Improvement Committee Entertained.

The civic improvement committee of the W. C. C. G. was entertained at the home of Mrs. H. O. Thompson last Monday afternoon. Luncheon was served at two o'clock after which many items of interest were discussed.

The committee hopes with the aid of the school board to beautify the vacant lot south of the high school. Plans have been submitted to the board for their approval. This will be a little touch of beauty to the town which can be enjoyed by all. The committee has succeeded in deeply interesting the school children in flower planting. About 40 pupils planted sweet pea seeds on the general planting day Feb. 22 and one hundred and seventy packages of mixed flower seeds have been planted the past week by children below the seventh grade. This will mean 170 little flower beds three feet by six dotting our town this coming summer.

The committee, however, finds it necessary to have funds with which to carry out any plans they may make. They hope to make the sweet pea show in June, something of which they may be proud. Many splendid suggestions were given as to ways in which the town could be beautified at a very small expense. In order that some of the suggestions might be carried out the committee plans to give a home talent entertainment the latter part of April. The program is now being prepared and promises to be of much interest.

One of those peculiar things which sometimes happen, occurred at the Herren meat market Tuesday. Leroy Woods, while at the shop coatless, stepped on the scales and tipped the beam at 161 pounds. Just then the Bidwell boys came in and one remarked that he could "beat it." He skinned off his coat, mounted the scales and tipped the beam at 161. This caused some merriment and the other Bidwell doffed his coat stepped on the scales and tipped the beam at 161 pounds. About this time J. W. Warner came in and remarked that the trio were featherweights and that he would show them what a man would do to those scales. He got out of his coat, jumped onto the scales and tipped the beam at exactly 161 pounds. At this juncture the boys were about to believe the scales would record but one weight—161 pounds, but were soon convinced that it was only a chance meeting of a quartette of 161 pounders.
