, when the wild log was seen coming down. The alarm was raised but before Pierce could get out of the way, the log struck him with the result as stated.
