

We Hear of More Cures

Of troubles originating in impure blood, scrofula, loss of appetite, catarrh, rheumatism, by Hood's Sarsaparilla than by all other so-called remedies combined. Somehow those cured by Hood's seem to stay cured, and they gladly tell the good news to others.

Scrofula Sore—My wife had a scrofulous sore on her leg for years. Many different medicines gave but little benefit. She turned to Hood's Sarsaparilla and the sore quickly healed. It is a good blood medicine. J. N. DART, Crosby, Texas.

Afflicted 16 Years—Hood's Sarsaparilla has cured me of scrofula, with which I have been troubled 16 years, and caused by vaccination. My little daughter had a scrofulous swelling on her neck and Hood's Sarsaparilla also cured her. Mrs. NORA HUGHES, Hughey, Tennessee.

Hood's Sarsaparilla is sold everywhere. In the usual liquid, or in tablet form called **Sarsatabs**. 100 Doses One Dollar. Prepared only by C. I. Hood Co., Lowell, Mass.

Failed to Relieve.

On the mighty deep.
The great ocean liner rolled and pitched.

"Henry," faltered the young bride, "do you still love me?"

"More than ever, darling!" was Henry's fervent answer.

"Then there was an eloquent silence."

"Henry," she gasped, turning her pale, ghostly face away, "I thought that would make me feel better, but it doesn't!"

Borax, Nature's Disinfectant, Cleanser and Purifier

Ev-ry-o-n-e realizes the necessity of some method of purification of sinks, drains and utensils in which may lurk the germ of dreaded disease.

Health is a question of cleanliness and proven fact.

Most people are familiar with the use of disinfectants in a t-er-ri-ble sense—a-l-l of which are either unpalatable or associated with disagreeable odors on which are de-pend-ent o-k-i-l-l the germ of contagion (which disinfectant must of necessity be of a more or less dangerous character), and must be used for this purpose and no other, and in consequence must be kept from children and ca-e-l-e-s-handl-ig.

T-ere is, however, within the reach of all of our readers, a simple, safe and economical article that will not only answer for every disinfecting purpose—but can also be used for a multitude of homes to clean-ness and purify g-purposes—Borax.

Borax is a pure, white, harmless powder coming direct from Nature's laboratory; in fact Borax has of been called "Nature's Cleanser and Disinfectant."

Two tablespoonfuls of Borax in a pailful of hot water poured down the greased-choked pipes of a sink or flushed through a dis-eas-ed drain, cleanses and purifies it, leaving it clean and sweet.

Bed clothing and clothes used in a sick room can be made hygienically clean and snowy-white, if washed in a hot solution of Borax water.

Kitchen and eating utensils used during illness will be kept from all possibility of contagion if Borax is used when washing them. Pure as snow and harmless as salt, and back as it can be used for almost every domestic and medicinal purpose, Borax must be considered the one great household necessity.

New Method.

Do you wish to choose a wife?
Flip a coin.

Or select your lot in life?
Flip a coin.

Of two evils make no choice.
Have your time, and strength, and voice,
There's a better way! Rejoice!
Flip a coin.

Ferry's Free Seed Book.

For half a century thousands and thousands of farmers and gardeners have regarded "Ferry's Seed Annual" as the best guide not only for the buying of seeds, but for their planting and care. Daily reference to its text and illustrations proves it to be the actual beginning of a successful season. The new edition for 1908 is now ready for free mailing to all who write to the publishers for a copy.

It is a high tribute to the house of D. M. Ferry & Co. that two generations have planted Ferry's Seeds, each succeeding year adding to the confidence that "seed trouble" will never arise when Ferry's seeds are planted as "Ferry's Seed Annual" says they should be.

Another remarkable feature developed by the house of Ferry is the method of distributing seeds to dealers throughout the country so that the planters everywhere can secure at their home store exactly what they want when they want it, with the absolute assurance that it is fresh and fertile. Everyone should send at once to D. M. Ferry & Co., Detroit, Mich., for the 1908 edition of "Ferry's Seed Annual."

The Poor Cat.

A young wife called her husband on the telephone to tell him a tale of woe. In tear-choked accents she said: "That you, dearie? Well, you know that lovely chicken pie I made you—that horrid old cat came in and ate it up before I could stop it!"

