The Grange of London, believing that it will augur to the good of all concerned, will hold a three days' picnic on the grounds of the Calapooya Springs company commencing Thursday.

The widow of General Logan says: "The changing styles are not to be charged up to woman's love of beauty, but to her willingness to be led docile and sheep-like by commercialists who prey upon her. Women are the befooled victims of commerce."

It is declared that from 5000 to 10,000 names on the University of Oregon referendum petitions are fraudulent and Detective Burns is at Portland working on the case. Some sensational developments are expected and the University may yet secure the big appropriation provided by the Oregon legislation last winter.

During the month of May the Cottage Grove post office handled 43,205 pieces of first class mail, 20,252 of second class, 6,238 third class and 924 pieces of fourth class incoming mail matter. During the same month it sent out 33,158 pieces of first class mail, 8,792 of second class, 2,043 of third class and 552 parcels of fourth class matter. Enough to keep the clerks and postmaster busy.

The Leader believes there is no one thing which would so much assist in doing away with the old long credit system and establish a cash or short time credit system as a Saturday evening or weekly pay day instead of the general monthly pay day. We can see no reason why working men could not just as well be presented with their pay checks every Saturday evening as upon the 10th or 15th day of each month. Such a system would render the credit system practically unnecessary and would aid materially in establishing business upon a cash basis. There is too much red tape about the modern working man's pay day. The Leader is required to pay the salaries of its working force every Saturday evening and we see no reason why all other industrial or manufacturing institutions should not do likewise.

These are the days when the city should be pressing its street and other improvement work; when private citizens who contemplate making improvements this year should, if they can see their way clear, begin at once; when ground should be broken for the large addition to the west side public school building. Why wait until the sultry August days or the rainy fall season? There are too many men idle here now, who need work, and the effect of this is in the air and helps to swell the cry of hard times. The work of production is not slackened in the least; the mines are doing their part superbly; the fields and orchards are promising fairly well; trade should be better than before, for more supplies are needed; if this can be supplemented with the usual improvements, the town will be filled with gladness a month hence, and people will be repeating: "There is no other place for a greater city within the upper Willamette valley."

**ADDITIONAL LOCAL**

Olympic is a hard wheat flour. Makes more and better bread.

The volunteer hose companies of this city have received neat new badges.

Wednesday is flag day and should be observed in an appropriate manner.

Joe Wilson has closed his meat market for the summer. Two shops remain open in this city.

George Atkinson returned to his mining property in Bohemia today and will spend the summer doing development work.

It is worse than useless to take any medicine internally for muscular or chronic rheumatism. All that is needed is a free application of Chamberlain's Liniment. For sale by Bensons Pharmacy.

A marriage license was issued Saturday to James Elledge and Anna S. M. Brokus, both of Cottage Grove. Mr. Elledge was deputy assessor in this precinct this spring and his bride is well known.

Mr. Gettys was down from Bohemia last week looking after business matters and visiting with his old friends, Mr. and Mrs. George Knowles. He is working in the Champion mine and says it is making a fine showing.

Supervisors in road districts where a special road tax was voted at the last election have begun work on the roads, the recent injunction suit filed by Cottage Grove people having no effect on the special tax money. Twenty-nine out of the 89 districts in the county voted special taxes.—Guard.

**Visit to Row River Valley.**

The Leader family spent Sunday the guests of Dr. and Mrs. R. McCargar on their pretty farm home near Dorena, six miles east of Cottage Grove. Their farm nestles cosily at the base of old Cerro Gordo mountain and all crops there promise an abundant yield. Dr. McCargar is a retired dentist of Red Bluff, California, and while he has spent but little more than one year on his Oregon farm he and his sons are making good progress. They have a good sized flock of goats, three milk cows, quite a number of Poland China pigs, three horses and 100 laying Plymouth Rock hens. One of the greatest attractions about the place is two Concord or Isabel grape vines, the stocks of which are as large as a mature apple tree, while they have a spread over an arbor fully 50x100 feet and these vines annually produces from 800 to 2000 pounds of grapes. These Dr. and Mrs. McCargar manufacture principally into sweet grape juice, a sample of which we found a most delicious and refreshing drink. There are numerous springs on this farm and with plenty of fruits and berries, it seems little more could be desired. After a splendid dinner, at the close of a most interesting and pleasant day, the drive home in the cool evening along the banks of Row river by the fertile farms of Hamilton and Robert Veatch, Felix Curran, Mrs. Ida Stocks, and John Spray, concluded a most enjoyable trip. In order to give his family better educational advantages, Dr. McCargar offers to sell his farm and accept as part payment thereon, desirable residence property in Cottage Grove.
