#### Distinction.

Cora was fond of all-inclusive prayers, and one night she offered the following discriminating petition: "Lord, please bless mother and father and all of us, and give us everything good; and please bless our friends, and give them what is good for them!"—Harper's Magazine.

## TWO WOMEN SAVED FROM OPERATIONS

By Lydia E. Pinkham's Vegetable Compound—Their Own Stories Here Told.

Beatrice, Neb.—"Just after my marriage my left side began to pain me and the pain got so severe at times that I suffered terribly with it. I visited three doctors and each one wanted to operate on me but I would not consent to an operation. I heard of the good Lydia E. Pinkham's Vegetable Compound was doing for others and I used several bottles of it with the result that I haven't been bothered with my side since then. I am in good health and I have two little girls."—Mrs. R. B. CHILD, Beatrice, Neb.

#### The Other Case.

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached. I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation, but my husband thought I had better write to you and I did so, stating my symptoms. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your Vegetable Compound."—Mrs. HAYWARD SOWERS, Cary, Maine.

## Simplicity and Smartness in Two Up-to-Date Garments

Velveteen Dress.

Walking Costume.

**VELVETEEN DRESS.**—Very simple yet at the same time smart is the dress we show here; it is in tobacco brown velveteen. The skirt is plain; the bodice is Magyar, with cross-over fronts and plain basque; it fastens in front; the vest of tucked net being fixed at left side by press studs; a lace collar finishes the bodice, the elbow sleeves being edged with a band of fur. Hat of velvet to match the dress; it is trimmed with pale blue ostrich feathers. A large stole of black fox completes the costume.

**Materials required for the dress:** Seven yards velveteen twenty-four inches wide, one-half yard tucked net, five-eighths yard fur.

**Walking Costume.**—This costume is in champagne-colored Venetian cloth. The skirt has a wrapped seam down the center of front, with the lower edges cut sharply off, leaving a "V" shaped opening, which is filled in with material on which are sewn rows and rows of black satin ribbon; this also trims the coat on the revers and at the wrists. For the collar, black satin is used. Hat of black-satin, trimmed with a champagne-colored feather ruche.

**Materials required:** Four and one-half yards cloth forty-eight inches wide, about eight yards ribbon, one-quarter yard satin twenty inches wide, five yards silk or satin for lining coat.

### WHITE EVENING GOWN

Evening gown of ivory brocade with draped skirt. The corsage is draped with black chiffon.

#### Linings.

Green as a trimming, especially an eighteenth century shade of green, will be a feature, particularly as coat linings for velvet and fur. Yellow and orange are also popular for this purpose. Much can be expressed in a coat lining. Many of these linings are works of art in themselves, and a lining denotes proper appreciation of details which augurs well for the essential. A fascinating effect noticed in a tailor made coat of chestnut brown tweed was a lining of olive green satin with a piping all round inside of a natter blue shot ribbon.

#### Spring Jacket.

The spring jacket in the making is said to have a length of 27 inches, which is longer in the back than in the front. It will have long sleeves and will button high over the chest for the spring season, but it will probably be lowered as soon as the warm weather sets in.

### WRISTBANDS BACK IN FAVOR

Old Style Revived, Though in Much Daintier Fashion Than Those of a Few Years Ago.

Hail the old-fashioned wristband! It's in again. Very much so and you're not strictly up-to-date if you don't possess at least one specimen. These bands, which take the place of bracelets, but are much daintier, consist of strips of inch-wide velvet ribbon long enough to go once about the wrist. On the upper side of the arm, the strip of velvet is secured by a pair of inch-square or inch-long oblong clasps of engraved gold, hammered silver or carved ivory. That is to say, the simpler sort of wristbands are thus clasped. The more expensive kind are made of platinum or of gold or silver thickly encrusted with tiny jewels or gems or set with a single large jewel or gem, surrounded by others of much smaller size. Frequently several kinds of jewels ornament a pair of wristband clasps and again a single diamond or pearl is imbedded in the center of a square of precious metal.

It is possible to have a pair of the large old-fashioned cameo or coral earrings made over into wristband clasps, and, although in former days a single bracelet band of this type was rarely worn, nowadays it is commonly seen. Many women who have inherited a collection of old-fashioned ornaments are having them made over into bracelet clasps and usually the task is neither difficult nor expensive.

#### Tall Trimmings on Millinery.

According to the Dry Goods Economist, tall trimmings continue the rage and in some of the imported models this idea is carried almost to the point of absurdity. Among the most effective models now being shown in which the tall trimming idea is employed is a black Milan sailor with the brim gently rolled at the left side. A tiny fringe of black gours outlines the brim and from the edge of the brim at the left shoots upward a tall black gours aigrette bent at the top in loop form. The tall trimming idea is also strongly emphasized in this market. Question marks of feathers, ribbons, cords, etc., long pointed sleeves, flat spear-like ornaments of velvet and of various fancy silks, aigrettes of small flowers closely packed together, and long spike-like jet ornaments are all utilized in this fashion.

#### Metal Coin Purse.

An attractive novelty in jewelry is the tiny coin purse of perforated metal which holds dimes and nickels. It is strung on a fine neck chain or worn at the end of a narrow black silk ribbon.

### GOOD USE FOR LEFTOVERS

Meat Patties May Be Made of One Variety, or a Combination May Be Employed.

For these use either cold chicken and ham, or veal and ham, or even cold beef or a mixture of cold meats. One pound of good short crust pastry, two cupfuls of cold meat, one cupful of sauce, one tablespoonful of finely chopped parsley, salt and pepper, and one egg. Roll out the pastry to about a quarter of an inch in thickness, then stamp it into rounds slightly larger than the gem pans, allowing two rounds to each gem pan. Cut the meat into small dice; if chicken and ham, or veal and ham are being used, add white sauce; if dark meat, use brown sauce, stir the meat into the sauce, add the parsley, salt and pepper to taste. Grease the gem pans, line each with pastry, put on the lid, not forgetting to first wet the edges. Make a hole in the top of each, brush the top of the patty with beaten egg and bake them in a hot oven for 25 minutes. Put them on a sieve until cold.

**Packing Food in Ferns.**  
In Germany the use of ferns is coming into more and more favor for packing food, which is transported either short or long distances. The practice became common in England before it gained equal vogue in Germany, and the results are said to be excellent, especially in shipping fresh fruit, butter, fish and other food products which require unusual care.
