PINEAPPLE SHERBET IS NICE
Instructions for Making it in a Way That is Not Only Easy But Cheap.

Pineapple sherbet is easy to make, cheap and very delicious: Three cups granulated sugar, two cups water. Stir until sugar is dissolved, then boil five minutes. Add the juice of one good-sized lemon and one large pineapple. If one has a vegetable press it will not be necessary to be particular about peeling the pineapple. Put it through the food chopper first, then press the juice out in this vegetable press. In this way every bit of the juice is extracted. The juice from one can of pineapple might be used as well. Keep the mixture all together in a large bowl standing in a vessel of cold water until cool, then pour into freezer. When partly frozen add the stiffly beaten white of one egg and continue freezing. Let stand an hour or so to ripen. Any other fruit may be used instead of pineapple if preferred. Strawberry is very nice—also orange.

Typographical errors are usually funny only when you discover them for yourself in your own paper. Only occasionally are clipped examples humorous. One believes that this, from the Portland Oregonian of Jan. 30, is one of the latter sort: "Mr. Jones was last seen at breakfast in the Hofbrau, drinking a cup of his favorite broadcloth and black necktie. He also wore a coffee with cream. He was dressed as usual in a suit."—Cleveland Plain Dealer.

FLOOD HITS DENVER
Wall of Water Gets Two Lives and Does Immense Damage.

Notorious Cherry Creek Goes On Rampage, Flooding City and Stopping All Trains.

Denver, Colo.—A wall of water 25 feet high, carrying death and destruction with it, swept down Cherry creek here Sunday night, ripped open the concrete walls and in a twinkling had marooned hundreds of persons. Two persons are known to have been drowned.

Mayor Arnold stated that the property damage would reach at least \$2,000,000.

"Anything like an accurate estimate of the damage would be out of the question for several days," said Mayor Arnold. "Thus far we have learned of only two deaths from drowning, but there may be several more."

An infant boy was drowned when his mother, terror-stricken and up to her waist in water, dropped the babe and the little boy was swept down the stream.

The second known death was that of 8-year-old Christopher Jensen. The boy was standing on the bank watching the rushing water when the bank caved in and he was carried to his death. At Longmont, south of Denver, and at Cripple creek and Victor, northwest of here, the rain fell heavily, blocking traffic.

Word of the Cherry creek flood was conveyed to the city hall by telephone shortly before the crest reached Denver, and not a moment was lost in warning those within reach. The fact that the message was received early was the means of saving perhaps hundreds of lives.

Near the banks of Cherry creek dwellings crumbled like paper, and many hair-breadth escapes occurred. A number were rescued from the tops of houses.

The South Platte was at flood stage from the rains and when the crest of the Cherry creek overflow reached the river the Platte overflowed its banks to the northeast of the city.

Castledam dam, near the headwaters of Cherry creek, about 15 miles from Denver, has been weakened almost to the bursting point, and should the dam go out it would be difficult to predict what the extent of damage would be.

The torrential rain began about 3 o'clock in the afternoon, and soon afterward the water was above the curbing in the business district, flooding stores and hotels. In the lower sections of the city families were driven from their homes.

The crest of the flood in Cherry creek did not reach here until nearly 10 o'clock, coming as a climax to the floods of the afternoon.

Not a train left Denver Sunday night and none from any direction arrived. Trains from the south were stopped three miles southwest of the city.

FAST MAIL WRECKS EXPRESS TRAIN, KILLING 13
Chicago—Thirteen persons were killed, eight of them women, and more than 40 were injured in a wreck on the Chicago, Burlington & Quincy railroad at Western Springs, a suburb of Chicago, at 6:30 a. m. Sunday.

Coming through a fog with supposedly a clear track, train No. 8, a fast mail, ran full speed into the rear of train No. 2, known as the Overland Express, from Denver, which was standing still on the track, telescoping two of the Overland's Pullman cars.

Railroad officials refused to fix the blame until after the wreck has been investigated thoroughly. Mrs. F. A. Wilcox, who was in charge of the tower from which the block signals were controlled, said she was certain the block was thrown against both trains.

