FRIDAY, AUGUST 20, 1909.

An Acme man says most of the people over there are not in favor of the proposed new Pacific county.

It is as great a crime to be too busy to attend to what concerns you most, as to be too lazy to do so.

A poet says a man must be either the hammer or the anvil. Lots of fellows we know are more like the bellows.

An Astoria man who has been visiting the exposition at Seattle says "A.-Y.-P." stands for "After Your Pocketbook."

After a Presbyterian and a Methodist minister had failed, a Baptist minister brought rain by praying in Oklahoma. At least it rained soon after he prayed.

Mrs. Carrie Nation has purchased a farm and is going to raise "poultry, pigs, pigeons and peas." That will be quite a change from what Aunt Carrie has been raising.

A Wisconsin paper having boasted of a cherry tree yielding 100 quarts, the Medford Tribune says: "There is a tree near Eagle Point which this year produced 98 gallons or 392 quarts. Likewise there is a tree near Gold Hill which produced 200 gallons or 800 quarts."

Two Italians, ignorant of what was inside, pasted a target on a dynamite and nitroglycerine magazine at Washington, Pa., and shot at it with their revolvers. Houses a mile and a half away shook. One of the shooters may recover. There are many people, literary and otherwise, who do not know what they are shooting into.

Just as we had Lang creek figured out as the source of a great future water supply for Cottage Grove, it is stated on seemingly good authority, that the forestry department through its forest reserve officials is about to negotiate a sale of several sections of valuable timber in the Cascade forest reserve "on Lang creek." Since the city has filed a water right on this mountain stream the forestry department should be petitioned at once to protect Cottage Grove's only future water supply by preserving the timber on Lang Creek.

A local paper brings a good many real dollars into a town through its state and eastern subscription list. The Leader has several hundred prompt paying distant subscribers, who are sending their \$1.50 annually to this office and town.

A couple of strangers after looking about town Wednesday were heard to remark: "There seems to be a great many pretty girls and women in this town." This is no new discovery, but one of Cottage Grove's well-known characteristics.

There is a call for people to go into the hop yards and the prune orchards two help garner two crops that will bring a great deal of money into the hands of the growers.

Harriman's health is not improved as a result of his visit to famous health resorts in France and he is returning to America too weak to walk without assistance.

Development Congress tomorrow at Coos Bay. That will help to put Southern Oregon on the map. Hope it will also add a few railroads to that map.

Homer Davenport's wife is suing for a divorce. Wonder if Homer hasn't been cartooning her?

MARRIED.

MILLER-POILL.—In Eugene, Tuesday, August 17, 1909, at the home of the bride's parents, Mr. and Mrs. J. J. Poill, 356 East Thirteenth street, Miss Lulu Bell Poill, and Leslie P. Miller, Rev. D. H. Trimble, pastor of Humphrey Memorial M. E. church, officiating.—Register.

PROFIT OF \$6000 ON A 400-ACRE FARM.

A. C. Armstrong, a farmer residing four miles southeast of Plainview, and 10 miles southeast of Albany, will realize a profit of \$4800 on 120 acres of vetch he threshed this week, writes an Albany correspondent. Incidentally he will clear up about \$6000 this year on a farm of 400 acres, for which he pays an annual rental of \$600. Some other Linn county farmers are doing almost as well, and farming in the Willamette valley is paying better than for many years.

Armstrong had 140 acres in vetch this year. He mowed 20 acres of it, and after storing his barns full of loose hay for his winter's supply, he had enough left over from the 20 acres to bale 20 tons, which is worth \$13 a ton. The vetch on the remaining 120 acres was threshed for seed by the thrasher and cleaner of Parker Bros. this week, and Armstrong had seventy tons of threshed and cleaned vetch seed from his 120 acres. This is worth four cents a pound in the present market, and after Armstrong pays all expenses of threshing, cleaning, etc., he will realize a net profit of \$4800 on the vetch seed alone, to say nothing of the vetch hay he baled.

