looks after the sanitation of her home for the sake of her husband, her children, herself. Careful and scientific plumbing counts for much, and costs not much more than the old, indifferent, slapdash style of work. Only one word more: We are modern, sanitary plumbers.

Worth Remembering.

Housekeepers should bear in mind that when asked by canvassers or grocers to purchase a phosphate baking powder, that if they value their health they will refuse such powder. Phosphate baking powder is made from burning bones, gathered at slaughter houses, whether from diseased animals or not. It is then mixed with a solution of oil of vitrol.

Such baking powder usually contains more or less alum and sells for 25 cents per pound. Be on the safe side and protect your health by demanding the Pure Cream of Tartar kind, which is made from the purest of grapes. Read the label and don't be deceived. 31-1 mo

DO YOU KNOW—
That it takes only one to make a quarrel when that one is what is known as a third person?
That success is sweet, but sometimes the sweetening quality is about the consistency and flavor of black strap?
That persistency is a horrid quality when it is found in a person you don't like bent on interfering with your affairs?
That where ignorance befriends it is quite often profitable to get wise?
That a rolling stone is a smooth one and a mossback a back number?
That the early bird takes his chances with the toment and the barn owl?
That while the worm may turn it probably will be only to get it on the other side of his head?
That you never miss the water till the well runs dry, and not then if you chance to live in moonshine territory.
That there is no place like home, for which some exiles thereof are most devoutly thankful?
That, while it takes money to make the mare go, most any old thing will have that effect on money.
