PROFITABLE MANAGEMENT.

Properly Housing Machinery Prevents Rusting Out.

In the matter of profitable management the care of farm machinery is of importance. Writing on this subject in the Kansas Farmer, A. M. Ten Eyck gives some sound advice as follows:

Although it is essential to have enough good machinery to do the work well at the right time, yet the purchase of more machinery than is actually needed is often an element of unnecessary expense which may greatly reduce the net profits of the farmers who are improvident in this way. Buy the best standard machinery, even at the higher prices. The best is usually the cheapest. Make good use of the machinery and take care of it, both in the field and after the work is finished. Keep the bearings clean and well oiled, bars tight and the machinery in good running condition when at work.

When Not In Use.

Shed the machinery when not in use. More machinery is rusted out than is worn out. In the western United States probably less than one-fourth of the farms are provided with machinery sheds. A farmer can make no better investment in adding improvements to the farm than by building a good machinery shed.

Cleaning and Repairing.

When machinery is brought from the field and put in the shed it should be overhauled and cleaned and notes made as to what repairs are necessary. These repairs should be secured, and on some rainy day the machine should be put into proper running condition for next season's work.

BLIGHT OF PEAS.

The Green Varieties Are Most Strikingly Affected.

In 1904 the damage in Ohio from this blight was apparently greater than in previous years. It was first noticed on French June field peas which had been sown with oats as a forage crop on the experiment station farm. A close examination of the diseased plants showed that the stems had been attacked at many points, frequently as high as one and one-half feet from the ground, though most severely near the ground, where the disease starts.

On the leaves were orbicular or oval dead spots one-eighth to one-half inch in diameter.

Perhaps the most important thing in connection with the life history of the

BLIGHT FUNGUS ON LEAVES.

fungus is that the vegetative part, or mycelium, infecting these spots of the pods grows through the husk into the seed. Frequently it grows entirely through the pod, forming similar spots on both sides. When the fungus grows into the seed, brown spots may be formed on the surface. In the worst cases half the surface is frequently discolored and the seed adheres to the pod. These areas are much more striking on green colored peas, such as the Market Garden variety, than on the yellowish varieties, such as the Admiral.

Horse Talk.

Many colts are given ugly tempers by cruel and careless currying.

To scratch and hurt a colt or horse will cause him to hate the operation and the operator.

Many currycombs are knocked all out of shape, and some of the teeth cut like knives.

Look at your currycomb. It is often an instrument of torture.

Teach the boys to use it gently and keep it in order.

Be generous in the use of the brushes, but sparing in the use of the comb.

Good grooming should be done every day to keep the pores open, the skin healthy and the hair silky. Soft hair is very warm and is a nonconductor of heat.

Never leave a reeking mess of wet straw and manure under the horses. It ruins the health and eyes and is a disgrace to any horse owner.—Farm Journal.

"In 1897 I had a stomach disease. Some physicians said Dyspepsia, some consumption. One said I would not live until Spring. For four years I existed on boiled milk soda biscuits, and doctors' prescriptions. I could not digest anything I ate; then I picked up one of your Almanacs and it happened to be my life-saver. I bought a fifty-cent bottle of Kodol and the benefit I received from that bottle all the gold in Georgia could not buy. In two months I went back to my work, as a machinist, and in three months I was well and hearty. May you live long and prosper."—C. N. Cornell, Roding, Ga., 1906. The above is only a sample of the great good that is daily done everywhere by Kodol for Dyspepsia. It is sold here by Benson's Pharmacy.

FARM AND GARDEN

NEW WINTER LETTUCE.

A Large Type of Plant Able to Withstand Disease.

The bureau of plant industry recently reaped its harvest of excellent lettuce seed from a large plot which it had under cultivation in close proximity to its chief's offices in the grounds of the department of agriculture. The interest attached to this particular yield is that it is seed of a type of lettuce sturdy and strong and able to withstand the diseases to which forced lettuce is heir.

From $2,500,000 to $3,000,000 worth of lettuce alone is forced in the United States each winter. Greenhouse gardeners in an endeavor to get rich quick

THE NEW STURDY LETTUCE.
[Six weeks old and three feet high.]

have failed to note that this forcing was weakening their stock until now the weak lettuce often becomes so diseased in the hothouse that it is by no means rare for a gardener to lose an entire crop of greenhouse lettuce by a disease to which these overstrained plants are particularly liable.

Dr. B. T. Galloway, chief of the bureau of plant industry, in order to correct this evil has been working for two seasons on this subject and has at last succeeded in obtaining a crop of winter lettuce plants immune to the lettuce disease. At the same time the plants are of large size and capable of developing as early as the most specialized winter lettuce.

From these extra large early and fine heads another crop was raised and the seed sown. The seed from successive crops, carefully examined and selected from time to time, was planted during the past summer in the departments's experimental plot and the seed finally secured carefully guarded and later distributed to greenhouse men and state experiment stations. It is believed, concludes American Cultivator, that through this work will be saved from ruin the winter lettuce industry, which for the last three years has been threatened with extinction.