Archbald Case to Wait.
Washington, D. C.—It is practically determined that the Archbald impeachment case will not be tried by the senate this summer. This indicates an earlier adjournment of congress than seemed possible a few days ago. The delay is said to be in accordance with the wishes of Judge Archbald. It was arranged that the senate should be notified of the house resolution of impeachment and that the managers should formally appear next week to demand trial. The approaching political campaign favored a postponement.

DETAIN AMERICAN CONSUL.
Armed Rebel Guard Posted at Conference in Juarez.

Juarez—Twenty-five Americans, including American Consul Edwards, were held in the office of the Mexican Northwestern railway here for nearly two hours while an armed guard of rebels prevented them from leaving the building.

Rebel officials had become angered at the officers of the Mexican Northwestern over a \$5000 check payable to the rebels as export duty on a consignment of gold ore by the American Smelting & Refining company in Chihuahua. The shipment had arrived in El Paso, but when the rebels attempted to cash the \$5000 check, the banks in El Paso refused payment. After the check was given, the Federals had entered Chihuahua City and it is believed that the American Smelting & Refining company stopped payment on it, knowing that the rebels, because of their retreat, would be unable to trouble them further.

Consul Edwards went to the Northwestern offices to confer with H. C. Ferris, general manager of the road, Thomas Ryan, traffic manager, and C. T. Carson, general auditor. The officials were in conference at 5 o'clock when they suddenly found the doors of the building surrounded by armed men.

Consul Edwards telephoned for Colonel Pascual Orozco, Sr., head of the garrison, who arrived in a few minutes and ordered the guards to release all minor employees. The officers of the road were held. After a brief conference the American consul left, but the railroad officials were closeted with Orozco until 7 o'clock, when they were released and crossed to the American side. It was said they had agreed to make the check good.

ELKS HAVE GRAND PARADE.
Illuminated Floats, Autos and Bands Cover Five-Mile Course.

Portland—Pronounced by 250,000 people, the great majority of whom were visitors, as the most imposing and elaborate electrical pageant they had ever witnessed, the Elks' electrical parade Tuesday night moved over its five-mile course accompanied by the unstinted applause of an enraptured multitude.

The streets covered in the parade were congested for their entire length with a solid mass of bustling, good-natured humanity that entered fully into the festive spirit of the occasion. It was an occasion on which Portland people in their role of hosts made way for their guests who, being unable to secure seats in any of the spacious grandstands, were permitted to occupy all of the desirable vantage points from which to enjoy the magnificence of the pageant which was designed exclusively for their entertainment.

Included in the parade, which was headed by Police Captain Moore and a squad of mounted patrolmen, were 18 gorgeously decorated floats and nine bands, automobiles carrying the grand lodge officers and the commissioners of Portland Lodge No. 142. The parade moved shortly before 9 o'clock and completed its second circuit of Fifth and Washington to Morrison streets an hour and a half later.

OUTRAGES PROBLED.
United States Sends Investigators into Rubber Country.

Washington, D. C.—A repetition of the horrors of the Congo rubber industry among the native rubber gatherers of Peru is the cause of a dangerous mission which the State department sent up the Amazon river in the interest of humanity.

Acting Secretary Wilson has received information that Captain Stuart Fuller, one of the department's most trusted agents, had arrived at Iquitos, 2000 miles up the Amazon, on his way to the wild stretch of country to learn the facts.

Reports indicate the existence of conditions below the equator that parallel the outrages in the Congo country, where natives were forced by tortures and mutilations to collect certain quantities of rubber for Belgian and other concessions.

The concessionaire in Peru is asserted to be a British corporation. British representatives and the British government disclosed the charges against this corporation. The State department, although no American citizens are involved, consulted with British officials and others interested in the welfare of those natives, and made strong representations to the Peruvian government, securing pledges that the obnoxious conditions would be terminated.

Postal Bonds in Demand.
Washington, D. C.—Information made public by Postmaster General Hitchcock shows that postal savings depositors in Oregon applied on July 1 for \$5460 of the third issue of postal savings bonds. More than \$3000 of the total amount applied for are registered, indicating that they are being purchased as permanent investments. With respect to the amount of the bonds applied for Portland leads other cities of the state with \$4560, and following in order are Astoria, \$900, and Roseburg and Sumpter \$500 each.

