Stone to Fit the Purse

Is better than none at all. The spirit in which a monument is erected counts more than the cost.

A Moderate Cost

Stone will show as much respect and love for the departed one as a more expensive stone if you can afford only the smaller sum. We have various designs in low-priced memorials we shall be glad to submit to you.

Under the summer sun and stars
And under the winter snow

Left there by a nation's love.

The Inside of a Shoe

It is a lamentable fact that 90% of all shoes sold for less than \$4.00 contain substitutes for leather in the heels, counters and soles. You pay pure leather prices for this shoddy.

Pure shoe Legislation is pending in Congress and many different States. We heartily endorse it, because the rights of 100 million people are greater than those of a few hundred manufacturers.

We have one of the "Our Family" shoes cut up so you can see just how it is made. The uppers are made of the finest Box Calf or Velour Leather. The heels, counters and soles are of genuine sole leather. No substitutes for leather are ever used.

A TESTIMONIAL

Among many other testimonials Mr. Walker submits the following from Harry K. Metcalf, proprietor of the Sunnyside Greenhouses, Cottage Grove:

"I have seen your insect catcher and I believe it to be a very complete and effective trap for tomato fleas, beetles, etc., and it certainly cannot injure the most tender plant as the spray cure often does."
