DREDGE FINDS GALLEON.

Hulk Buried for Centuries Uncovered on Canal.

Washington, D. C.—The hull of an old vessel which has every appearance of having been buried in the sand several centuries has been unearthed by workmen on the Panama canal near Nombre de Dios. A report of the discovery has been made to the Washington office of the canal commission. The hull was uncovered by a steam suction dredge working in the sand deposits.

The wreck was lying in the middle of the sand zone 300 feet from the beach line, and at from 18 to 20 feet below the surface of the ground. The dredge unearthed the old hull for the entire length of about 60 feet, and has now worked past it. The wood of which the ship was built resembles oak and is put together with wooden pins. During the time the dredge has been operating in the vicinity of the wreck, its suction pipe has drawn in several hundred pounds of iron, some pieces weighing as much as 40 pounds. The cutter of the dredge also encountered a great many pieces of hard mortar, severing, instead of breaking, the pieces when it came in direct contact with them. The mortar is practically the same as that used in the ruins of buildings on the isthmus constructed by the early Spanish.

MILL WORKER STRONGEST.

Girl of 19 Smashes World's Record in Sport With Ease.

Boston—Many acquaintances of Miss Margaret A. Graham, employed as a "reeler" in one of the mills at Ludlow, believe she is the strongest woman in the country. Although but 19 years of age, she stands six feet 3½ inches in her stockings, weighs 189 pounds, and carries no superfluous flesh. Recently she threw a baseball 262 feet 6 inches, and ran 100 yards in 11½ seconds, wearing skirts.

Miss Graham has smashed all world's records in skating for women from one mile to 10, her world's record time for a half mile in this sport being 40 seconds, and one of her aquatic feats is a 100-foot swim in 23 seconds.

All her records are officially timed, and the apparent ease with which she has won different record events has caused coaches and experts to wonder what the limit of prowess of this giantess may be, when once put to her utmost strength test.

BALLOONISTS ARE LOST.

Relief Parties Hurrying to Canadian Wilds in Search.

New York, Oct. 24.—No word has yet been received by officers of the Aero Club of America as to the whereabouts of the balloon America II, carrying Alan R. Hawley, pilot, and Augustus Post, aide, and anxiety for the safety of the two aeronauts, both of them prominent Aero club members, is increasing.

If the men have landed safely it is believed they are east away so far in the Canadian wilderness that their return to civilization will be a matter of great difficulty.

William Hawley, brother of Alan R. Hawley, accompanied by F. Stoddard, a friend of the aeronaut, left New York tonight for Ottawa.

Charles Heitman, secretary of the Aero club, said today that not even one of the bulletins with which all contestants of the St. Louis race were supplied and which were to be dropped at intervals of two hours to furnish news of the movements of the balloon, has been received in New York from the America II. Several of these bulletins dropped by each of the other contestants in the race were picked up and mailed to the Aero club.

Japs to Spend \$40,000,000.

Tokio—Count Katsura, the premier and minister of finance, speaking at a dinner of the associated clearing houses, outlined the next budget briefly, and said that the government would faithfully adhere to the policies already followed.

The only new feature in the next budget will be an appropriation for naval increase, amounting to \$40,000,000, payable in six years. This, the finance minister said, has been necessitated by the sheer requirement of maintaining peace.

Policeman Arrested for Murder.

Redding, Cal.—The dogged determination of Mrs. Vallier, mother of George Vallier, assisted by Mrs. Battain, the young man's aunt, has resulted in uncovering a crime that has led to the arrest in Oakland of Daniel Fleming, a railroad policeman, on the charge of murdering George Vallier near Redding on August 25. The arrest was made by City Marshal Seng. The complaint was sworn to by Harry Goble, who came near losing his life at the same time that Vallier was killed.

King of Siam Is Dead.

Bangkok, Siam.—The death of King Chulalong, which occurred here, was due to uraemic poisoning. The king had suffered for years from nephritis. Uraemic poisoning developed and the king lapsed into unconsciousness, dying a few hours later. The crown prince Chompha Maha Vajiravudh was proclaimed king. He was born January 1, 1880, and was proclaimed king January 17, 1885.

Greek Cabinet Resigns.

Athens.—The cabinet formed only a few days ago by Deputy Venizelos has resigned, due to the fact that on every attempt to get a vote of confidence in the national assembly, a majority of the members absented themselves. King George, however, has refused to accept the resignation and 20,000 citizens held a demonstration in the streets in support of Venizelos.

