

Cock-A-Doodle-Do.

We're justified in crowing over our competitors. Our cocks, stop cocks, etc., are cock of the pipe. Our joints don't leak. Sewer gas is lead out. We don't find it in the house except when we fix some other fellow's plumbing. Ever have your house tested for sewer gas and leaks? That's one thing we do. Then we fix things. It's worth the cost.

COTTAGE GROVE
LANE'S SECOND CITY
(CONCLUDED FROM PAGE 1)

On our Commercial Club it is unnecessary to comment, suffice that it is composed of 100 of our leading citizens, and is known all over the Northwest as the "Club that does things."

At the last election, Cottage Grove voted "dry," but she still owns and maintains one of the finest gravity water systems in Oregon, furnishing her residents with pure, cold water right from a mountain spring nearby, which fully equals Portland's famous Bull Run. The wonderfully healthful condition of the city is attributed largely to its pure cold water and excellent sewer system. The city also holds in reserve an abundant supply of water under high pressure, to be used only in case of fire.

There are yet a thousand nice things which could be said about Cottage Grove and the great resources surrounding. In conclusion, however, we wish to say that the business men and citizens of Cottage Grove have the happy faculty of making the stranger feel perfectly at home the moment he steps off the train. This has been the experience of many and will be yours, and should you decide to cast your lot with us, you will find the "latch string always out," and on every side you will hear that sweetest word in the English language: "Welcome."

FOR THE PUBLIC GOOD

This Will Interest Every Resident of Cottage Grove.

You can readily verify the following particulars, for the lady supplying them will be only too pleased to answer any enquiries by mail. If you suffer from disorder of the kidneys or bladder and desire to be cured, write her about Doan's Kidney Pills and learn that the following statement is true in every particular:

Mrs. Alice Coffman, Cottage Grove, Ore., says: "I was in a miserable condition as a result of kidney disease, my back ached constantly and I felt tired and languid. I became discouraged as none of the remedies I used gave me relief. I at last happened to learn of Doan's Kidney Pills and decided to try them. I procured a box at Benson's Pharmacy, took them carefully and before I had finished the contents, I could see that they were helping me. I continued until the disease had completely left me. I am today without a sign of kidney disease and am very grateful to Doan's Kidney Pills."

Rainfall the Source Of Our Prosperity.

By Professor W. J. McGEHE, Secretary of the Inland Waterways Commission.
TWO hundred trillion cubic feet of water on an average fall on the surface of the United States every year. This to the minds of most people is but a lot of figures—a two with a string of ciphers. To be more explicit, it equals about ten Mississippi, and that volume of water is the ENTIRE BASIS OF OUR PROSPERITY.

With the ten Mississippi falling upon the land of the United States every year two Mississippi run off. Thus one-fifth of the water-fall from the heavens flows into the sea. Of the eight Mississippi remaining about five are absorbed, passing off into the air to be precipitated again and again. A fraction, in part, passes into the earth and slowly reaches the oceans, while another fraction is consumed, passing into chemical combinations, such as plant growth, etc.

What we want to do is to MINIMIZE THE WASTE OF WATER AND MAXIMIZE THE BENEFITS which must accrue to the citizens and country by proper CONSERVATION of water supply.

IF WE SO CONTROL THE WATER THAT THE RIVERS SHALL FLOW IN UNIFORM STAGE WE WILL SOLVE THE PROBLEM OF INLAND NAVIGATION AND MAKE THE UNITED STATES RICHER BY A THOUSAND PER CENT THAN IT IS TODAY.

In order to do this we must equalize the run of the streams at the heads of the rivers, and this may be done by dams and reservoirs and scientific cultivation of the soil along the courses of both streams and rivers. The levees of the lower Mississippi have done a magnificent work, but the PREVENTION OF FLOODS is better far than all the levees in the world.

