### Corsets

#### "FRONT LACED"

THE front laced models are the culmination of the latest and best ideas in corset fashion. They remodel the figure, giving it a perfectly moulded back, giving it lines of grace and symmetry and the long, tapering curves which are so artistically beautiful. They reduce the full figure, giving it the flattened front and slender hip effects. They are absolutely hygienic and have the endorsement of the leading physicians and dressmakers. We call special attention to the model illustrated which is made in two lengths, high bust, for the tall figure, and medium bust, for the shorter waisted stout figure. This model is extremely long over the back and hips. The extra lacing in the back from the waist-line down permits an absolutely perfect adjustment over the back and assists further in keeping the hips in perfect subjection, thus giving the so-called hipless figure. We carry the front laced corsets in a varied line of materials at prices ranging from \$2.50 to \$12. We cordially invite the ladies of our city and vicinity to visit our corset department and inspect these most exquisite models. Consultation and fitting free.

#### ODE TO THE KNOCKER.

The Leader's official poet laureate "dishes up" the knocker as follows:

We'll bury the knocker out in the woods  
In a beautiful hole in the ground,  
Where the woodpecker pecks,  
And the bumble-bee hums,  
And the straddle bug straddles around.  
We've no use for him here,  
He's too miserly, stingy and dead;  
He wants the whole earth and a piece of  
the crust.  
And the stars that shine over his head,  
So we hustle him off to the place of the  
dead  
And bury him deep in the ground,  
There's no place for him here,  
Get him out of the way,  
And make room for the man that is  
sound.

#### Small Boy's Close Call.

There is an ordinance against running vehicles on the sidewalk. However, when the fire alarm was sounded this forenoon, the chemical fire engine was hurried down the sidewalk on crowded main street and a little boy astride a velociped narrowly escaped being run over in front of Thornton's confectionery, he having been rescued just in time by Allen Baker and Mrs. Plaster. Better lose a few old shacks rather than endanger the lives of children, women and old people on such occasions.

#### Look At This Proposition!

A 40 acre farm only 1/4 mile north of depot on good road and on bank of river. Fine land and good new buildings, house and one barn painted. 4 acres of fine young orchard in bearing and plenty of berries, nearly all of the land is tillable and in crop. If you want a dandy home almost in town look this up at once. For the next 10 days this goes for \$7500. It has been held at \$8000. Call on J. D. Cochran, Cottage Grove, Oregon.

## WITH THE LOCAL POULTRY FANCIERS

Prineville has a four-footed chicken—should be able to do a lot of scratching.

Mrs. C. Gray who resides on Wall street has a beautiful flock of Buff Orpingtons and is raising some fine vigorous youngsters of the same breed this season.

Many eggs from the various fancy or pure bred fowls raised about Cottage Grove are being shipped almost daily to points throughout the northwest. Cottage Grove will soon be known as the Petaluma of Oregon.

C. F. Handy of the Gowdville addition, has a flock of 15 as fine Buff Leghorn hens and one cockrel, as was ever seen, of the Barker Strain. He will give up Barred Rocks and make Buff Leghorns a specialty. He has a few eggs for sale.

Chas. Hall received a beautiful trio of Buff Langshans from Freeport, Illinois, this Friday morning, the first specimens of this breed to be imported into Oregon. Mr. Hall also received a basket of Columbian Wyandotte eggs from a well known California specialist and he will make a specialty of these two splendid breeds.

A White Plymouth Rock cockerel and two hens belonging to a chicken farmer near a Washington town were sold the other day for \$25. Why did they command such a price? Simply because they were bred right and are not in the dung-hill class. It pays to raise such fowl, and there are thousands of acres of room in the Pacific Northwest for farmers of that sort. Why raise a 30-cent chicken when others worth from \$1 up to \$10 apiece can be grown just as easily?