Kaiser Honors Caruso.

Berlin.—The Kaiser's customary birthday surprise to the kaiserine took the form of a concert at the palace at Potsdam, at which Geraldine Farrar and Enrico Caruso were the performers. Their majesties afterwards chatted with the singers. The Kaiser bestowed on Caruso the title of Koeniglicher Preussischer Kammerseänger.

INDUSTRIAL DEVELOPMENT AND PROGRESS OF OUR HOME STATE

ATTENDANCE INCREASED.

Students at O. A. C. 1011, and a Possibility of 2000.

Corvallis.—The attendance at Oregon Agricultural college has increased twenty-four per cent over that of last year. Up to date 1,011 students have matriculated. They are registered from every county in Oregon, eighteen states of the Union, and eight foreign countries. Benton county leads the list with 174 students, and Multnomah comes next with 127. Linn county sends 39, Marion 36, Lane 34, Douglas 33, Washington 28, Yamhill 43, Jackson 25, Clackamas 21, Clatsop 18, Umatilla 17, Polk 20, Lincoln 15 and other counties from 2 to 14.

Students have come to the college this fall from 23 colleges and universities located in all parts of the world. They come from such institutions as the universities of Michigan, Wisconsin, Minnesota and Columbia, and from the Agricultural colleges of Michigan, Colorado, Oklahoma and Kansas. One man from India who has degrees from the schools of India and the University of Edinburgh, Scotland, has registered here in order to get special work in horticulture. Dean Cordley, of the school of agriculture, reports an exceptional growth in that work. He states that the Freshman class has increased 63 per cent; the Junior class 50 per cent; the Senior class 90 per cent; special students 50 per cent and graduate students 100 per cent.

BIG SUM SECURED.

State Land Agent's Sales for Two Years Bring \$629,697.

Salem.—Peter Applegate, state land agent, has submitted his first letter of transmittal to Governor Benson and in it is shown that gross sales during the time covered by his report, October 1, 1908, to October 12, 1910, amounted to \$629,697.30.

The letter of transmittal is as follows: "At the time I took charge of the office of state land agent the price for which the state selected indemnity lands was \$7.75 per acre. This price was advanced on October 12, 1909, to \$10 per acre; on February 4, 1910, to \$13 per acre; and on April 12, 1910, to the present price of \$15 per acre.

"The state pays fifteen, advertising and other fees incidental to indemnity selections whenever the selection is for ten acres or over. Where a selection is for less than ten acres, the applicant pays the fees. The amount of these fees paid by the state during the period covered by this report is \$7,307.87, a cost of about 11 cents per acre on the 65,850.77 acres selected during this period.

43,683.64 acres were sold at \$8.75 per acre.
15,020.35 acres were sold at \$10 per acre.
4,968.89 acres were sold at \$13 per acre.
2,177.89 acres were sold at \$15 per acre.
"The gross amount of sales is \$629,697.30.
"There are about 47,000 acres of land still on hand to dispose of, which is being used as base by the state at \$15 per acre.

Apple Market Sought.

Commercial exploitation of Oregon's famous apples will be started at once by the Northwestern Fruit exchange in the Middle Western and Southern states. At a recent meeting of the exchange it was decided to put four salesmen in the field and to sell Northwest apples where they have never been sold before.

The campaign will be directed especially to the wholesale grocery trade, and it is expected that there will be opened up a wide territory heretofore undeveloped on Northwest fruit. The campaign will be the first of its kind ever inaugurated by the exchange in the interest of the industry.

Plans are being formulated for the co-operation of the exchange with its local constituents for the betterment of the pack and grade of apples and to bring about an improvement in the practical working conditions of the business.

Sawmill at Gold Beach.

Marshfield.—Charles H. Burbot, of Appleton, Wis., who has been looking over the country, announces that he will build a sawmill near Gold Beach. He has gone to San Francisco to purchase the machinery and has obtained timber to supply the mill. In connection with the sawmill there will be a saw and door factory, so the plant can turn out anything that is needed in the building line. Another improvement to be made in Curry county is a \$30,000 school house to be erected at Gold Beach.

Clatsop Has 2,696 Voters.

