VOL. I. COTTAGE GROVE, OREGON, TUESDAY, MAY 13, 1913 NO. 17

## INSTALLING A SAW MILL

Owens Lumber Co. Will Operate on Silk Creek

A. D. Owens and sons have bought the McKibben saw mill plant and will soon begin moving it out on Silk Creek and will install it in the Owens timber tract near the site of the mill which burned last season. The new company will be known as the Owens Lumber Co., and they expect to have the mill set up and ready for operation by the middle of June.

Mr. Owens and sons are well known and successful lumbermen, having operated a saw mill in the Silk Creek district for many years and the loss of their mill last season was a severe industrial loss to the community. The news of the re-establishment of their mill will be very gratifying to the people of the Silk Creek valley and also to the people of Cottage Grove, the product of the mill being marketed at this place.

The Pacific Timber Company has consummated the sale of the Rouse saw mill, above London Springs, to Tom Geer, who will operate the plant, commencing at once.

Work on Creswell's new fruit and vegetable cannery commenced Monday. The vats, tables and other fixtures will be made at home and will be ready for installation by the time the machinery arrives.

## GEORGE LEA GETS NEWPORT CONTRACT

George Lea returned home from Newport Friday where he recently submitted an estimate for an additional city water reservoir, which will increase that city's water supply to 11,000 gallons per day. At a meeting of the Newport city council, Mr. Lea's estimate was considered favorable and he was employed by the council as supervising engineer for the construction of the new water system, work upon which will commence at once. Mr. Lea constructed the former system to the entire satisfaction of the city, but the growth of the place requires an additional supply of water.

## Russians Buy Big Tract.

Albany, Or., May 10.—The four representatives of a Russian colony in Saskatchewan, who have been touring Western Oregon for 10 days, looking for a location for the colony, today closed a deal for 3500 acres of land in Linn county, which is the first tracts they have purchased.

One thousand acres owned by B. J. Hecker and Owen Beam, of this city were bought and a contract made for the remainder. They will colonize the tract when they return to Canada. The land practically lies in one body and is situated 12 miles south of Albany. It is not far from the Willamette river and most of it is improved farm land. The colony, which will occupy this land, was incorporated by articles filed in the county clerk's office today under the name of Society of Independent Doukhobors, with a capital stock of \$10,000.

## Sunday School Entertainment.

The Latham Sunday School gave a program Friday evening, among the most interesting numbers being the readings by Miss Della Boyd and Mr. Mowe, the student Christian minister who is attending the Divinity School at Eugene, and who has been holding regular services at Latham during the winter. The vocal solos by Mr. Mowe and the duets by the Misses Orpha Stephens and Vergie and Lela Houston were also greatly enjoyed by all. The proceeds were donated to Mr. Mowe. A large number of people from this city attended the entertainment.

## Adjudged Insane.

Peter Taylor, a section foreman on the S. P. at Divide, was examined before County Judge Thompson this afternoon and pronounced insane, but has not yet been committed. Judge Thompson has not yet decided what action to take, says Saturday's Eugene Guard.

## Leader Effects Farm Sale.

Through the Leader the 40 acre tract of Mr. Stroup near Divide was sold last Friday to Mr. and Mrs. Stafford, late of Nebraska, who will proceed to improve the place and convert it into a pretty little foot-hill home.

J. V. Martin, the great San Francisco bird man, will attempt to guide his French bi-plane across the Atlantic Ocean from New Foundland to Ireland, 1635 miles in 24 hours, without a stop in August, in the hope of winning the \$50,000 English prize. He will take his wife with him.

## LOGANBERRY JUICE PLANT

For Our Neighbors Over in Douglas at Sutherland

(Sutherland Sun.)  
The Sun learns that negotiations are pending for the location of a plant here which will extract the juice from loganberries. The juice from loganberries has come to be recognized as far superior to grape juice as a healthful and refreshing drink, and at the present time it is impossible to supply the demand for this popular beverage. A syndicate, of which the J. F. Luse Company are members, has been formed for the purpose of manufacturing loganberry juice, and the syndicate has closed a contract with the J. F. Luse Company for one hundred acres of berries, which the company is to care for the first year.

At the present time the J. F. Luse Company has ten men employed putting in loganberry plants, and about 150 acres will be put in this spring if sufficient plants can be secured. Next year this acreage will be increased to 500 or 1000 acres.

From one acre planted to loganberries last season, the J. F. Luse Company this spring obtained 2500 plants, worth 2 1/2 cents each—\$25 per 1000—or \$62.50 for the acre. This illustrates what can be done with the loganberries when properly looked after and cared for.

The Everfresh Company has contracted for 3500 tons of loganberries for delivery here on and after June 15, and the plant must be completed by June first in order to be in shape to handle these berries.

## BUTTER MAKERS' NAME MUST BE ON WRAPPERS

The Leader is in receipt of the following circular:

All dairy butter offered or exposed for sale will be considered misbranded if it does not have plainly marked on each roll or square the words "Dairy Butter," "16 ounces, full weight," or "32 ounces, full weight," and the name and address of the manufacturer. Any person offering or exposing for sale dairy butter not branded in compliance with this ruling will be prosecuted under the statutes provided for the branding of food products.