He answered: "Never mind, darling; I'll get you another cat."

The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

ANIMALS WITH NO THIRST.

Others Besides the Camel Exist for Long Periods Without Water.

From childhood picture book days nearly everyone has cherished the idea that the camel was the beast above all others that could exist for extended periods without drinking. And so few have any idea that there are other beasts of the earth quite as capable as the humped quadruped of going for days and weeks without water.

Sheep in the northwestern deserts go from forty to sixty days in winter without drink, grazing on the green, succulent vegetation of that season. Peccaries in the desert of Sonora live in little dry hills where there is no natural water for long periods. They can not possibly find water, in fact, for months at a time. The only moisture they can obtain comes from roots and the fruits of cacti.

But the most extraordinary case is that of the pocket mouse, one of the common rodents of the desert. This little creature, by the way, has a genuine fur-lined pocket on the outside of its cheek. When it is hungry it takes food from this pocket with its paw just as a man would pull a sandwich from his pocket.

It is said that one of these mice has been kept for three years with no other food than the mixed bird seed of commerce. During this period it had not a taste of either water or green food. Other experiments in this direction have shown, in fact, that these mice in captivity refuse such treats, not seeming to know that water is good to drink. The bird seed put before the mouse referred to contained not more than 10 per cent of moisture, which is less than is necessary for digestion. Stuff so dry as this can not even be swallowed until it is moistened by saliva, yet this remarkable mouse gave nothing but his time to the interests of science. He suffered nothing in health or spirits during his captivity.

Health is a question of cleanliness and proven fact.

Most people are familiar with the use of disinfectants in a t-er-ri-ble sense—a-l-l of which are either unpalatable or associated with disagreeable odors on which are de-pend-ent o-k-i-l-l the germ of contagion (which disinfectant must of necessity be of a more or less dangerous character), and must be used for this purpose and no other, and in consequence must be kept from children and ca-e-l-e-s-handl-ig.

T-ere is, however, within the reach of all of our readers, a simple, safe and economical article that will not only answer for every disinfecting purpose—but can also be used for a multitude of homes to clean-ness and purify g-purposes—Borax.

It Quiets the Cough

This is one reason why Ayer's Cherry Pectoral is so valuable in consumption. It stops the wear and tear of useless coughing. But it does more—it controls the inflammation, quiets the fever, soothes, and heals. Sold for 60 years.

"Ayer's Cherry Pectoral has been a regular life preserver to me. It brought me through a severe attack of pneumonia, and I feel that I owe my life to its wonderful curative properties."—WILLIAM H. TRUITT, Wawa, Pa.

Made by J. C. Ayer Co., Lowell, Mass. Also manufacturers of Sarsaparilla, Pills, Hair Vigor.

Hasten recovery by keeping the bowels regular with Ayer's Pills.

Under the New Ruling.

His Lawyer—The trouble is that they've got half a dozen witnesses who saw you whipping your wife. It will be hard to establish an alibi in the face of that.

Prisoner—Gosh! I don't need any alibi. All you've got to do is to prove by me that I was drunk.

That Terrible Boy.

Mrs. Kerruthers (making a call)—Yes, indeed, Mrs. Kajones, I put in nearly the whole blessed day in the dentist's chair.

Mrs. Kajones—I can sympathize with you. I know how it hurts.

Mrs. Kerruthers—My dentist hardly ever hurts me, though. He's so careful and gentle that I don't mind it at all. I declare I slept half the time while he was at work.

Johnny Kajones—That dentist wouldn't never do for me. When she goes to sleep she snores like a thrasher's machine.

RHEUMATISM RECIPE

PREPARE THIS SIMPLE HOME-MADE MIXTURE YOURSELF.

Buy the Ingredients from Any Druggist in Your Town and Shake Them in a Bottle to Mix This.

A well known authority on Rheumatism gives the readers of a large New York daily paper the following valuable, yet simple and harmless prescription, which any one can easily prepare at home:

Fluid Extract Dandelion, one-half ounce; compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Mix by shaking well in a bottle, and take a teaspoonful after each meal and at bedtime.

He states that the ingredients can be obtained from any good prescription pharmacy at small cost, and, being a vegetable extraction, are harmless to take.