What we want to do is to GET BACK TO NATURE in dealing with water—first, to prevent floods, and, second, to compel the water to run clear and pure. It is a fact that each year the rivers of the mainland of the UNITED STATES POUR INTO THE SEA A THOUSAND MILLIONS OF TONS OF RICHEST SOIL MATTER in the form of suspended sediment, an impost greater than all our land taxes combined and commensurate INJURY TO COMMERCE in the lower rivers, which are rendered capricious and difficult of control by this unstable load.

THE DIFFERENCE IN THE POWER VALUE ALONE BETWEEN CONTROLLED AND UNCONTROLLED STREAMS WOULD IN TEN YEARS PAY THE ENTIRE COST OF STREAM CONTROL IN THE UNITED STATES, AND THIS, COUPLED WITH THE BILLION DOLLAR LOSS EVERY YEAR THROUGH SOIL EROSION, DUE TO FLOODS, WOULD CONSTRUCT A COMPREHENSIVE SYSTEM OF WATER CONTROL IN THE UNITED STATES.

YOUR FRIENDS—

Never take the hint if you are entirely out of funds when they come around to make their artistic touch. Love you for yourself alone, but don't object if they see a lot of your rich relations incidentally.

Love the game of mutual criticism, but want exclusive use of the microscope and to do all the talking.

Can't understand why you don't love their children, no matter how ornery the little rascals are.

Require delicate deference to their sensitive nerves, but express great surprise at the thought that you may have a nerve or two yourself.

Can't understand why their domestic should object to being asked to stay in on their regular day out.

When they are sick are sicker than ever mortal was before, and on their recovery consider the story of their illness the most interesting subject for conversation for an indefinite length of time.

Never weary of talking about the things they used to do and the friends they used to have.

Require lots of attention and entertainment when they visit you, but when you are their guest say "Just make yourself at home" and let 'em go at that.

Heart to Heart Talks.

THE CHILDREN OF BELGRADE. Modern history has its "children's crusade"—the crusade of the children of Belgrade.

The children's crusade of the middle ages was wistful for the recovery of the holy sepulcher; the children's crusade at Belgrade was against war.

Recently Austria annexed Bosnia and Herzegovina. The jingo patriots of Serbia set up a howl for war. Such a war meant the ruin of Serbia.

The crown prince, the most dissolute prince in Europe, celebrated the war spirit by getting drunk and lashing people in the streets with his whip.

A hideous blood demand filled Belgrade. The people there have learned they have little to gain by political changes, and they are tired of being killed to please princes.

It was the women who acted. They would not let their husbands be butchered without protest, but knew the swabstickers would not hesitate to kill them also if they marched.

But the children! Soldiers would not dare slaughter the children. And so the boys and girls were organized and drilled. Banners were made and lines of march outlined.

On the very day when the crown prince made his grand stand ultimatum, saying to the minister, "Remember you speak from 300,000 bayonets"—on that very day the children of Belgrade marched.

They came from all directions into the great square, singing and carrying banners bearing the legend:

Please Save Our Pappas For Their Homes.

When the great palace square was full the singing ceased, and at a signal the shrill voices of the children shouted in unison:

"O king, let us have peace! Do not send our fathers to war!"

King Peter, who favors peace, but struggled with the hot passions of the war party, appeared at an upper window and graciously greeted the children.

The result? In that hour THE WAR SPIRIT OF SERBIA WAS CRUSIFIED! It has not been able to rise from its head again. All of which makes a pretty story illustrating the fact that "out of the mouths of babes and sucklings is ordained the strength to still the avenger."

Didn't like the Trimmings. "Going to buy you laughter a title?" asked one millionaire carelessly of another as they settled down after a hard day's work clipping coupons.

"I haven't made up my mind yet," replied the other. "I would like to do something of the sort if it would please the girl, only there is one drawback that makes me hesitate."

"And what is that?" "They always insist on knowing in a duke or a count with it."

Blissful Ignorance. He didn't know 'twas loaded and never did find out. It didn't really seem a thing to bother him about. For when they made discovery he was way past recovery. And on the golden shore.
