Window Locker**
AND
Sash Holder

Protect your windows from burglars by using Hart's Burglar Proof Anti-Rattler, Automatic Ventilation Sash Holder and Locker. One always thinks of locking the doors but leaves the windows unlocked, therefore you are not safe in your house from burglars. We have the best all round window lock and holder on the market.

1st. Because the lock works automatically and always locks itself and the window cannot fall and break the glass.
2nd. Because the lock keeps windows from rattling, which no other lock will do and is worth more than the price of it.

3rd. Because you can ventilate your rooms from top or bottom, which ought to be done for health's sake, and no one can enter from the outside, and you will feel perfectly safe.

4th. Because they are made out of steel and are stronger and better than all other sash holders. Will hold any window, large or small. For sale by all hardware stores.

A Class Reunion.

The graduating class of 1904, of which Miss Laura Landess was a member, assembled at her home Monday evening, Miss Laura having been confined to her home for some time past on account of poor health and a most enjoyable evening was spent reciting incidents of school days, the professor under whom the class graduated, A. L. Briggs, also being present. With the exception of one, every member of the class was present on this occasion which was a most pleasant and enjoyable one. A brief 'review of studies' including a few problems to solve, recalled more vividly those 'happy school days.'

Big Coyote Chase.

A big coyote hunt on the J. I. Jones place near Saginaw occurred Monday, in which a number of men and 13 fox hounds participated and which resulted in the killing of two coyotes, one by Frank Easley and the other by Chas. Sears, both of whom had their dogs in the chase. The Easley brothers, who are farming the Jones place, and their neighbors have lost about 50 head of sheep the past year from the ravages of the coyotes and they have decided to commence a campaign of extermination against Mr. Coyote, their first days hunt being quite successful and at which rate they will soon be able to rid their range of these troublesome beasts. The county and state gives a bounty of about \$3.50 for coyote scalps.

New Style Refrigerator.

W. A. Cunningham the cabinet maker, is out with a new refrigerator of his own, which he claims is a great economizer in ice. It is also equipped with a trap in the waste pipe which prevents air reaching the ice from this source. Before buying a refrigerator see Cunningham and save ice and also \$5 to \$10 in first cost. Mr. Cunningham has opened a cabinet and general repair shop in the Pacific Timber Co's building on the river. Take your broken furniture to him or give him your order for any cabinet work.
