

HENDERSON Habit Back

Corsets

"FRONT LACED"

THE front laced models are the culmination of the latest and best ideas in corset fashion. They remodel the figure, giving it a perfectly moulded back, giving it lines of grace and symmetry and the long, tapering curves which are so artistically beautiful. They reduce the full figure, giving it the flattened front and slender hip effects. They are absolutely hygienic and have the endorsement of the leading physicians and dressmakers. We call special attention to the model illustrated which is made in two lengths, high bust, for the tall figure, and medium bust, for the shorter waisted stout figure. This model is extremely long over the back and hips. The extra lacing in the back from the waist-line down permits an absolutely perfect adjustment over the back and assists further in keeping the hips in perfect subjection, thus giving the so-called hipless figure. We carry the front laced corsets in a varied line of materials at prices ranging from \$2.50 to \$12. We cordially invite the ladies of our city and vicinity to visit our corset department and inspect these most exquisite models. Consultation and fitting free.

Fruit Not Hurt Badly at Creswell.

J. O. Holt of Eugene, says the fruit in the Creswell vicinity is not hurt as badly as it was along the river road. He thinks Dr. Scarborough will have 10,000 boxes of prunes and other fruits will be from 70 to 75 per cent of a full crop. It is thought the thinning by frost will save the necessity of thinning by the orchardists later and will result in a much larger and better quality of fruit.

J. H. Sanders, the orchardist, returned to Cottage Grove from a brief visit to his home at Chico, California, this morning. He says he found his lemon and orange orchards in good condition although the season has been very dry there, the recent rains here not having extended so far south. Mr. Sanders says haying will commence down there next week with a fair crop prospect. He brought to the Leader office two boxes of fine Laubert cherries and some oranges picked from his own trees and they are very fine both in appearance and flavor. Mr. Sanders expects to complete his orchard work in this vicinity next week and will then return home. He is offered a tempting price for his 40 acre lemon and orange orchard and in case he should accept it, he will probably buy a suitable tract here and put out a good winter apple orchard.

The graduating exercises at the Royal Intermediate school a few miles east of this city, were largely attended Friday evening and the graduates from the various departments of the school acquitted themselves admirably, reflecting much credit upon themselves as well as upon their efficient instructor and principal of the school, Prof. G. E. Johnson. At the conclusion of the exercises, a fund was raised to make required improvements about the school, which fund was all subscribed except about \$200 or \$250, which unless forthcoming the school is liable to be taken to Roseburg or some other point farther south. This school while a denominational school, is one which contributes to Cottage Grove's educational advantages as well as considerable financially for supplies and sundries and the Leader believes the citizens of this community would dislike to see this school forced to move to another locality.