Warship Repairs Cost \$15,000.
Washington, D. C.—Naval Constructor Baxter, who went from Boston navy yard to Newport to investigate the accident to the battleship New Hampshire, which collided with the liner Commonwealth, reported that temporary repairs on the warship would put her in condition to proceed under her own steam to the New York navy yard, where permanent repairs can be made at an estimated cost of \$15,000 in about two weeks.

CHAFIN AND WATKINS
Prohibitionists Name Same Candidates As In 1908.

Offer to Make Large Contribution if Party Will Adopt New Name is Shouted Down.

Atlantic City, N. J.—The National Prohibition convention concluded its labors here Saturday with the nomination of the party standard bearers of four years ago—Eugene W. Chafin, of Arizona, for president, and Aaron S. Watkins, of Ohio, for vice president. In each case the nomination was made by acclamation after a single ballot had indicated the preference of the delegates.

Four candidates for president were placed in nomination against Mr. Chafin. They were F. W. Emerson, of California; Finley C. Hendricksen,

of Maryland; Aaron S. Watkins, of Ohio, and Andrew J. Houston, of Texas. Each in turn withdrew his name after the first ballot.

The leading candidates against Mr. Watkins for vice president were Mr. Emerson, of California and George E. Stockwell, of New York. Mr. Chafin, addressing the convention, promised not to stand for a third nomination. Because of a rush to adjourn, the plan to change the name of the party was not taken up for general discussion.

A. J. Orem, of Massachusetts, in a brief speech, promised to pledge more money to the campaign fund should the name be changed.

"I believe we could make the campaign doubly effective if we should adopt a new name," said Mr. Orem. "We would be greatly aided in carrying our banner to success if we should adopt the name 'Progressive.'"

There were shouts of protest to this as well as to the name "conservative party," suggested by Rev. S. H. Taft, of California.

Fair Mission is Success.
New York—W. T. Sesnon and Theodore Hardee, chairman and executive officer respectively of the commission extraordinary to Europe for the Panama-Pacific exposition in San Francisco, returned on the Lusitania. They said their mission, which was to support President Taft's invitation to the governments of Europe to participate in the Panama exposition had been successful far beyond expectations. In every country they received assurance from the governments and manufacturers extensive exhibits.

Militia Aid is Favored.
Washington, D. C.—The Pepper bill to bring the National Guard into closer touch with the Regular Army was favorably reported by the house military affairs committee. Under the bill, the Federal government would disburse about \$8,000,000 a year to the 10,000 commissioned officers and the 112,000 enlisted men of the National Guard. The secretary of war and the militia boards of the state would be authorized to cooperate.

Montreal Faces Strike.
Montreal—This port faces a complete tieup of business on account of trouble between transport handlers, checkers, freight handlers and longshoremen and their employers, the Dominion Telephone company and the Canadian Pacific railroad. The transportation handlers demand a leveling up of wages from the minimum of 22 cents an hour, received now, to 25, the maximum paid.

Eberhard Will Not Join.
St. Paul—In a letter to Hugh T. Halbert, Minnesota Roosevelt leader, who recently mailed a circular letter to all candidates for governor in this state, asking them to go on record in support of the proposed new third party movement, Governor Eberhard positively refused to join the third party movement. "I can see no need of organizing a new party," he wrote.

Hair Falling?

You certainly cannot lose your hair and keep it, too. Which shall it be? Lose? Then do nothing. Keep? Then use Ayer's Hair Vigor. That is about all there is to it. Ayer's Hair Vigor is also a splendid hair-dressing and hair-tonic. It keeps the hair soft and smooth and greatly promotes its growth. It does not color the hair. Consult your doctor freely. Doctors are studying these hair questions much more than in former days.

Life of the Soil.
The soil may be said to be alive. It is a matrix supporting various groups of definite micro-organisms, and the investigations of the past few years indicate the possibility of determining by bacteriological diagnoses the crop producing capacities of different soils. It has been shown that the action of the nitrifying bacteria, especially in samples of soil, correlates fairly well with the productiveness of the same soils under field conditions.—Harper's Weekly.

In the Natural Course.
Life is ever-unfolding from within, and revealing itself to the light, and thoughts engendered in the heart at last reveal themselves in words, actions and things accomplished.—James Allen.
