

A Bit of Spring News of Interest to All Lovers of Style

With the approach of Spring the question of selecting her new spring wearing apparel becomes of the greatest and acutest importance with every woman. She wants the embodiment of all that is stylish Now, she wants just those garments that her sisters of taste and refinement in the great centers of fashion are wearing.

The American woman everywhere, no matter whether her home be the largest city, some smaller town or the country is known the world over for her refinement and good taste in dress. But, and here is the critical point: those not living in the very largest cities have not the advantage of keeping in closest touch with all the whims and moods of dame fashion.

THEREFORE the question WHERE to buy becomes of the most vital importance to them. They should, and want to buy in a store that purchases its goods direct from the factories in New York and that at all times keeps in touch with the market.

The LADIES' TOGGERY fulfills this vital requirement. Moreover their stock is large and their prices are moderate. Style is a factor which is embodied in the most moderately priced garment and in the finest creations alike.
