Entered at the Cottage Grove postoffice as second-class matter.  
SUBSCRIPTION RATES  
One Year \$1.50  
Six Months .75  
Three Months .50  
TUESDAY, AUGUST 21, 1909.

Like produces like. Nothing on earth could make the men attending the Irrigation congress dry up.

It will be a better equipped, better attended and greater state fair in every way than ever before this year.

One of the Standard Oil lawyers argues that the concern is not a trust. He must think there is a prejudice against trusts in this country.

President Taft will spend two days in Portland during his tour of the coast, the dates being October 2nd and 3rd. From Portland he will go south to California points.

Recent improvements in the mechanism for aiming big guns make it possible for an officer in an observation tower to have complete control of the battery of a warship. The disappearance of the man behind the gun will result in a hardship for the poets when the next big war comes on.

Tired of its experiments with booklets and folders, the LaGrande Commercial Club has agreed to invest a certain sum for extra copies of the home newspapers, and hereafter the homeseekers who write that organization for literature will be furnished a three months' subscription to one of the local papers. This is a little more like business, and will bring bigger and better returns for the small investment than all the folders and pamphlets that could be sent out from a community. An eastern visitor to this city recently informed the writer that the homeseeker and investor is beginning to look with suspicion upon the flood of western promotion literature with which they are almost overwhelmed.

Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

**The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.**

GIVEN AWAY.—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Monday's Oregonian contained two large pictures of scenes in and about Cottage Grove. The first was a picture of Main street and was labelled: "Progress in one prosperous southern Oregon district. Street to be paved, looking west from S. P. R. R. depot, Cottage Grove to the Coast Fork bridge." The other was a farm scene containing the foot note: "Field of oats on the Stewart and Porter Brothers farm on Mosby Creek four miles from Cottage Grove, which will yield 75 to 80 bushels to the acre."

A fellow went spinning through town south Monday morning in an automobile with the muffler removed, which caused an exhaust from the cylinders that sounded like the approach of heavy artillery and scared teams for blocks around. The running of autos or motorcycles with mufflers removed is strictly prohibited by law and should be enforced. The fellow should have been promptly arrested—while his machine was striking some of the high places in going through town.

O. G. Gilbertson, manager of the Wall Street group of mining claims owned by the Gold Hill Mining Co., in the Bohemia district is in the city on business. He says the district is looking up and times are quite lively there.—Guard.

Alton Hampton spent Sunday at Cottage Grove. He says the south Lane city is growing rapidly, and there are good prospects for street paving there late this fall or next spring. Four or five new brick buildings are going up on Main street.—Eugene Guard.

Architect J. R. Ford returned Saturday from Cottage Grove where the directors of the Calapooia Springs Association accepted his preliminary plans for the associations new bottling works to be erected there.—Guard.

Roy Riggs and Sam McKernon commenced work Monday morning on a nice modern cottage for Orin Robinson in west Cottage Grove in the vicinity of Mr. Robinson's home property. This cottage is being built for rent or sale.

Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

### More New Homes.

O. L. Willard and Mr. Allison commenced work Monday morning on a fine modern bungalow for Bert Willard on the lot on "C" street near Wall street, which he recently purchased of Mr. Hawkins, which includes part of Mr. Hawkins fine winter apple trees. This bungalow will contain five large rooms, bath room, toilet, pantries and will be modern in every particular. Ben Lurch, the merchant, has the lumber on the ground on the opposite side of "C" street for two neat modern cottages which he will build to rent or sell. Many new homes are being built, much permanent street work is being done and concrete sidewalks laid in west Cottage Grove this season, as well as in other parts of the city.

Frank King is putting lumber on his sitely lot just north of the home of his brother, Attorney A. H. King, on railroad street in the Perkins addition, for a barn and new modern home. Mr. King has a fine young 12 acre pear orchard a short distance beyond the lot on which he is building a home. Mala Miller has just completed a 40-foot drilled and cased up well for Mr. King on his home site, securing a fine flow of good pure water.