This pleasant mixture, if taken regularly for a few days, is said to overcome almost any case of Rheumatism. The pain and swelling, if any, diminishes with each dose, until permanent results are obtained, and without injuring the stomach. While there are many so-called Rheumatism remedies, patent medicines, etc., some of which do give relief, few really give permanent results, and the above will, no doubt, be greatly appreciated by many sufferers here at this time.

Inquiry at the drug stores of even the small towns elicits the information that these drugs are harmless and can be bought separately, or the druggists will mix the prescription if asked to.

Regarding Jack.

"Jack always ends his letters to me by saying, 'I remain, yours forever,'" said the girl who had more money than beauty.

"Yes," rejoined her girl friend, who had more beauty than money, "and if you were poor he would probably remain a bachelor."

What the Cloth Got in Boston.

If you go to San Francisco and meet a friend he will ask you to stay a week with him. In Omaha he will take you home overnight, in Chicago he will take you out to dinner, in New York he will hurry you off to lunch, in New Haven he will hand you a good cigar, and in Boston he will give you an apple.—Congregationalist.

A Wonderful Record.

Many so-called "specifics" and "cures" for rheumatism have already been brought before the public; but when rheumatism, neuralgia and kindred diseases have become chronic and threaten serious results, you may rest assured that they will help but very little, if any. Although not recommended as "infallible," the peculiar qualities of St. Jacobs Oil especially adapt it to those cases which may be termed "chronic," and which have previously withstood all known "specifics," as well as the prescriptions of the best physicians.

Devotion to the Ideal.

The hero of the play had just died to slow, tremulous, wailing music, but the audience insisted on his coming before the curtain and kept up the applause for the space of five minutes.

At last a supe came out and stepped forward.

"Ladies and gentlemen," he announced in a high-keyed voice, "he says he'll have the curtain raised and you can look again on his cold corpse if you want to, but he'll be d—d if he's going to violate the proprieties and degrade his art by coming to life again before to-morrow evening. Thanking you again, ladies and gentlemen, I will now retire."

ALFONSO'S ISLAND PALACE.

Wedding Present in Bay of Arosa to Be Site of Summer Home.

King Alfonso of Spain is preparing to enjoy next summer the odd wedding present that some wealthy Spanish nobleman bestowed on him and Queen Victoria, says the New York Sun. He is having a palace built on the island of Cortegada in the Bay of Arosa, opposite the port of Carril and the summer resort of Villagarcia, famous for its sulphur baths. The villa at San Sebastian, at which he has heretofore spent a good deal of time each summer, is the property of his mother, and the new summer home is designed to give the youthful couple a place where they can entertain guests independently.

The island is about three miles and a half in circumference. It is diversified in surface and beautifully wooded, while in all directions it receives cooling breezes and commands splendid views, varying from the broad Atlantic to the picturesque shores of the bay. Previous to its purchase for the king it had a population of seventy labor folk, who inhabited eighteen dwellings. They sold out their rights to the intending donors, sharing the desire of the latter, as they put it, to please their sovereign, upon the one condition that the Chapel of the Incarnation, a far-famed shrine to which pilgrims from all the fishing villages of the coast resorted, should remain untouched and should be always accessible to pilgrims.

The king has placed the building of his palace and the beautifying of the island in the hands of the marquis de Viana and a Madrid architect, Senor Ripollés. The building is to be of semi-Arab design, following the general lines of some of the most famous parts of the Alhambra. The harbor is also to be developed so that the king can indulge in aquatic sports.

SKYSCRAPER OF THE FUTURE.

One Hundred Stories High.

Re-enforced concrete buildings, 100 stories high, towering 1,000 feet into the air, may yet be seen by people now living, according to a prominent New York engineer and builder. Before such a feat can be accomplished, however, two great obstacles must be overcome. The lack of adequate fire protection at such a height is one, and the other is the impossibility of providing elevator service under the present systems. Even now in thirty-story buildings the weight of the cables supporting the cars is enormous, and buildings of over forty stories would pass the safety line in this respect.

When, twenty years ago, a writer described a mammoth office structure towering into the clouds his picture was but a toy for the imagination. Now it is swiftly approaching a reality. Architects are at work this moment rapidly developing plans for substantially the same kind of structure told of in his fanciful story.

