STATE AND COUNTY

Items of Interest In a Condensed Form.

AS TAKEN FROM OUR EXCHANGES

A Resume of the Week's Local Happenings of the State and County Briefly Told.

Allen Dilley was thrown from a load of hay that was overturned while being hauled in from the field at the H. T. Buxton farm Monday, and seriously injured. He was brought in by O. C. Schofield and his wounds were dressed and at last accounts he was on the road to rapid recovery. The wagon was pretty badly demoralized.—Forest Grove Times.

Considerable liquor is coming to Albany addressed to all manner of fictitious names, but intended for well known citizens, says the Democrat.

Eugene Guard. The actual work of constructing the electric street railway began this morning after many delays, and from now on the streets will present a busy scene. The work was started at the north end of Willamette street with a force of twenty or more men.

W. O. Trine, familiarly known among Oregon athletes as "Dad" for the past six years physical director and trainer at the Oregon Agricultural college, died of cancer at his home in Corvallis at 7 o'clock Saturday evening. He was one of the best known men in the state among athletes.

John Kelly, son of Geo. H. Kelly of the Booth-Kelly company, while working in the mill at Wendling, was struck in the eye by a flying stick last week, badly injuring that member.

Marshfield Times: F. B. Waite has purchased the Kinney sawmill on Pony Inlet, the hotel on Plat E and all the timber on the Plat properties for $25,000.

Still another action for money has been filed in the circuit court against the Palmer Lumber Co., of Drain. The plaintiff this time is the Smith & Watson Iron Works, of Portland, which wants $113, alleged to be due for machinery sold to defendant. Attachment has been levied.

The city of Roseburg is now out of debt so far as current indebtedness is concerned. The last call for warrants, made on July 9, was for all warrants endorsed on or before July 3. 1907.

LANE COUNTY AS A FRUIT FARM.

Nowhere Can Fruit be Raised With Better Results or Less Expense.

It is not so very long ago that the name and fame of the Willamette Valley apple went far and wide. In those days the oldest orchards were still young and vigorous; the soil was rich and new beyond the need of fertilization.

In these days when we read of the splendid Oregon apple we think of this valley's splendid opportunity, and the time is soon coming when Lane county will be the largest exporter of the best apples that leave this splendid apple growing state. The good name of Oregon apples first secured by the Willamette Valley will soon be increased by the enforcement and observance of our present horticultural laws.

We do not need new orchards on lands that have been poorly farmed but more up-to-date methods of handling both trees and fruits. It is useless to ask or answer the question, does it pay? The best always pays, and nowhere with less labor and expense, or with better results than in Lane county. The man who with intelligence and care raises first-class apples adapted to this region—Spitzenbergs, Jonathan, Gravenstein, Kings, Northern Spies and Baldwins—will always find a remunerative market both at home and abroad.

There is another variety of fruit for which the Willamette Valley is becoming famous—the Italian or Oregon prune. The demonstration which was conducted during the entire period of the exposition at St. Louis, proved conclusively that this prune is the best of all.

The Oregon product which is neither too sweet nor too sour, which flavors itself and needs no sugar or extract, was approved by the thousands who had the opportunity of partaking of them. It is destined to become of greater importance as a wealth producer for this county, for nowhere else in Oregon does it reach a higher degree of perfection than in Lane county.

Pears, plums and cherries also do well in this locality. Our river bottom land is also well adapted to the growth of peaches of splendid flavor and size, although the crop is not a sure one like that of apples cherries, pears and plums.

Thousands upon thousands of people are coming to this county to develop its marvelous resources, and at the same time provide a larger local market for the product of our farms. A land like this, so blessed with the elements of horticultural success, is the place not only for the commercial fruit grower, but also for the homeseeker. There is nothing more conducive to health and happiness, nor adds more to comfort and attractiveness than the growth of an abundant supply of lucious fruit for the home. That person must indeed be of perverted disposition who would live in a fruitless country, when he can live in such a land as this, in such a valley as the Willamette, and in such a county as Lane.

We have the land in abundance, the climate and the markets, but not the men and women by many thousands to develop our resources and enjoy our privileges.

A JADE MINE DISCOVERED

Only Deposit of the Kind in the United States Found in the Klamath National Forest.

The only jade mine in the United States is in the Klamath National Forest, Siskiyou county, Cal., and was found last year by an old prospector. Samples of the jade were sent to Germany to be tested, with the result that they were pronounced to be of standard grade and capable of taking a high polish.

Preparations are now being made to develop the mine and ship the rock to Germany to be worked into ornaments. As a first step, a permit for building a road to the mine has been secured from the forest service, which is especially charged with furthering in all possible ways the development of mines and all other national forest resources.

The people of Siskiyou county, particularly along the Klamath river, are very proud of this discovery and are looking forward with hopes of large returns from this new resource. A railroad will probably be built down the Klamath river, passing within a few miles of this mine.

A jade mine is located under the mineral laws and therefore may be located and operated within a nation forest.

Jade is a silicate of magnesia which was used in the times of the Trojans, it having been found in the ruins of Troy by Dr. Schumann. It is very valuable, and heretofore has been mined only in Asia.

Deer Season Opens July 15th.

That not more than 5 per cent of the sportsmen of Oregon know that the open season for deer begins this year on July 15, is the opinion of a local hunter. The fact that the last Legislature changed the deer season has not become known at all in this part of the state and men who always begin deer hunting as soon as the season opens are making no plans to go into the mountains until next month.

According to the new law, the open season for buck deer is from July 15 to November 1. It was formerly from August 15 to November 1. The season for female deer remains the same under the new law as it was under the old from September 1 to November 1. These changes in the deer season are embodied in House bill 151, which is recorded on page 341 of the 1907 session laws.

Another change in the deer law is that it is now a misdemeanor to kill dogs chasing deer. It was formerly illegal to hunt deer with dogs and that provision is also contained in the new law. Under the old law many dogs chasing deer were shot and killed, and a new provision was inserted in order to protect owners of valuable dogs, which would break loose and chase deer without the knowledge of their owners.

Lodge Directory.

REBEKAHS—Cottage Grove, No. 24, Meetings 1st. 3rd. and 5th. Friday of every month.

INDIGESTION.

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol Dyspepsia Cure cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but the famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Kodol Dyspepsia Cure after meals is not only thoroughly reliable digestant, but it contains great tonic and reconstructive properties as well. This famous remedy enables the stomach and digestive organs to thoroughly digest, assimilate and contribute to the tissues all of the nourishment that is contained in such food as may be eaten.

Kodol Dyspepsia Cure clears the way and makes sure the journey from sickness to health and weakness to strength. If the stomach is disordered Kodol will cure it.

Kodol Dyspepsia Cure lays the foundation for health, and the upbuilding of strength by cleansing, purifying and sweetening the glands and membranes of the stomach, and by supplying natural juices necessary to perfect indigestion, assimilation and nutrition. Kodol digests what you eat, prevents colic, cholera, diarrhoea, flux, dysentery and summer complaints generally, and its use will cure indigestion and chronic dyspepsia permanently. Kodol is good alike for young and old. Your druggist sells it.
