**GOLDEN OPPORTUNITIES
 IN FT. GEORGE COUNTRY**

British Columbia farms lands are only \$4.00 per acre cash, balance to be paid in six years on the line of the Grand Trunk Pacific Railway, the longest trans-continental railway in the world, to be completed this coming summer. This is park like land practically open and ready for the plow, adjacent to the coming inland metropolis, namely: Fort George. The British Columbia & Alaska Railway traverses the entire tract on the east side of the Fraser river. The Fraser river is navigable for 1000 miles. There are now seven steamboats plying their trade on its broad waters. We own our own land and are prepared to give clear titles guaranteed by the government of British Columbia.

This land will raise 45 to 50 bushels of turkey red and red fire wheat; 100 to 115 bushels of oats, and all root crops grow in abundance.

The climate is mild, the summers being warm and long. The rainfall is 30 to 36 inches annually falling during the spring or growing season. Cattle are fed from 4 to 6 weeks during the winter. The valley has the Selkirk mountains

on the east as a protection against the cold winds of Alberta, and the low Coast Range gives this region the benefit of the warm chinook winds.

It costs very little to secure a farm in this section and you have only to look back at Portland and surrounding territory to realize that great profit can be made in farm lands if it is bought before the advent of the railroad. We have not one, but three, railroads under construction, 1000 miles of navigable waterway, and Fort George with a population of 1500.

If you are interested in such a country we will be glad to send you pamphlets and give you all the information possible. If convenient, call at our office and see samples of grain, pictures of the country, etc.

This land is \$4.00 per acre cash, balance 6 years, ranging in price from \$10.00 to \$20.00 per acre according to the distance from the railroad.

TELEPHONING TO THE COUNTRY

THE city and county are bound together by a telephone line

The farmer and his family use the rural telephone constantly, calling up each other and the market town on all sorts of matters and for all sorts of supplies and information.

City people also find the rural telephone a great advantage. A traveler from his room in the hotel talks with the farm folks miles away. Without the telephone he could not reach them.

The farmer, himself, may travel far and still talk home over the Long Distance Lines of the Bell System.
