Salaried "Officials" of the Anti-Sa loon League Let the Cat Out of the Bag

THE MASK TORN OFF

EDITOR LEADER:—The Rev. J. R. Knodell of Portland, one of the EDITOR LEADER:-The Rev. J. of the Anti-Saloon League, stated the other day that the local option elections this year were only preliminary skirmishes. He said that the real idea was to obtain a state of the said that many salaried "superintendents" the real idea was to obtain prohibition for the entire state of Oregon in 1910, two years from now. That lets the cat out of the bag.

The people were assured four years ago that the local option law was merely intended to protect reschances. He is in your city all chosen from the members of the idence districts against the en-

'We are not prohibitionists, cried the supporters of the bill. 'We are only local optionists." To those who claimed that the local option law was merely prohibition in disguise, its supporters presented an unbroken front. When taxed with the fact that their law was unfair they replied by asking the UP FROM PORTLAND public to read it. As the law was 28 pages in length the public would not bother itself by making a more careful investigation.

When they were confronted with the fact that states and communities which adopted prohibition grew poor and lean, they said it was not so. When they were shown that the United States cenvery little rain falling on them en sus proved that only three states in Union had ever decreased in popu-

hibition communities than in communities which handled the liquor business under the liceuse system they were quick to answer, not so, but even if it were, it does not matter, for this is local option,

And now the cat is let out of the bag. They are not local optionists. They are prohibitionists. The opponents of the local option law were right. It really was prohibition in disguise. And the scheme of the smart attorneys, lecturers and orators, who make a fat living out of this prohibition agitation is quite plain. scheme is to start in quietly; to any saloous, and probably never would be any saloons. Such precincts being frightened with the absurd question: "Do you want a saloon next your home?" were easily put in the dry column. Then by adding each year to the dry territory acquired in this way, they have finally reached that state of arrogance in which they have thrown aside the mask and boldly declared for state prohibition two years from now. Voters have been fooled with; this kind of fraudulent

election long enough. Prohibition accomplishes nothing for real temperance or for morality. Bankruptcy does follow prohibition and the United States census reports prove this without a doubt. Here and there a prohibition orator may find a prohibition town or small community which has been fairly prosperous even in spite of prohibition. There are exceptions to all rules, but government figures, which do not lie, prove that prohibition is not only a mark of a stagnant community, but is a blight to a prosperous one

Prohibition in Oregon would cause 2500 buildings to become vacant and would throw out of employment 9000 men and deprive 4000 families of their livelihood. Where is the prosperity in this? Remember a vote for local option now is a vote for prohibition

in 1910.
