FORTUNES OF THE WORLD FOUNDED ON OIL

Joe Chanslor, now several times a millionaire, was not so long ago, a clerk in Los Angeles. He borrowed some money for the purpose of operating in California oil; the result was that it made him one of the richest men of the state. John A. Bunting, formerly a brakeman on the Southern Pacific, through the investment of \$170 in California oil land became a millionaire. We could tell you of innumerable others. Why were Bunting, Chanslor and the many others, who made their money through investments in oil successful? Because they were shrewd, level headed, observing men possessing unbounded confidence in the great future of the California oil fields and the oil industry. The demand for oil is increasing daily. The consumption far exceeds the output. Several oil companies paid substantial dividends when oil was selling at fifteen cents per barrel. Oil is now selling at sixty cents per barrel at the well. The total dividends for the year 1908, from all the oil companies doing business in California, not including the Standard, will probably reach the \$6,000,000 mark and reach the \$10,000,000 mark for the year 1909. Therefore the natural conclusion to arrive at, is, invest in oil securities, invest at once. We are offering for sale a limited number of shares on what we consider to be one of the best companies operating in Kern county, in fact, in California. We refer to the stock of the Kern Associated Oil company. The stock of the Kern Associated Oil company is the best oil proposition ever offered the investment public. This company owns free of incumbrance forty acres in the very heart of the Kern river oil district and situated on the Southern Pacific railroad. It adjoins the San Joaquin Oil & Development company's property which was recently merged with the Associated Oil company, whose stock is now selling at \$31.75 per share. It also adjoins the justly famous discovery well where oil was first discovered in the Kern river oil district. The Kern Associated Oil company has two wells on its property. Well No. 1 is in oil and gives about sixty five barrels of oil per day. With a greater depth and more approved pump the production will be greatly increased. The company desires to sink four more wells at once and to install modern compressed air pumps. We believe

that well No. 2 will, with a greater depth, produce a large and inexhaustible supply of oil as are the other wells on adjoining properties. We are offering a limited number of shares in this company at twenty cents per share. Do you realize what that means? It means that in purchasing this stock you become interested in a company that can produce the oil. It is not a case of "they may," "they should," but "they are."

Let us again impress upon you these highly important facts: The property is a producer, is entirely surrounded by reliable producing properties, that there is sufficient acreage (forty acres) to justify the drilling of forty more wells all of which would be in the very core of one of the richest oil producing districts in the world. Remember that Kern county produces as much oil as any other three oil producing counties in California. Shipping facilities could not be better for the property adjoins the Southern Pacific tracks. The company has valuable assets in improvements. Two wells, derrick, tanks, tool and bunk houses, etc., etc.

Before accepting the fiscal agency of the Kern Associated Oil company we thoroughly investigated every detail pertaining to the company and its property. We did not take snap judgment, we never do, consequently want to assure you that the stock of this company at twenty cents per share is the most unparalleled opportunity for the investor that ever came under our observation.

We sincerely believe that the Kern Associated Oil company is destined to pay dividends as surely and as regularly as are now being paid by the Associated Oil and other companies operating on adjoining properties and we see no reason why within twelve months the Kern Associated stock should not be quoted at many times its selling price.

You can invest any amount from twenty (20) dollars up to twenty thousand (20,000) dollars. We allow you five (5) per cent on cash subscriptions. You can purchase stock on the easy monthly plan if you so desire, one fifth down and one fifth per month. Send in your subscription at once. Don't delay. The stock of the Kern Associated Oil company is the best buy on the market today.

Humor and Philosophy

By DUNCAN M. SMITH

FIRST TRY-OUT.

Pathetic
On its face
As the case
Of the little girl
Whose big brother
Has just discovered
That she has an apple—
Yes, all of that
When the fat
And prominent citizen
Arises to make
His first speech in public.
Behold
On his brow the cold
Sweat.
The muscles of his neck set,
His hands clinched tight,
Ready for a fight,
While in his heart
He meditates flight.
First on one foot he stands.
His chest expands.
His breath comes short
And quick, and there is a sort
Of feeling that the world
Is slipping away.
He starts to say
The words he had learned
With toil and pain,
But they have taken the train
For nowhere,
Vanished in the air
And left, slack
A message saying
They would never be back.
You've been there?
No?
Well, that's one part of the show
You missed.
It looks easy
As tumbling in the hay,
But, say,
It isn't any such thing.

Not interested.

"Going to the football game?"
"Not me."
"Don't you understand the plays?"
"No; I am sorry to say my early education in pugilism was sadly neglected."