Kodol digests what you eat and quickly overcomes Indigestion, which is a forerunner of Dyspepsia. It is made in strict conformity to the National Pure Food and Drugs law and is sold on a guarantee relief plan. Sold by Benson's Pharmacy.

Industrial Alcohol.

The benefits which are to accrue from the use of industrial alcohol free of tax have been probably overestimated by the people at large and especially by the farmers, but that material benefits will accrue is not a subject of doubt. These benefits will come not suddenly, but slowly, as agricultural products are more abundant, technical methods of manufacture improved and the methods of utilizing the industrial alcohol better understood. Our people should not, however, be disappointed should many years elapse before the magnitude of the product used for industrial purposes reaches the figure already attained by Germany and some of the other European nations. — Farmer's Bulletin.

The winds of March have no terror to the user of DeWitt's Carbolized Witch Hazel Salve. It quickly heals chapped and cracked skin. Good too for boils and burns, and undoubtedly the best relief for piles. Sold here by Benson's Pharmacy.

When to Grade Land.

S. Fortier, an authority on irrigation, recommends that the preparation of land for irrigation should follow the building of supply ditches. While this rule is frequently disregarded, it will be found better to grade land in conformity to permanent ditches already constructed than to locate and excavate ditches to suit land that has been graded and leveled.

You should be very careful of your bowels when you have a cold. Nearly all other cough syrups are constipating, especially those containing opiates. Kennedy's Laxative Cough Syrup moves the bowels—contains no opiates. Conforms to National Pure Food and Drugs law. Bears the endorsement of mothers everywhere. Children like its pleasant taste. Sold by Benson's Pharmacy.

Keep bright and you'll be kept busy.

Light is the magnet that draws trade.

A show window brilliantly lighted with electric lights makes many a sale "the night before."

It attracts attention, makes it easy for your display to be examined, and shows your goods to the best advantage.

Electric light is the best and only illuminant.

When may our man see you about it?

WILLAMETTE VALLEY ELECTRIC CO.

The Drama In France.

The mayor of Toulon has had posted at the local municipal theater an order which reads, "Nobody will be allowed to hiss, to make audible remarks, to applaud ironically or to yawn noisily, to use bad language or to otherwise disturb the dignified calm necessary to the proper enjoyment of the drama." We trust that it is the translator and not the mayor who is responsible for the split infinitive.—Boston Globe.

Mexican Economy.

There is probably no more economically governed country in the world than Mexico. New York city spends more than a hundred million dollars, gold, a year for municipal government, while Mexico, a vast nation with several times as many people, an army and foreign relations, is governed for less than that amount in silver.—Modern Mexico.

INDIGESTION.

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol Dyspepsia Cure cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but the famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Kodol Dyspepsia Cure after meals is not only thoroughly reliable digestant, but it contains great tonic and reconstructive properties as well. This famous remedy enables the stomach and digestive organs to thoroughly digest, assimilate and contribute to the tissues all of the nourishment that is contained in such food as may be eaten.

Kodol Dyspepsia Cure clears the way and makes sure the journey from sickness to health and weakness to strength. If the stomach is disordered Kodol will cure it.

Kodol Dyspepsia Cure lays the foundation for health, and the upbuilding of strength by cleansing, purifying and sweetening the glands and membranes of the stomach, and by supplying natural juices necessary to perfect indigestion, assimilation and nutrition. Kodol digests what you eat, prevents colic, cholera, diarrhoea, flux, dysentery and summer complaints generally, and its use will cure indigestion and chronic dyspepsia permanently. Kodol is good alike for young and old. Your druggist sells it.

Little globules of sunshine that drive the clouds away. DeWitt's Little Early Risers will scatter the gloom of sick-headache and biliousness. They do not gripe or sicken. Recommended and sold here by Benson's Pharmacy.

TIMBER LAND, ACT JUNE 3, 1878—NOTICE FOR PUBLICATION.

United States Land Office,
Roseburg, Ore., Nov. 23, 1906.

Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada and Washington Territory," as extended to all the Public Land States by act of August 4, 1892,

IRA D. HYLAND,

of Lowell, County of Lane State (or Territory) of Oregon, has this day filed in this office his sworn statement No 7620 for the purchase of the N ½ of SW ¼; NW ¼ of SE ¼ and SW ¼ of NE ¼ of Section No. 12 in Township No. 20 south, Range No. 2, west, W. M., and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land befor W. W. Calkins, U. S. Commissioner, at his office in Eugene, Oregon, on Thursday, the 4th day of April, 1907.

He names as witnesses:

Oscar Drury, of Lowell, Oregon
Grover Walker, of Lowell, Oregon;
Wilbur Hyland, of Lowell, Oregon;
William W. Sailor, of Lowell, Oregon.

Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 4th day of April, 1907.
