This is the principal department of our store. So important that the reputation of our store depends on it. Your health also depends on it—so does the reputation of your doctor. You can now see how important a department it is and why we pay so very particular attention to every detail of it. But with all the extra attention we give it our prices are moderate and fair and often far below prices charged for the same prescriptions in other cities.

Regarding honey bees being killed by fruit tree spray, S. B. Morss says this is a false impression, as was the final verdict in a long drawn out controversy in the agricultural press of the middle western states some years ago. He says the honey bee is too sensitive to odors and foreign or poisonous substances to be caught by the orchardists dope and that their death in considerable numbers this spring about Cottage Grove is no doubt due to other causes.

Salem Brewers Circular.

Editors Cottage Grove Leader:—About 2000 circular letters from the Salem Brewery Association were distributed in the Cottage Grove postoffice Tuesday. The circular was headed "Voice of the church not for prohibition." The brewers are liable to change their conclusion after next Monday. The circular continues, "In the place of the saloon you have easily doubled the number in 'blind pigs.' Not in Cottage Grove gentlemen! Then it says, 'drunkenness has vastly increased.' Nay, nay! Mr. Brewer you are off again. 'People will buy and drink even more liquor in dry precincts.' What are you going to do about it when the law is passed and enforced prohibiting the sale of liquor in dry precincts, Mr. Brewer? 'Prohibition will ruin the hop and barley business.' Neither have ever been found very profitable in this part of the state, so this won't scare the farmer much. 'Prohibition will rob thousands of men, women and children of a livelihood.' The saloon does the same thing and more; it sends fathers to the penitentiary or drunkards grave, mothers to the insane asylum or poor house and children to the care of benevolent societies.

The circular says, "local option engenders neighborhood strife, quarrels and feuds." The saloon engenders quarrels, fighting, suicide, blood-shed and murder. "Would it not be better to license respectable men and conduct only respectable saloons?"

Both are impossibilities; respectability and the saloon business is not on speaking terms.

The brewers talk about their elevating the legitimate saloon. They have never done it and never would do it, no, not in a thousand years. They say "the saloon makes business." Off again, the saloon only follows after business and goes where the dollars are, the same as does the gambler. There is not one sound argument that can be advanced in favor of the saloon. Cottage Grove has proven that she is better off without them and their male and female parasites. Eugene has done likewise, and the county is going to stand by its action of two years ago and keep out the saloons, and its officers will take care of the "blind pigs." A. Q. Smith.