"The 100-story building is sure to come," says one New York architect. "We may not be ready for it yet, but the larger and higher buildings we are certain to have in the near future. The next stage in the development will be the fifty and seventy-five-story building, constructed of steel and concrete."

Already the forty-story building has been reached and passed in the completion of the Singer building. The fifty-story goal is practically here with the construction of the Metropolitan Life building, which, when completed, will be forty-eight stories high.

Less than a dozen years ago a twenty-story building was a world wonder. Now it is insignificant. The climax of skyscrapers in New York, not taking into account the Singer building, gives a total number of twenty-two buildings more than twenty stories in height, and 406 buildings ranging from ten to twenty stories high.—Popular Mechanic.

Considerate Bridegroom.

A girl and a young man, both of whom had steady jobs, were married the other day. The day after they were married the girl said to her fond husband: "Oh, George, now that we are married, there is only one thing I regret, and that is that I have to give up my fine position." The fond young husband stroked the silken tresses of the young wife's hair and soothingly replied: "Now, darling, don't worry. You needn't give up your position. I'll give up mine."—Kansas City Star.

ST. JACOBS OIL CONQUERS PAIN

FOR STIFFNESS, SORENESS, SPRAIN OR BRUISE, NOTHING IS BETTER THAT YOU CAN USE. LUMBAGO'S PAIN, RHEUMATIC TWINGE, YOUR BACK FEELS LIKE A RUSTY HINGE! SCIATIC ACHE, ALL PLEASURES SPOIL, FOR HAPPINESS USE ST. JACOBS OIL.

Only by Sight.

Souful Miss—You are familiar, I presume, with the Portuguese Hymn?

Col. Lumpkin (just returned from a trip abroad)—Er—no; I saw him, of course, when I was in Europe, but I never met 'im. You mean King Carlos, don't you?

Only One "BROMO QUININE."

That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Used the World over to Cure a Cold in One Day. 25c.

Just a Family Jar.

He (angrily)—So there was a man after you when you married me, was there?

She—Yes; there was.

"Poor fool! I wish to heavens you had married him."

"I did."—Boston Transcript.

No one will find Mrs. Winslow's Goodness Balm to be a remedy to use for their children during the teething period.

Be aware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.

Peat briquettes are now being made at Norfolk, Mass., with a machine. The peat is cut up by revolving knives like a meat chopper and then pressed through a die in a continuous bar, which is sliced into briquettes by a knife operated automatically.

BAD BLOOD THE SOURCE OF ALL DISEASE

Every part of the body is dependent on the blood for nourishment and strength. When this life stream is flowing through the system in a state of purity and richness we are assured of perfect and uninterrupted health; because pure blood is nature's safe-guard against disease. When, however, the body is fed on weak, impure or polluted blood, the system is deprived of its strength, disease germs collect, and the trouble is manifested in various ways. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that will continue to grow worse as long as the poison remains. These impurities and poisons find their way into the blood in various ways. Often a sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, leaves the refuse and waste matters to sour and form uric and other acids, which are taken up by the blood and distributed throughout the circulation. Coming in contact with contagious diseases is another cause for the poisoning of the blood; we also breathe the germs and microbes of Malaria into our lungs, and when these get into the blood in sufficient quantity it becomes a carrier of disease instead of health. Some are so unfortunate as to inherit bad blood, perhaps the dregs of some old constitutional disease of ancestors is handed down to them and they are constantly annoyed and troubled with it. Bad blood is the source of all disease, and until this vital fluid is cleansed and purified the body is sure to suffer in some way. For blood troubles of any character S. S. S. is the best remedy ever discovered. It goes down into the circulation and removes any and all poisons, supplies the healthful properties it needs, and completely and permanently cures blood diseases of every kind. The action of S. S. S. is so thorough that hereditary taints are removed and weak, diseased blood made strong and healthy so that disease cannot remain. It cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., and does not leave the slightest trace of the trouble for future outbreaks. The whole volume of blood is renewed and cleansed after a course of S. S. S. It is also nature's greatest tonic, made entirely of roots, herbs and barks, and is absolutely harmless to any part of the system. S. S. S. is for sale at all first class drug stores. Book on the blood and any medical advice free to all who write.
