Report on New Silver Leghorn.

Dorena, Oregon, Feb. 1, 1911.

Editor Leader—I have seen reports of several poultry tests published in the papers which are designed to give the poultry business a boost. I am also making a test of my Silver Leghorns as winter layers and by keeping them in small runs, also am testing their deportment under confinement. Thus far they are doing well and here is a report on 17 of my hens for the month of January: Total number of eggs 403, or an average of 13 eggs per day for the 17 hens for 31 days. Fed bran mash mornings and wheat at noon and evening.

Respectfully,
J. P. LAND.

Prairie Dogs in New Light.

When it comes to clearing away snow it is doubtful if there is a superintendent of street cleaning in America who can show certain results.

The demonstration was given recently at Prairie Dog terrace, which embraces an annual population of fifty busy workers. Undismayed by the fact that most of their ground mansions were buried under giant drifts, they cleared the snow away in a novel and expeditious manner. The little animals were divided into a dozen squads, with the oldest and broadest members in active charge. The fat member was placed in front, and the other three members of that squad pushed him ahead as a snowplow.

**Experience Is The
Best Teacher**

And it is through experience that we have learned the merits of the Celebrated Mallory Hat. The numerous customers who asked for a Mallory Hat at our store in the past and who would accept no other caused us to "sit up and take notice." We profited by this experience and have secured the agency for this famous hat for Cottage Grove.