Astoria.—The registration books for the coming state and county election have been closed, with a total of 2,696 in the county, although there is a chance that these figures may change slightly when they are checked over. This is 361 less than the registration for the general election two years ago, when the total was 3,057. The shortage is in the city precincts. These are 430 behind, due to a lack of interest in the election.

Big Squashes at Athena.

Athens.—A 64-pound squash, grown by Andy Weaver and J. E. Froome on the Cass Cannon tract south of Main street, is the centerpiece for an attractive window display in the Musgrave Mercantile store in this city. It has a companion weighing 52½ pounds.

INCORPORATE BIG FIRM.

Eastern Oregon Lime and Gypsum Deposits to Be Worked.

Portland.—The Western Lime & Plaster company, having a paid-up capital of \$350,000, has been organized by Portland capitalists for the purpose of engaging in the extensive manufacture of lime and all kinds of hard and finishing plaster. Charles F. Beebe is president of the company; Charles E. Ladd, vice president and treasurer; M. B. Wakeman, secretary, and W. C. Hay, general manager.

The company has extensive deposits of lime rock near Huntington, in Baker county, and gypsum deposits covering about 1,000 acres in Northern Baker county on the line of the Oregon Short Line's Lewiston branch. Lime kilns with a capacity of several hundred barrels a day are being erected on the company's property near Huntington. At Gypsum, in the northern part of Baker county, the company is preparing to begin the erection of a plaster mill with a daily capacity of 400 tons of hard and finishing plaster.

General Beebe said that the company would be shipping lime from its new kilns within 30 days, but that it would be probably six months before the plaster mill begins operations.

In addition to manufacturing lime and plaster, the company will handle building materials of all kinds.

85 Acres Bring \$15,000.

Portland.—Grindstaff & Schalk and Dr. Sandford Whiting have bought 85 acres at Sycamore station, ten miles east of Portland, on the O. W. P. line to Cazadero, paying \$15,000 for the property. This makes the price per acre a trifle over \$176, which is considered very cheap for land in that vicinity. This tract was the property of Laura M. Gurnea and lies next to Johnson Creek park, which has been platted. Johnson creek runs through the land just sold, making it desirable for fruit raising.

Figures Show Bulge.

Salem.—Reports of county assessors are being received by the state tax commission and the three so far filed—Columbia, Lincoln and Polk—show substantial increases. In the reports as now received an apparent difference is shown, which causes a decrease on the part of the reports on county assessors are not assessing telephone, telegraph and railroad lines. With this fact taken into consideration, the totals as shown indicates large increases.

Crater Lake Gets Trout.

Klamath Falls.—Fifty thousand young rainbow trout fry were placed in Crater Lake recently by Alfred Parkhurst, president of the Crater Lake company, which is operating a hotel and resort at the rim of the lake. These fry were brought from the Oregon City hatchery in an automobile. Several times during the past five years a small number of fry have been put into this lake and now the waters teem with fish.

Registration Under Three-Fourths.

Burns.—The registration books have closed with only 781 registration out of a possible 1,200 voters in Harney county. Of these 429 are Republicans, 299 Democrats, and 53 miscellaneous.

BALLOONISTS MAY BE LOST.

Three Racers Have Dropped in Lakes or in Canadian Wilds.

St. Louis, Oct. 22.—Relief expeditions to search for the pilots and aides of the three missing balloons, Azura, Dusseldorf II and America II, which started in the international race here, will be started from Toronto tomorrow if no news is received from the aeronauts before that time. This announcement was made tonight by officials of the Aero club of St. Louis.

The situation in reference to the unreported balloons assumed a most serious aspect tonight. It is believed here that the men have landed somewhere in the wilds of Canada, where they may be the victims of starvation before succor can reach them.

The German balloon Germania, Captain Hugo von Abercon, pilot, and August Blankertz, aide, landed at Cococah, Quebec, 179 miles north of Quebec, Wednesday morning. This is approximately 1,195 miles and may mean that all world's records have been broken.

The Aero Club tonight called upon General James Allen, chief of the United States Signal corps at Washington, D. C., to have the revenue cutters patrolling the Great Lakes look for wreckage in Lake Huron. Steamship companies which have vessels plying Lake Huron and Georgian Bay have been requested to join in the search.

The Ontario government, through its lieutenant governor, J. M. Gibson, tonight notified the club that it would assist in the search for the missing men. The Hudson Bay company also has replied favorably to the request for assistance sent from here today.

It was announced tonight that a representative of the Aero Club would be sent to Toronto to organize the relief expeditions.