In addition to his 140 acres of vetch, Armstrong has 200 acres in spring oats, which is in splendid condition and will doubtless return a big yield and give him an additional profit of several hundred dollars for the year's work.

ALCOHOL IN SICKNESS.

At one of the London public hospitals a special point is made of giving alcohol to the patients as rarely and sparingly as possible; and each time that one of the physicians does so he submits a special entry of the reasons that actuated him. In the thirty-two years of the existence of the hospital alcohol has only been given seventy-one times. The cases received are exactly like those received by all the other hospitals. For 1904 they numbered 1337 in-patients only. The death-rate among these was 7.5 per cent. For the same year the average death-rate among the other London public hospitals was 9.1 per cent. Therefore the use of alcohol in sickness is not to be regarded as a necessity. Although most physicians prescribe alcohol in solution with drugs for their patients—there was one physician of national reputation who did not believe in using alcohol. Many years ago when Dr. R. V. Pierce decided to put up his valuable "Prescription for the Diseases of Women in a 'ready to use' form—he used as a solvent and preservative chemically pure glycerine of proper strength, which is a better solvent and preservative of the active medicinal principles residing in most of our indigenous or native plants than is alcohol. Dr. Pierce found that the glycerine, besides being entirely harmless, possesses intrinsic medicinal properties, of great value.

No woman who is suffering from inflammation, from the pains and drains incident to womanhood can afford to do without Dr. Pierce's Favorite Prescription. An honest medicine which has the largest number of cures to its credit and a deserved popularity for two score years all over the United States. Dr. Pierce tells you just what is contained in his "Favorite Prescription."

ITS INGREDIENTS ARE: Golden Seal root (Hydrastis Canadensis), Lady's Slipper root (Cypripedium Pubescens), Black Cohosh root (Cimicifuga Racemosa), Unicorn root (Helonias Dioica), Blue Cohosh root (Caulophyllum Thalictroides), Chemically Pure Glycerine.

Among the prominent medical men of the country who recommend the above ingredients as superior remedies for nervous conditions depending upon disorders of the womanly system, and for the cure of those catarrhal conditions in the affected parts are: Edwin M. Hale, M. D., Professor of Materia Medica, at Hahnemann Medical College, Chicago; Prof. John King, M. D., Author of the American Dispensatory, Woman and her Diseases; Professor John M. Scudder, Doctors Hale, Ives, Wood, Bartholow and others. Address a postal card to Dr. Pierce for a complete treatise on the subject—sent to you without cost.

DR. PIERCE'S PLEASANT PELLETS cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation of the bowels, loss of appetite, coated tongue, sour stomach, windy belchings, "heartburn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels.

Persons who are subject to any of these troubles should never be without a vial of the "Pleasant Pellets" at hand. In proof of their superior excellence it can truthfully be said that they are always adopted as a household remedy after the first trial.

One little "Pellet" is a laxative, two are cathartic. They regulate, invigorate and cleanse the liver, stomach and bowels. As a "dinner pill," to promote digestion, take one each day. To relieve the distress arising from over-eating, nothing equals one of these little "Pellets." They're tiny, sugar-coated, anti-bilious granules, scarcely larger than mustard seeds.

HEALTH AND HAPPINESS.

How to live in health and happiness is the general theme of Dr. Pierce's Common Sense Medical Adviser. This great work on medicine and hygiene, containing over 1000 pages and more than 700 illustrations, is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers.

WOMEN'S WOES.

Cottage Grove Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing-down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know.

Mrs. E. T. Hall, Cottage Grove, Oregon, says: "When I commenced using Doan's Kidney Pills I was miserable as a result of kidney complaint. I could not stoop without suffering from pains in my back and was often kept awake at night on account of a dull aching through my loins. I used many medicines but the results were unsatisfactory until I procure Doan's Kidney Pills at Benson's Pharmacy. I was surprised and delighted at the quick relief I received and was so encouraged that I continued until completely cured. My general health is now so much better that I feel that I can conscientiously recommend Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Orders taken for Bohemia blue huckleberries \$1 per gallon. Call at Leader office or phone main 335.
