CHEAP AND GOOD PAVING.

The Marshfield Mail has this: "Today, I was talking with Mayor Paving," said Mr. Smith, "about paving materials and I remarked that it was strange that where lumber is so plentiful and cheap that the paving material had to be imported. I told him the same had been true of Minneapolis. That when lumber was selling at \$10 per thousand there, it was no good for paving but now when it has reached \$20 or \$25 per thousand, wooden blocks are the only thing and last year 156,000-square yards of block paving were laid there and only 8,000-square yards of all other kinds of material."

"I have investigated the paving matter considerably, and am satisfied in my own mind that wooden blocks is the cheapest and best material. For Marshfield, I think a three-inch cedar plank with four inch cedar blocks on top would make a paving that would last for years. It would not be as noisy and would be cheaper than the present paving. By using fir blocks the paving could be put down cheaper still. Sometime ago Mr. Merceen and I figured that we could put in a cedar block paving cheaper than the present hard paving and would be willing to guarantee it for twenty years, while the present hard paving is guaranteed only for five years."

In closing, Mr. Smith said that he wished it understood that he was speaking for the welfare of Marshfield and not from a selfish standpoint, that is, he desired to have the best possible paving put in here at the least expense.

In response to questions by the council, Mr. Smith said that his company would be glad to bid on

paving jobs if the specifications provided for wooden blocks. He said that unless there was considerable paving to be put in, the company could hardly go to the expense of putting in a creosote plant to treat the blocks.

The paving matter was discussed at length and resulted in the council deciding to have future specifications provide for wooden block paving as well as the hard paving.

Here is a proposition which Cottage Grove might well investigate. With abundance of timber at hand and a creosote plant one mile south of town to treat this timber it looks as if wooden block paving would be the thing for Cottage Grove.

Brother Beebe, of the Springfield News, is feeling pretty frisky these days of railroad construction out from Springfield. He says "the \$50,000 city hall which was to have been built at Eugene will be built here instead and the court house will positively be moved to Springfield." Mr. Beebe refers to Eugene as a suburb of Springfield.

In commenting on the forthcoming session of the M. E. District Conference, which will convene in Cottage Grove Sept. 15, the Junction City Times says: "Owing to the large number of withdrawals and transfers during the past conference year, the whole assignment will be rearranged."

It is now stated that all of the pending land fraud cases, including that of Binger Hermann, will be dismissed. But they cannot dismiss the enormous sum it has cost the government to carry out Hitchcock's personal spite.—Jefferson Review.

CAMP BOUND OVER TO CIRCUIT COURT

J. S. Camp, a man aged about 60 years, who worked in the office of the county surveyor of Lane county a while last winter, was arrested at Ashland Saturday upon a warrant charging him with larceny by bailee, alleged to have been committed last January, when he sold a civil engineer's transit belonging to Harvey Taylor, of Cottage Grove. A warrant was issued for his arrest at that time but he was not located until last week.

The officers at Ashland informed Sheriff Bown of Camp's arrest there and he left Saturday night for the Southern Oregon city, returning home with the prisoner Monday morning.

Camp appeared in the justice court this forenoon and waived examination. His bond was fixed at \$800 and being unable to raise the bond was remanded to jail.

Camp is an intelligent appearing man. He stated in court this morning that he had no intention of committing a crime but just at the time he sold the surveyor's instrument he needed a certain amount of money to close a deal and expected to redeem the instrument in a day or so. But his deal went wrong and like many a man with similar experience he is in the clutches of the law.—Guard.

Miss Cora Whitcher is visiting with friends at Medford.

Quite a number of Saginawites are going to the hop yards.

Jim England is now proprietor of the Saginaw Boarding house.

Miss Ida Tucker, who has been very sick with the measles is able to be about again.

Fred Whitcher has purchased a brand new set of harness. What next Freddie?

Mrs. C. J. Queener, with four of her sons were visiting near Roseburg week before last.

Mr. J. E. Angel has another son and his family, who have just arrived from the east, visiting him.

Adrain Miller came down from Prune Hill the last of the week to stack his grain on the R. E. Walker place.

Nelson Jensen, the planer man, has not been able to run the planer for several days. He tried to manure his finger nails and got them cut too short.

H. S. Powell came near getting crippled or killed the other day. He was riding on a load of poles with C. A. Smith coming down a steep hill when the coupling broke and the load upset throwing Mr. Powell to the ground with some of the poles on top of him.

The coming visit of the President has been the cause of a new record being set for Oregon fruit. Some admirer has purchased two boxes of Winter Banana apples from a Hood River orchard, paying \$25 per box for them and will present them to the nation's executive. As the apples will run about 32 to the box, the buyer spent about 75 cents for each apple, a price never before so far as known, paid for Oregon apples. Of course the careful selection and packing of the fruit for shipment to the White House accounts for a large part of the almost fabulous price.

A girl who arrived at New York from Europe a few days ago refused to land until she could be assured that she would not become a white slave. A fine reputation our police forces are establishing for us abroad!

John Mathews, sawyer in the Booth-Kelly mills at Coburg, was "shot for a deer" by Virgil Clover while hunting near that place Saturday. He may recover.

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.