FIFTY MEN STILL MISSING.

Reports Received So Far Show Total of 13 Drowned in Shipwrecks.

Jacksonville, Fla., Oct. 22.—Only the disasters at sea remain to be counted in obtaining complete reports of the damage done by the great hurricane which swept this state early this week. Although wire and rail communication has not been restored to many cities in the state, including Miami and Key West, all points for which fears were entertained have been heard from and all weathered the big blow in fairly good shape.

Thirteen drowned in shipwrecks is the most authentic count at hand, including those reported on both coasts of Florida.

Word came from St. Augustine that three dead had been found in the wreck of an unidentified four-masted schooner near Delray.

The missing total at least 50, including the crew of nine on the oil barge Dallas, which broke adrift from her tow in 100-mile blow.

ATHLETIC FAN IS SUICIDE.

Boy Quits Job to See Game; When Parents Scold, Hangs Self.

Philadelphia.—Excitement over the world's series between the Chicago Nationals and the Philadelphia Americans, it is said, was the cause of suicide of Frank Ayers, 15 years old. Ayers was a delivery boy in a department store, and when he was refused permission to absent himself to see the game here, the boy gave up his position. When his parents learned that the lad had quit work, the boy was sent to bed without his supper. Later, he was found hanging to a balustrade, having used a sheet for a noose.

More Freedom Is Given.

Lisbon.—Decrees have been published abolishing the exceptional laws put in force with the advent of the republic, including those concerning anarchists and the ones restraining newspapers from publishing undesirable news. All the bishops and the higher members of the clergy have announced their adherence to the republic. Soldiers who fought in the revolution have been granted four months' leave of absence with full pay. The minister declined to introduce a number of measures favored by the Socialist party.

Airship Scares Fishermen.

Noank, Conn.—When the auxiliary fishing schooner Ada Bell put in here the crew told of a narrow escape they had, of being hit by the equilibrium of the Wellman airship. Captain Christopher said that they were fishing on Nantucket shoals when a large dark object appeared, which they took to be a heavy bank of fog. As the object approached, however, they saw something bumping along on top of the water, and the motor was started just in time to get the boat out of the way as the airship passed.

Greek Costume Offends.

San Francisco.—On complaint of Andreas Devaris, one of the members of a company of Greek players, a warrant has been issued for the arrest of Policeman William Jurgens on a charge of battery. According to the story told by Devaris, Jurgens told him to go home and put on more clothes and when he refused the policeman clubbed him. Devaris appeared before the bond and warrant clerk clothed in a Greek toga and sandals.

Famous Hotel Bankrupt.

New York.—The Hoffman Hotel, at Broadway and Twenty-fifth street, one of New York's most famous hotels, was thrown into bankruptcy. Judge Bolt, in the Federal court, appointed a receiver with authority to continue business, and it was said that the whole matter soon would be adjusted by a reorganization.

Fifty Drown in Shipwreck.

New Orleans.—A cablegram from Rio Janeiro to the Piauynas says: "The steamship Wally was wrecked near the lighthouse at Arroas, off Para, and is a total loss. Some of the passengers were rescued, but it is believed that nearly 50 were drowned."

NATIONAL GOVERNMENT NEWS NOTES OF GENERAL INTEREST

OUTBREAK NOT FEARED.

Good Will Towards America Prevails in China.

Victoria, B. C.—C. W. Webster, a Spokane retired lawyer, and Mr. Moorehead, of the Chinese customs, who arrived by the Awa Maru from North China, say that there is no deep anxiety in China with regard to the prevailing unrest and they are of the opinion that an outbreak such as was recently predicted in Washington dispatches is unlikely.

Mr. Webster found in Pekin and other centers the utmost good will of Chinese officials toward the United States, and when in Shanghai he attended splendid receptions given to the American business delegation now touring China. Mr. Webster traveled across Siberia and found great armies of workmen engaged in double-tracking the trans-Siberian railroad and extending the Amur branch, which work he considers necessary, owing to the great volume of business offered in excess of the facilities.

Mr. Webster said that he did not think Russia entertained any desire to renew war with Japan. Rather it was evident that both Russia and Japan had mutually agreed to divide Manchuria, which must sooner or later be "gobbled up" by those countries.

OMAHA GAINS 21 PER CENT.

Nashville Census Shows Bulge of 29,499 Over 1900.
