Harry Metcalf gathered his first crop of ripe strawberries from his patch in west Cottage Grove May 1, and on May 3 had his first berries on sale in the local markets, strawberries from Roseburg, the famed earliest strawberry section, having been in the local markets but the day before. We guess the "Nesmith county" strawberry is not so far behind after all and it is the equal of any in size and flavor. All last week wild strawberries which are found in abundance on the sunny hill slopes about Cottage Grove, were being brought into town by boys and girls and are prized more highly for pies and sauce than the home cultivated variety.