### ALCOHOL IN SICKNESS.

At one of the London public hospitals a special point is made of giving alcohol to the patients as rarely and sparingly as possible; and each time that one of the physicians does so he submits a special entry of the reasons that actuated him. In the thirty-two years of the existence of the hospital alcohol has only been given seventy-one times. The cases received are exactly like those received by all the other hospitals. For 1904 they numbered 1337 in-patients only. The death-rate among these was 7.3 per cent. For the same year the average death-rate among the other London public hospitals was 9.1 per cent. Therefore the use of alcohol in sickness is not to be regarded as a necessity. Although most physicians prescribe alcohol in solution with drugs for their patients—there was one physician of national reputation who did not believe in using alcohol. Many years ago when Dr. R. V. Pierce decided to put up his valuable "Prescription" for the diseases of women in a "ready to use" form—he used as a solvent and preservative chemically pure glycerine of proper strength, which is a better solvent and preservative of the active medicinal principles residing in most of our indigenous or native plants than is alcohol. Dr. Pierce found that the glycerine, besides being entirely harmless, possesses intrinsic medicinal properties, of great value.

No woman who is suffering from inflammation, from the pains and drains incident to womanhood can afford to be without Dr. Pierce's Favorite Prescription. An honest medicine which has the largest number of cures to its credit and a deserved popularity for two score years all over the United States. Dr. Pierce tells you just what is contained in his "Favorite Prescription."

ITS INGREDIENTS ARE:  
Golden Seal root (Hydrastis Canadensis), Lady's Slipper root (Cypripedium Pubescens), Black Cohosh root (Cimicifuga Racemosa), Unicorn root (Helonia Dioica), Blue Cohosh root (Caulophyllum Thalictrifolium), Chemically Pure Glycerine.

Among the prominent medical men of the country who recommend the above ingredients as superior remedies for nervous conditions depending upon disorders of the womanly system and for the cure of those catarrhal conditions in the affected parts are: Edwin M. Hale, M. D., Professor of Materia Medica, at Hahnemann Medical College, Chicago; Prof. John King, M. D., Author of the American Dispensatory, Woman and her Diseases; Professor John M. Scudder, Doctors Hale, Ives, Wood, Bartholow and others. Address a postal card to Dr. Pierce for a complete treatise on the subject—sent to you without cost.

DR. PIERCE'S PLEASANT PELLETS cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation of the bowels, loss of appetite, coated tongue, sour stomach, windy belchings, "heartburn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels.

Persons who are subject to any of these troubles should never be without a vial of the "Pleasant Pellets" at hand. In proof of their superior excellence it can truthfully be said that they are always adopted as a household remedy after the first trial.

One little "Pellet" is a laxative, two are cathartic. They regulate, invigorate and cleanse the liver, stomach and bowels. As a "dinner pill," to promote digestion, take one each day. To relieve the distress arising from over-eating, nothing equals one of these little "Pellets." They're tiny, sugar-coated, anti-bilious granules, scarcely larger than mustard seeds.

HEALTH AND HAPPINESS. How to live in health and happiness is the general theme of Dr. Pierce's Common Sense Medical Adviser. This great work on medicine and hygiene, containing over 1000 pages and more than 700 illustrations, is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers.

### THE GREAT COMIC OPERA, PINAFORE

Many of Cottage Grove's leading singers met with Prof. Martin E. Robinson Monday evening at the Armory and commenced work on that great and popular comic opera, "Pinafore," which will be presented at this place in about three weeks under the able directions of Prof. Robinson, for the benefit of Company E. Prof. Robinson has most successfully directed and staged two cantatas at this place heretofore, "Belshazzar's Feast" and "Queen Esther" and both proved rare treats for the many music loving people of Cottage Grove, and "Pinafore" promises to be more interesting and entertaining than either of them. Rehearsals will be held at the Armory each evening and those singers not able to attend the first rehearsals are given a special invitation to come and join the chorus just as soon as possible. It will be vocal and stage training that you rarely have an opportunity to get in a place the size of Cottage Grove. Let all singers come out tonight.

Miss Rose Ferry of the "Rose" Confectionery is taking her vacation visiting with relatives and friends in Coos county. Mr. and Mrs. Cunningham and Miss Ipha Widdersheim are conducting the Rose Confectionery in Miss Ferry's absence.

Rev. Zimmerman, of Portland, conducted a very interesting union temperance meeting at the Christian church Sunday evening.

We do quality printing at Portland prices.
